## FORMER SEM STUDENTS REUNITE

Over 40 past pupils of St. Brendan's College from 1967, 1968 & 1969 classes returned to their alma mater. Addressed by school principal, Sean Coffey, Head Prefect, Fionán O'Donoghue and Deputy Head Prefect, David Finn, the speakers focused on how life at second level has changed since the 1960's.

Former College student and subsequently Chief Inspector at the DES Eamon Stack also addressed the group reminding them of the unique "sem lexicon" the shared terms and phrases, the columns of student groupings in

accordance with their home parishes. He also drew reference from Sean Kelly's Memoir and his life at St. Brendan's. He also recalled that the high achiever's results in photographs were published in the Kerryman following the Leaving Cert. Noting how education has changed since their time in school he highlighted that the 1968 Leaving Certificate involved a cohort of 12,000 students nationally compared with the figure of 62,000 in 2014. Following the formal element of the reunion the group spent the afternoon tracing their

adolescent footsteps on the stairs of the Brosnan building, through the dormitories and most especially in reviewing some of the many hundreds of photographs chronicling their times at St. Brendan's.

After the school visit the reunion continued with dinner at the Castlerosse hotel. With the College now about to launch its website, [www.stbrendanscollege.ie](http://www.stbrendanscollege.ie) the time is ripe to restructure a Past Pupils Union, providing an ongoing link to St. Brendan's.

# €145,000 EXTENSION TO MUCKROSS COMMUNITY CENTRE

The closely knit Muckross Community are coming together for a street collection in Killarney on Saturday November 1st to raise funds for the €145,000 extension to Muckross Community Centre.

"The extension will double the size of the Centre's hall," Chairman of Muckross Community Centre, Liam Kelly, explains, "as well it will provide essential storage space and disability toilets."

"The new hall will have a folding partition so we can divide it into two separate areas that can be used at the same time," Mr Kelly said this week. "As well we can use the full hall for larger community events."

"This development would not have been possible without a 75% grant from the South Kerry Development Partnership (SKDP)" Mr Kelly says, "we are extremely grateful to CEO Noel Spillane and his colleagues in South Kerry for their constant help and advice."

"Saturday November 1st Killarney street collection will help towards the €36,000 the Muckross Community Association has to raise to pay for the extension," Liam Kelly outlines, "we hugely appreciate the support of the

## KERRY'S TOURISM PROVIDERS PITCH TO FAR FLUNG MARKETS FOR LONG TERM TOURISM GROWTH

Travel Agents from Russia, China, Brazil, India, the Middle East and South Africa arrive in Ireland to plan business for 2015

A top group of 45 key travel agents from across the new and developing markets (including Russia, China, Brazil, India, the Middle East and South Africa) this week were pitched to by members of Ireland's tourism industry from across the country, which included Randles Hotels, Killarney; Star Outdoors, Kenmare; The Lake Hotel, Killarney; and Tralee Bay Wetlands Centre. The drive to grow visitor numbers from these emerging markets took place as Fáilte Ireland hosted a custom-made workshop for these target markets in the Grand Hotel Malahide, Dublin. Ultimately, over 3,690 direct appointments between Irish tourism businesses and these top travel buyers will take place over the course of the day.

As part of the process of selling Ireland, over the course of this week a number of tailor-made itineraries were put together for the travel agents to visit all parts of Ireland and to fully experience the best of Irish culture, heritage and food.

# WONDERS OF THE HIDDEN VALLEYS OF THE REEKS REVEALED

The wonders that are to be discovered amongst the Hidden Valleys of the Reeks are being revealed in a new brochure on the area being launched this week. The brochure has been produced by an alliance of businesses from the Black and Bridia Valleys as well as from the MacGillycuddy's Reeks and Glencar areas with support through the INTERREG Rural Alliances project operated by South Kerry Development Partnership Ltd. The brochure outlines in detail the many attractions that await a visitor to this region and provides them with details of the many businesses in the area whose services they can avail of during their trip. Chairman of the Hidden Valleys of the Reeks Alliance Ciaran Ryan said that the brochure aims to showcase the amazing attractions that exist in the area that are literally hidden from both locals and visitors to the region. "This region offers not just some magnificent scenery for a visitor but it also enables people to engage in many different outdoor activities in a fantastic natural environment" Ciaran said. Unfortunately, many visitors go out and tour the South Kerry area without ever realising the wonderful experiences that exist right on their

Ciaran said.

The new brochure will be widely available in the region and beyond and it is planned that it will be updated regularly to ensure all relevant information and details for visitors are included in it.

# KILLARNEY JOURNALIST LAUNCHES 'HIDDEN KERRY-THE KEYS TO THE KINGDOM'

'Hidden Kerry-The Keys to the Kingdom' is a wonderful collection of stories about the quirky characters and lesser-known sites of Kerry launched at the weekend by Killarney wordsmith Breda Joy. Hidden Kerry opens up the county for those at home and abroad. This beautiful hardback book takes you on the less-travelled paths of the Kingdom, peopled with a varied cast of characters and filled with colourful stories you will not find in brochures or guidebooks. Stories in the book, launched at a packed Dromhall Hotel on Sunday includes the story of Lord Kenmare's forgotten mansion, the daring plot hatched in Dingle to rescue Marie Antoinette and the tale of the German U-boat that landed Greek sailors at Ventry in the Second World War. Killarney native Breda Joy has been a journalist all her life. She has been awarded Provincial Journalist of the Year and was given a Certificate of Merit in the Justice Media Awards. She has also been shortlisted for the Francis MacManus Short Story Competition and the RTÉ/Penguin Ireland Short Story competition.

## RUN FOR A LIFE

Health Minister Leo Varadkar led by example in support of organ donation when he stepped out for the Irish Kidney Association's 'Run for a Life' family fun run at Corkagh Park, Dublin 22 last weekend. The Minister joined hundreds of members of the general public, young and old, for the charity fundraiser to demonstrate solidarity in support of the work of the Irish Kidney Association and the promotion of the importance of organ donation. The fun event offered participants of varying levels of fitness the option of walking, jogging or running competitively in either a chip timed 2.5km, 5km or 10km. Taking part in the event were brother Sean and Paudie Marshall from Tralee. Sean received a bone marrow transplant from his donor brother Paudie. They joined hands as they crossed over the finishing line with a time of 34 minutes in the 5km event followed shortly afterwards by Sean's daughter Jenny.

# MONEY MATTERS.....

By Dermot Cronin,  
**Financial Advisor**

## ARE YOU NEW TO INVESTING?

**It's good to know your options...**

We all want our money to grow and generate a good return. You may have noticed that interest rates are now very low compared to a few years ago and maybe your wondering whether your money is currently working as hard as you did to earn it in the first place. So, perhaps now could be the right time for you to consider all the investment options available to you. You have worked hard for your money and the thought of investing for some people can seem complicated. It is important that you understand how your money is invested and that you talk to an independent financial advisor about the products available to you and the returns you can expect. This should then influence the type of products that you invest in. Everyone will have a different appetite for risk and reward and there is a huge range of investments for you to choose from that are available from different financial providers and these can be very difficult for you to understand. A financial advisor can help you in many ways especially in understanding the options available to you and explain these options in plain simple english. You can choose the investments you're comfortable with and that are right for you and your goals.

If you have any queries in relation to the above or any other matter you can contact **Dermot Cronin** at **064 6622775** or **087 2893649**.

# A CELEBRATION OF KERRY ENJOYED BY ALL

A wonderful night of music and song that was a Celebration of Kerry was held in the INEC on Sunday night last in aid of St. Vincent de Paul.

The evening featured acts such as Siamsa Tire, Tralee, Tralee Musical Society, Killarney Musical Society, Killorglin Pantomime, Celtic Steps Oracle, Marina Buckley and the Kerry School of Music to name but a few.

One of the highlights of the evening was when Finbarr Coffey sang "This is the Moment" to footage of young Kerry players in training all the way up to Kerry's winning moments in the all Ireland and curtains opened to SAM and members of the Kerry team. The event was held to support the fundraising of Killorglin Marathon Man Joe Crowley who will complete his 32nd marathon - one in every county in Ireland this coming Saturday afternoon in Killorglin.

## MORIARTY'S CENTRA FARRANFORE GETS KERRY WALKING FOR BREAST CANCER

Moriarty's Centra Farranfore transformed the local community pink last Sunday for Centra's "Let's Walk" initiative as they raised vital funds for the Irish Cancer Society's Action Breast Cancer campaign. The local store hosted a charity Pink Walk which saw women, men and children from the community put on their runners and pound the pavements for this great cause!

Taking off from Moriarty's Centra Farranfore at 2.00pm, the group of enthusiastic walkers took to the pavement to raise funds and raise awareness. As Centra is selling a neon pink reflective vest in-store retailing at €5, with all net proceeds going to the Irish Cancer Society's Action Breast Cancer campaign - the group of walkers lit up the route with their neon pink attire!

# OPEN INVITATION TO JOIN THE KERRY BUSINESSWOMEN'S NETWORK

On Tuesday night, KBN (Kerry Businesswomen's Network) extended an invitation to women all over Kerry to attend their open night at the Fels Point Hotel in Tralee. Over 70 women from all over Kerry attended the event. This is the second event held by KBN this season. Women from all different backgrounds and businesses attended the event including accountants, retailers, graphic designers, marketing, health specialists, sales, food, doctors, entrepreneurs, start-ups, retirees and many others. KBN are encouraging not only women who own their own businesses, but those that work in a business or perhaps are thinking of starting a business, or work at home to join. "Retired females are also an integral part of the network as they have so much to offer when lending their experience, support and mentoring to new or existing businesses.

ATTENDING THE KBN SEMINAR AT THE FELS POINT HOTEL TRALEE ON TUESDAY EVENING WERE GRETTA O'CONNELL (JOHN CANTY CHARTERED ACCOUNTANTS), PATRICIA WALSH (OUTLOOK MAGAZINES & WALSH COLOUR PRINT), KARIE O'TOOLE (A PHOTOBOOK FOR YOU, KILLARNEY) AND HELEN MORIARTY (JOHN CANTY CHARTERED ACCOUNTANTS). PIC JOE HANLEY.

ATTENDING THE KBN WOMENS NETWORK WHICH WAS HELD IN FELS POINT HOTEL, TRALEE ON TUESDAY EVENING. L/R: LIZ MAHER, MIRIAM MCGILLICUDDY, MARY RUDDY, JEAN QUIRKE AND MARGARET BRICK.

The open night was a clear demonstration that women in Kerry are finally coming together in a very positive and pro-active way. Our aim is to promote each other's businesses and to encourage growth and prosperity within the county," said one of the organizing members, Liz Maher. Liz asked that this Christmas if each household reduced their online shopping by 10-20% and spend this money locally, the effect would be phenomenal, with regards to wages, employment and growth within the county.

As part of the open night KBN launched their "Friends of KBN" Programme. The programme

is a shop local initiative. Retailers, consultants and services all over Kerry are invited to offer a discount to KBN members in an effort to encourage Kerry Women to shop within county. Miriam McGillicuddy said: "The effect is twofold. Kerry retailers and businesses gain additional customers while members avail of discounts."

Anyone interested in joining KBN or participating in the "Friends of KBN" programme should e-mail [kerrybusinesswomen@gmail.com](mailto:kerrybusinesswomen@gmail.com).

Aine went on to sing another original song

"Hello" in the final. In the past, Aine has won the Royal Irish Academy of Music's Piano Composition Competition in 2011 and 2012 when she was aged 11 and 12 respectively which was open to everyone under the age of 18 in Ireland. The winning pieces were published in their piano syllabus for 2012 and 2013 both for which she received a cash prize. She also progressed to the All Ireland semi-final of the All Ireland Schools Talent search and just missed making the final 10 out of over 3100 people.

A regular TV performer, Aine has appeared both singing and dancing with her twin brothers Seamus and Tomas on TG4's Feis & Blood, An Jig Gig and more recently on Sky 191 Irish TV at Fleadh Cheoil na hEireann.

A student of the Intermediate School, Killorglin, Aine hopes to go on to third level to study Music. She, along with other finalists will play in TP Cotters Bar in Macroom on Sunday afternoon in aid of Macroom Community Hospital and Ballinagree Cancer Research Fund.

There will be a total of 24 White Collar Fighters and three exhibition matches.

Doors for the event open at 7pm with the first fight at 8pm.

## BOOST FOR TOURISM SECTOR AS GLOBAL TRAVEL GUIDES GIVE IRELAND THE THUMBS UP

Labour Senator Marie Moloney, has welcomed news that Ireland's reputation as a must-see tourist destination has received a huge boost thanks to its inclusion in top polls carried out by travel guides Lonely Planet and Condé Nast Travel.

"Today, travel bible, Condé Nast Travel has listed Sheen Falls Lodge in Kenmare in my native Kerry, as the top hotel resort in Europe having been voted so by its readers. I am delighted to see Sheen Falls Lodge receive such an accolade and a truly deserved one.

"This endorsement comes on the heels of Lonely Planet ranking Ireland in its list of top five countries to visit in 2015. It singles out Ireland for its stunning landscape and incredible hospitality. As one of the world's most successful travel publishers, printing over 120 million books in eleven different languages, it's recommendation carries huge sway and no doubt will encourage even more tourists to come here.

# STUDENTS BRING MUSIC TO ST. COLUMBANUS

## SONGS FOR ALL AGES

### INTERGENERATIONAL MUSIC PROJECT

Set dancing, piano solos, rousing renditions of Long Way to Tipperary and Pack Up Your Troubles: this was part of the programme on Tuesday, when children from Ms O'Neill's fifth class of St Olivers National School visited residents of the St Columbanus Nursing Home, as part of the Songs For All Ages music project. Ruti Lachs, project facilitator, has been working with both groups over the last three weeks – twenty five children from the school, and twelve adults from the nursing home, using poems and songs to elicit memories, and to interest the children in the stories of the older generation. The children have been composing new music based on the poems of Francis Ledwidge, one of Ireland's First World War poets. This piece, and an original song, will be performed at a concert in the nursing home in mid November.

At the meeting between the two groups, children introduced themselves to the older generation, and in a group discussion, asked the adults stories about their lives. One man remembered deep snow in 1926, up to the second storey of his house. Others told of their favourite pastime when they were young – working on the family farm, or playing music in the evenings in their family home. This was a great day for all involved, as it was fun and lively; it met the aims of the project

STUDENTS FROM ST OLIVER'S MEET WITH RESIDENTS OF ST. COLUMBANUS NURSING HOME.

by creating links between the generations, and helping to foster appreciation of the older generation in the children. Everyone is looking forward to the next get-together. The children will also perform the new pieces, and talk about the project, in a concert in November for their peers at the school. The project is being photographed, so that there will be a lasting photo display which will be displayed in both

the school and the nursing home.

This project is funded by Kerry County Council Arts Office and Killarney Arts, and co-ordinated by Ruti Lachs. It would not be possible without the support of St Olivers National School and of Killarney Community Hospitals, especially the activities officer, Bernadette Costello and teacher, Susan O'Neill.

# LIFE THROUGH THE LENS FOR COMMUNITY COLLEGE STUDENTS

Transition Year students in Killarney Community College have learnt the art of photography under the watchful eye of local photographer Breda Daly. In the course they looked at abstract photography, self portrait photography, indoor photography, pop culture photography as well as photo manipulation. According to Ms. Kerri McCarthy TY Co-ordinator "The students excelled in their photography skills and the passion of some future photographers and photo editors is evident among the TY group. The students thoroughly enjoyed the experience. They learnt practical camera skills including how to manipulate images through Photoshop. They were so engaged and interested in learning about photography. A most worthwhile experience was had by all the students". According to TY student Michelle O'Sullivan "it was a great experience and I would like to do it again, I will never look a photograph the same again". According to TY student Mutaz Almusawi "it was great opportunity to learn the skills of photography. There was so much that we did not know and now we have learnt how to capture amazing photographs. The highlight for me was learning how to use photoshop".

## GENEROUS STUDENTS RAISE MUCH NEEDED FUNDS

Third year students at St. Brigid's Secondary school in Killarney have been busy hiking the hills and mountains around Killarney in an effort to raise funds for the South West Counselling Service. The girls combined the hike, which was part

of the Billy Vincent Award with the idea to fundraise and their achievement saw them donate a cheque for €315 to the Counselling service. The school community is very proud of these students and the manner in which they choose

to live the school mission of supporting individuals experiencing personal challenges. Pictured with the girls are with Margaret McGrath, Year Head, Kate Murphy, Southwest Counselling and Roisin Moore Principal of St. Brigid's.

## MATHS WEEK AT ST. BRENDAN'S COLLEGE

Over the past week, 1st, 2nd and TY year students from Saint Brendan's College took part in the national 2014 Maths Week Ireland event.

Students were involved in a number of internal activities, ranging from solving "the Maths problem of the week", to competing with other schools in the nation-wide online Manga High maths competition (Saint Brendan's finished a respectable 41st in the country).

All first year classes went for a short walk as part of a "Maths eyes" event, which took them past local landmarks and through the national park. Students had to work in pairs and follow a pre-determined route to answer a mathematical based questionnaire as set out by Mr Jeremy Kenny. The questions were designed to make the students aware of some of the mathematical properties of their everyday environments.

The overall aim of Maths Week Ireland is to

AARON DUGGAN, DONAL O'CONNELL, CRAIG MCKENZIE VASS, DANNY CREMIN AND JACK O'CONNOR WITH TEACHER SHANE HEALY

make learning and appreciating maths fun and to realise that maths is just not for the

classroom, but for everyday life. We hope to have achieved some aspect of this aim over the last week and to maintain it for the future.

### Manage Your Health

**It's that time of year again so here are some tips on how to deal with the dreaded Coughs, Colds & Flu.....**

**THE FLU:** Flu is sudden in onset; sufferers will have a fever and be left feeling wiped out, exhausted and weak, which can last for a number of weeks afterwards.

**The Common Cold:** Commonly starts with a scratchy throat, followed by sneezing and a streaming nose.

**How to tell if you have a Cold or the Flu:**

SYMPTOM	COLD	FLU
Fever	Rare	High
Headache	Rare	Prominent
Aches & Pains	Rare	Common, can be severe
Weakness	Mild	Lasts a few weeks
Exhaustion	Never	Common
Cough	Mild	Common, can be severe
Sore Throat	Common	Common
Runny Nose	Common	Common
Sneezing	Common	Common

**TIPS FOR MANAGING THE COLD, FLU OR COUGH:**

- Drink plenty of fluids, such as water, vitamin-rich fruit drinks and hot drinks containing honey & lemon
- Eat a diet high in fresh fruit & veg
- Avoid alcohol, tobacco and caffeine
- Put a few drops of eucalyptus oil on your bed linen at night
- To protect others, cover your mouth and nose when sneezing or coughing, and wash your hands frequently
- Never exceed the stated dose of your cold, flu or cough remedy
- You can take paracetamol or ibuprofen to relieve headache, aches & pains and fever. Ask your doctor or pharmacist for advice about over-the-counter remedies.
- If you are taking medicines for other conditions, you must check with your doctor or pharmacist before taking other over-the-counter remedies.
- If your symptoms persist or worsen, consult your G.P.

**MANAGING CHILDREN'S COUGHS & COLDS:**  
 Following recommendations on the treatment of cough & cold in children under 6yrs, we have some tips on how to deal with the most common symptoms:

SYMPTOM	TREATMENT
Fevers, aches & pains	Paracetamol (Calpol) & Ibuprofen (Nurofen)
Chesty cough	Carbocisteine (Exputex)
Dry cough/sore throat	Glycerine & Honey Pharmacy Throat Syrup Tyrozet Lozenges

# RSA APPEALS TO PARENTS AND CHILDREN TO STAY SAFE THIS HALLOWEEN

**Call is made as road fatalities among children double in 2014**

The Road Safety Authority (RSA) is appealing to parents and children, today 31st October, to 'Be Safe and Seen' while trick-or-treating this Halloween.

The RSA is urging all road users to make road safety a priority this Halloween as 14 children under the age of 14 have died in the first ten months of the year on Irish roads. In 2013, seven children lost their lives, meaning the number of child casualties so far this year has already exceeded the total number of child deaths in 2013. Seven of the children who died on our roads this year were pedestrians and seven were car passengers.

The RSA is also calling on drivers to take extra care on Halloween night and reminding all road users to be vigilant and watch out for children, especially when driving in housing estates and residential areas.

"Halloween is a fun time for children and their parents. But it's important to stay safe, especially visiting friends and neighbours when out trick-or-treating," said Ms Moyagh Murdock, CEO, Road Safety Authority.

The RSA has the following tips for parents whose children are planning to go trick-or-treating:

- It's important that children are supervised by an adult at all times, children will be very excited about getting their sweets and treats, and may dart across the street without checking for cars. The RSA recommends that parents accompany all trick-or-treating children under 12.
- Speak to your child about the importance of staying safe when walking on the footpath or road before you leave the house to go trick-or-treating. Children will often be so excited about

going trick-or-treating that they may not hear or heed your warnings if you bring up safety tips when you are actually out and about.

- Children will be out while it's dark, so it's both hard for them to see and hard for drivers to see them. Consider having your child carry a flashlight, wear an armband or use a glow stick which is a fun and novel way for the kids to be seen. Children will love wearing them too. You could also consider sewing reflective materials onto your child's costume.
- Children often cannot see well when wearing masks, big hats, and other costume accessories that can obstruct their vision. So it's important to be by their side to ensure their safety at all times.

- Try to avoid costumes that are billowing or too long as they increase the chances your child tripping, especially when crossing the road.

"The clocks went back at the weekend so darkness is upon us much earlier in the evenings now. This means that it will be dusk or dark when children and their parents are setting out to go trick or treating. By following these important safety tips, we can ensure fun is had by all this Halloween and that all children out trick-or-treating are safe on our roads. Finally, we'd like to also appeal to drivers and other road users to be particularly vigilant on Halloween night, watching out for children who will be out after dark, especially when driving in residential areas," concluded Ms Murdock.

## ROAD USERS 'ARE YOU READY FOR WINTER?'

There are a number of simple precautions the RSA advises for driving over the winter months:

- Use your lights. As we come into the winter months, motorists are advised to use dipped head lights during the day so you are easily seen. Headlights and taillights should be clean and in working order. Ensure the beam on your headlights is adjusted correctly to avoid dazzling other drivers unnecessarily. Only use fog lights in foggy conditions and don't forget to turn them off after they have been used in fog and mist
- Check your tyres...they are your only contact with the road. Car tyres should be above the minimum legal thread depth of 1.6mm but need to be changed before they get this worn. The RSA advises replacing tyres when they reach 3mm and don't buy second hand tyres as you cannot be sure of its history. The legal limit for motorcycle tyres is 1mm and again should be replaced before they get this worn. Tyres need to be at the manufacturers recommended level to give the motorist the best chance in extreme conditions.
- Safe Distance. It takes longer to stop a car during the winter weather so slow down and allow extra distance between you and the car in front. Remember, only a fool breaks the 2 second rule!
- Understand your brakes. Check your car manual

and find out if your vehicle has safety assist technology such as Electronic Stability Control (ESC) or Anti Lock Braking System (ABS). Learn how these technologies can assist your driving in harsh weather conditions.

- Make sure you can clearly see. All too often motorists do not de-fog or de-ice windows and mirrors which can compromise visibility. This winter make sure windows and mirrors are clear, and carry a de-icer and screen scraper in the car. Do not use boiling water as this can crack the windscreen. Wipers are especially important for driving this winter; they need to be checked for wear and tear, and replaced if necessary;
- Be prepared. During these winter months it is advised that motorists carry a number of essentials in the boot of their car, should severe weather strike again this year.

- a) High visibility vest
- b) Appropriate footwear in case you need to leave your vehicle e.g. boots
- c) A hazard warning triangle
- d) Spare wheel
- e) Tow Rope
- f) A shovel
- g) De-icing equipment (for glass and door locks)
- h) Spare bulbs
- i) First aid kit

- j) A fire extinguisher
- k) A working torch
- l) A car blanket, additional clothing & some food and water
- m) Its recommend that drivers keep their fuel tanks topped up especially in times of adverse weather conditions!. You do not want to run out of fuel on a journey in bad weather.

In the event of a breakdown. Drivers need to ensure their vehicle is well in off the road so as not to obstruct other vehicles. The driver should also put on their hazard warning lights. If the vehicle breaks down on the motorway pull in as far as you can, alerting traffic behind you with hazard lights. The driver should leave their vehicle, get behind the barrier (on the embankment) and call the Gardaí, on their mobile phone or roadside telephone.

Beware of "Black Ice". Black Ice is one of winter's biggest hazards as it is difficult to see. Watch out for sheltered/ shaded areas on roads, under trees and near high walls.

And most importantly, Keep up to date. Listen to local weather and traffic reports. Pay heed to the weather warnings alerting drivers of unsafe and dangerous driving conditions.

## UNHEALTHY RELATIONSHIP PATTERNS

Do you find yourself repeating similar patterns in different relationships or in a particular relationship over time. Perhaps you often feel lonely or jealous in your relationships. Maybe you try to earn the other person's attention by being overly nice or giving without paying heed to your own needs or desires. Do you fear rejection or being abandoned? Could it be that you choose partners who are distant and can make you feel and/or believe that you're not good enough. Do you focus so much on your partner that they feel stifled? Often these patterns can reflect our inner experiences and our beliefs about ourselves and our emotional availability to others.

Psychologist John Bowlby defined attachment as a 'lasting psychological connectedness between human beings' and attachment theory can help us to understand the ways in which we connect with others – particularly those who are emotionally significant to us. We develop our attachment style in childhood – and the way in which our parents and/or caregivers responded to us will impact on our relationships.

For example, a child who believed that the only way he/she could be loved was when they were doing something for others, may grow up believing that they need to earn the attention and love of others. Adults who believe they are inadequate and unworthy of love may have learned this in their early years – which will inevitably lead to difficulties in their relationships. They may believe that the other will leave them or that they are going to disappoint the other – leading to them clinging to the relationship and/or getting jealous easily.

However, the good news is that with awareness we can discover our own attachment style and learn to cultivate healthier relationships. Some of the ways in which we can bring more awareness to our relationship patterns include the following:

1. Bring your awareness to your bodily sensations. How do you feel in your body? Being aware of this can help you to understand how you are feeling and/or thinking.
2. What thoughts are you thinking about you/ the other? How do these thoughts impact on your feelings and emotions?
3. Which emotions do you struggle with - how do these emotions affect your thoughts and beliefs about yourself?
4. Are you overly self-critical? Can you show yourself some self-compassion, support and care the way you might a close friend or a small child?
5. Learn to communicate more directly about your thoughts, feelings and needs. Once you become aware of what these are – then you can express them more fully to others.

Next week we will focus on the importance of communication and how counselling can help us to find our own voice, and become more confident as we make ourselves known to another person.

## Health Matters.... With Dr. Michael Moloney

### BREAST CANCER

WEEK 4

#### Treatment continued:

#### Chemotherapy

Chemotherapy is a treatment of cancer by using anti-cancer medicines which kill cancer cells, or stop them from multiplying. When chemotherapy is used in addition to surgery it is known as adjuvant chemotherapy.

Chemotherapy is sometimes given before surgery to shrink a tumour so that surgery may have a better chance of success and also a smaller operation may be performed. This is known as neoadjuvant chemotherapy.

Chemotherapy may also be used for some women to treat breast cancer which has spread to other areas of the body.

#### Trastuzumab (Herceptin®)

Trastuzumab (also known as Herceptin®) is a treatment that may be given to women who have a large number of HER2 receptors in their cancer. It is a type of medicine called a monoclonal antibody. It works by attaching to HER2 receptors on the surface of breast cancer cells, thereby stopping the cancer cells from dividing and growing.

#### Screening for breast cancer

In Ireland Breast screening is carried out through the BreastCheck Programme. BreastCheck is a Government-funded programme providing breast screening and invites women aged 50 to 64 for a free mammogram on an area-by-area basis every two years. The aim of BreastCheck is to reduce deaths from breast cancer by finding and treating the disease at an early stage. Mammography is a special X-ray test and aims to detect breast cancer at an early stage when treatment is most likely to be curative.

Genetic testing and mammography screening (and preventive treatments in some cases) may also be offered to younger women with a strong family history of breast cancer. See your doctor if you feel this applies to you.

All women of every age should be breast aware. That is, get to know how your breasts and nipples normally look and feel. Try to recognise any changes that occur before and after your periods. See your GP if you notice any changes, lumps, or other abnormalities in your breasts or nipples. Don't wait until your next scheduled screening appointment.

**CLUB CHAMPIONSHIP FINAL:** A disappointing second half saw our senior side lose to neighbours Dr. Crokes in this years club final last Sunday in Fitzgeralds Stadium. Although trailing by 2 points at halftime, we felt we were well enough in contention for this game but a strong final quarter from our rivals saw them ease home and we now wish them all the best, should they proceed in the Munster Championship

**UNDER 16'S:** Mid Kerry U16 Championship Final Result From Cromane:

**MILLTOWN/CASTLEMAINE 2-05**

**BEAUFORT 0-10.** Congratulations to all involved in the success of winning The Mid Kerry Championship... Padraig O'Brien top scored on a very wet and windy evening for football with 2-3 whilst Daniel Cronin and Ciaran O'Connor also chipped in with 0-1 each. Beaufort were reduced to 13 men early in the

2nd half but continued to fight hard and nearly clinched an unlikely win with a minute to go when their centre forward burst through but to Milltown's relief he rattled the side net. Fantastic success for the club! Well done to the management and players!

## BEAUFORT GAA NOTES

**UNDERAGE U-6 TO U10:** Age group of boys and girls have finished for this season. Well done to all. They had challenge games and blitzes and overall had a great year. The Club wishes to acknowledge the time and commitment given by all trainers and mentors who work tirelessly with these young players. No doubt we have more county players both boys and girls developing in the club for later years. Thanks to the parents also who transported the players to training and matches and helped out throughout the year with Refreshments etc.

**BEAUFORT U16S:** Sponsored by Killarney Credit Union played Milltown/Castlemaire in the Mid-Kerry Final on Saturday last in Cromane. Beaufort played with the wind in the first half and led by 3 points at half-time but lived to regret the wides they had in this half. They were also down to 14 players early in the half when they had a player dismissed with a red card. The 2nd half saw them reduced to 13 players when they had another player sent off but to their credit they kept in the game with only a point separating the teams as full-time. Beaufort had the chances to level the game if not win but it was not to be. Beaufort's outstanding player as was all year was Mike Breen who unfortunately was constantly fouled and pulled down while going forward. Mike is a great prospect for the Kerry Minors and Jack O'Connor would not go wrong in bringing Mike in with the County for the coming year. **TEAM:** Sean Coffey, Ian McGillicuddy, Cormac O'Connor, Cian O'Sullivan, Luke Sweeney, Mike Healy, Kealan Cahill, Declan Floyd, Mike Breen, Paul Murphy, Ciaran Kennedy, Joseph Glinwood, Paudie Coffey, Aaron Foley, Jonathan Kissane, Padraig Cronin, Rory Clifford, Timmy O'Connor, Michael O'Shea, Ciaran O'Sullivan.

**BEAUFORT U12S:** Sponsored by Maurice Foley of MF Decorating played Listry in an eagerly awaited local derby on Sunday morning but Beaufort proved to be far superior in a very one sided affair. This team has improved immensely during the year under the guidance of John Brendan O'Brien, Tim Carey, Vinnie Sheehan and Donal O'Connor. They will play their last game next week-end away to Templenoe.

**LOTTO:** Lotto results of Sunday, 19th October for jackpot of €2,000. Numbers drawn: 9, 11, 16, 23. No jackpot winner. Consolation Prizes - €80 Tom O'Connor, Meanus, €50 Paudie Coffey, Gortbee, Shane O'Sullivan, Shanacloon Upper, Eileen Cerrotta c/o Breens Shop.

**KILLARNEY LEGION:** CONGRATULATIONS TO OUR UNDER 12 BOYS WHO CLAIMED THE EAST KERRY DIVISION 1 TITLE RECENTLY BY BEATING FOSSA 5-13 TO 4-08. **RESULTS: SENIOR CLUB FINAL:**

**DR. CROKES 4-13 LEGION 1-09.**

**SENIOR CLUB FINAL:** Two goals within a couple of minutes of each other in the opening ten minutes of play ensured that there was going to be no repeat of the senior football championship result between Dr Crokes and Legion. Playing against the wind in the opening half, both goals were invaluable to us. We started with Johnny Buckley at full forward and after Kieran O'Leary and James O'Donoghue swapped points, O'Leary rounded his man and shot to the net in the 8th minute. Two minutes later O'Leary provided the opportunity, this time setting up Ambrose O'Donovan for a second goal. Both sides swapped points shortly after but Legion had the better of the second quarter, pointing from a brace of frees. Conor O'Loughlin pulled off a great save to leave Dr Crokes leading by two at the break, 2-02 to 0-06. Pointed frees were the order of the day in the second half. Kieran O'Leary (0-02) and Johnny Buckley had pointed frees for Crokes with James O'Donoghue replying for Legion. Gavin O'Shea was pulled down in the square and the resulting penalty was converted by Johnny Buckley. Thereafter, Legion did get a goal from another penalty when James O'Donoghue calmly slotted home following a foul on David O'Sullivan and Ambrose O'Donovan closed the scoring with a goal in the 58th minute from a Bryan O'Shea delivery. Full-time score: Dr. Crokes 4-13, Legion 1-09.

contest every ball with Rathmore, throughout the field. Glenflesk developed good moves but came up against a very strong Rathmore defence, who stifled the scoring chances.

Glenflesk put up the first score, a point by Dara Roche, in the opening minute. Playing with the strong but unhelpful wind Rathmore notched up five points in the first quarter, four pointed frees from Michael O'Riordan and a point from play by Brian O'Leary. Dara Roche added another Glenflesk point in a move involving Cian Horan and Jeff O'Donoghue. Rathmore drove forward in the last five minutes, and attacked at pace from the half back line. Midfielder Brendan O'Keeffe slipped the ball to the intruding George O'Keeffe for Rathmore's first goal. Young Lee O'Donoghue won and converted a free for Glenflesk and Michael O'Riordan pointed a free for Rathmore. Half time Rathmore 1-6 Glenflesk 0-3.

On the resumption, Rathmore pulled further ahead, with four points, these from the boot of Mark Reen (2), Brendan O'Keeffe and Eoin Lawlor, and giving Glenflesk a mountain to climb. At the other end, a certain point was diverted against the upright by the wind. Glenflesk keeper Kenny Cronin, pulled off a great save, denying what looked like a certain goal, but by the three quarter stage, Rathmore led 1-11 to 0-4 and from then to the end the result was a foregone conclusion as Rathmore attacked in waves. A good move by Mark Reen, Michael O'Riordan and Brian Moynihan was cleared off the line by Glenflesk full back

Matthew Culloty. Glenflesk lost their hard working captain Donal O'Sullivan through injury and Rathmore suddenly had a bigger avenue towards goal. Eoin Lawlor worked the ball to Conor O'Sullivan for Rathmore's second goal and within five minutes, wing forward Brian Moynihan found the net with a ground shot. Jeff O'Donoghue and Dara Roche finished with fine points for Glenflesk. Final Score Rathmore 3-12 Glenflesk 0-6.

## CROKES CRUSH THE LEGION TO WIN ANOTHER CLUB CHAMPIONSHIP CROWN

**DR. CROKES 4-13,  
KILLARNEY LEGION 1-9.**

Holders Dr Crokes retained their Castleisland Mart Kerry Senior Club Championship title when they brushed aside the challenge of neighbours and great rivals Killarney Legion in a one-sided decider at Fitzgerald Stadium on Sunday. Crokes, who earlier in the season lost out to their neighbours in the third round of the County Senior Championship, gained sweet revenge for that defeat. They could now represent Kerry in the Munster Club SFC if Mid Kerry defeat Austin Stacks in next Sunday's Kerry SFC final in Austin Stack Park, Tralee. Despite being named at midfield on the match programme, Johnny Buckley lined out at full-forward for much of the first half and turned in a man of the match performance, accounting for 1-5 of Crokes' tally, while Kieran O'Leary also excelled with 1-7.

Buckley tormented the Legion defence, and was here, there and everywhere, bossing the game, creating and taking scoring chances, as well as converting some great frees, particularly from distance.

Legion's main attacking threat came from James O'Donoghue, who despite the close attentions of county colleague Fionn Fitzgerald still finished with 1-5 to his name.

DR. CROKES SENIOR CLUB CHAMPIONSHIP, WINNERS. PHOTO: PADRAIG HEALY EVOQUE PHOTOGRAPHY.

Legion failed to take advantage of the strong breeze in the first half as Crokes, with goals from Ambrose O'Donovan and Kieran O'Leary, led by 2-2 to 0-6 at half-time.

Legion never gave up, but the writing was on the wall soon after half-time as a string of Crokes points from Kieran O'Leary (3) and Johnny Buckley (2), pushed them 2-7 to 0-9 clear with 46 minutes gone.

The floodgates really opened when Johnny Buckley scored Crokes' third goal from the penalty spot when sub Gavin O'Shea

was fouled. Almost immediately, James O'Donoghue netted a penalty at the other end for Killarney Legion but Ambrose O'Donovan, with his second goal, rounded off a comfortable win for the men in black and amber

**DR. CROKES:** Kieran O'Leary 1-7 (0-5 frees), Johnny Buckley (1-5) (1-0 pen, 0-5 frees), Ambrose O'Donovan (2-1).

**KILLARNEY LEGION:** James O'Donoghue (1-5) (1-0 pen, 0-2 frees), Conor Keane (0-2, 2 frees), Jonathan Lyne (0-1), Kieran Slattery (0-1).

The Park were 2-1 home winners against Abbeyfeale. Cian Purcell and Mervyn Shambala were the scorers.

**15'S NATIONAL CUP:** The Park were 5-0 winners away in Limerick at Aisling Annacotty. Mike Slattery hit a hat trick and his three were added to by goals from Robin McCarthy and Thomas Burke. Killarney Athletic went all the way to penalties in their game in Corbally. And in those penalties the boys from Woodlawn were flawless scoring all 5. Liam Curran, Mark Fennell, Jason Coffey, Liam Purcell and Finbarr Hickey were all successful from the spot and then Ciaran Thompson saved the Limerick team's last penalty to send Athletic through.

Both The Park and Killarney Athletic are into the third round and one win away from the open draw. Sadly Listowel Celtic went out going down 2-0 to Herbertstown, Camp Juniors lost 3-1 at home to Regional United despite a Seamus Boyle goal. Killarney Celtic's slow start away to Nenagh cost them. They found themselves 2-0 down early on but pulled one back thanks to Ryan Kelliher. Nenagh then went 3-1 up before Josh Fleming made it 3-2. However Celtic couldn't find the equaliser to take the game to extra time.

### REPORTS: DALY SUPERVALU 13'S:

Tralee Dynamos and Listowel Celtic lead the way in the early stages of the 13 Premier Division after both of them won at the weekend. Tralee Dynamos were too strong for Ballyhar in Tralee and goals from Danny Butler 2, Adam Joy, Leo Gaxha, Sean Kennedy and Eson Jashari sees them top the table on goal difference. Listowel Celtic were 4-0 winners away to Camp thanks to goals from Ronan O'Neill, Tadgh O'Connell, Conor Hogan and Robert Foley. In 13 Division 1 Killarney Celtic B took the point at Park B winning 4-2. Terry Sparling, Harry Buckley, Daniel O'Keeffe and Niall Carey got the goals for The Hoops.

St Bernard's have made the perfect start to the 13 Division 2 campaign. Oisín Maunsell scored twice with Mikey Clifford and Michael O'Sullivan to see them go two win's from 2.

Camp B made it 4 points from 6 following their 5-0 win away over Listowel Celtic B. Maurice O'Connell and Oisín Smailes both scored twice and Conor O'Leary got the 5th.

Dingle Bay Rovers join them on the same mark after they were too strong for Castleisland. Dara O'Beaglaoi scored twice as did Padraig O'Cearna. Cathal O'Beaglaoi, Dylan Geaney, and Patrick Saunders all hit one each.

Fenit Samphires got their first points on the board thanks to goals from Eddie McCarthy, Ed Stack, Dara Heim, Neal Cassidy, Conor Lenihan and Conor Gaynor.

### FOUNDATION SPORTS 14 DIVISION 2:

There was one game in the even ages section where Asdee proved too strong for Dynamos B. Alec Laurent, Jack Farrell, Barry O'Neill, Conor Twomey and Bernard O'Callaghan were the scorers for the North Kerry side.

**KILLARNEY PLAZA 15'S:** Mastergeeha will be delighted to have taken all 3 points from their trip to Tralee. They defeated Dynamos 3-1 with Dillon Murphy scoring twice and Sean Cahill once. Dara Lowth replied for Dynamos.

**DIVISION 1:** Killarney Celtic B's second win from 2 sees them top the table. They brought all 3 points back from Caherciveen as they defeated Iveragh United. Matt Poe scored 3 with Eamon Murphy and Alek Grestsak getting 2 each. The Hoop's C team were defeated by Castleisland. Alex Ramonsa scored for Killarney Celtic but with Kieran Ward, Ben Cooney, Conor Donoghue, Josh Horan and Lorcan Hickey amongst the goals Castleisland took all the points.

### FOOTBALL PROVES A HIT FOR ALL:

110 Football for All players from around Munster arrived at Killarney Celtic for the latest in a series of Blitz's where the emphasis is on fun and taking part and not the results. Playing were the hosts Killarney Celtic, Listowel Celtic and The Park representing our League, Limerick FC, Carrigaline and Middleton from Cork and Cahir Park from Tipperary.

There was great support for all the teams and everyone enjoyed the games. However the biggest cheer of the day was reserved for the special guest. Billy Dennehy had scored for Cork City the night before to see them move 2

points clear of Dundalk with the two teams to meet in the League decider.

Billy was familiar to many of the Football for All kids as Carrigaline and Middleton has been on the pitch at half time on Friday night, something Killarney Celtic's players had done previously.

Billy was a wonderful guest and spent ages standing for photographs and autographs and was excellent with the players. The visit of one of the countries top professionals was certainly the highlight of the day for many. The next Blitz will be held in Cork.

## MASTERGEEHA FC

**NIGHT AT THE DOGS:** Mastergeeha F.C. are holding a fundraising night at Tralee Greyhound Track on Saturday 6th December. All support welcome.

### U15 TRALEE DYNAMOS 1 MASTERGEEHA 3

In their first league game of the season the boys got a deserved win away in Tralee. Dylan Murphy (2) and Sean Cahill were the scorers in this very good team performance.

### SENIORS DIV 2 SNEEM SANTOS 2 MASTERGEEHA 6

In this game Mastergeeha started slowly and went two down early on. However once the seniors settled, they were the better side with Alan O'Brien, Eoin Horan (2), Richie O'Connor (2) and Colm Lenihan scoring the goals. All played well.

### MASTERGEEHA F.C. LOTTO:

**FAI JUNIOR CUP: KILLARNEY CELTIC 1 AVENUE 0**

A tough game against an excellent Avenue

side who were very resilient and hard to break down, with Cathal O'Shea managing to crack home a winner. Photos by Padarig O'Donoghue are on our facebook page.

**U17 LEAGUE: CASTLEGREGORY 0 KILLARNEY CELTIC 3**

Paudie Looney's team produced a superb performance against Castlegregory, with goals by Cian Casey, Oran O'Donoghue, and Stephen McCarthy.

**U15 NATIONAL CUP: NENAGH 3 KILLARNEY CELTIC 2**

We went 2-0 down early on against a strong Nenagh side. We regrouped to pull one back through Ryan Kelliher but went 3-1 down just after the break. We put some great football together from then on and made it 3-2 through Josh Fleming. We had a very strong penalty claim shortly before the final whistle but look, sometimes you get the call and sometimes you don't. Congratulations to an excellent Nenagh side and we wish them well going forward; well done to all the Celtic lads and a big thank you to the travelling supporters.

**U15 DIV ONE: IVERAGH 1 KILLARNEY CELTIC B 7**

A superb display by Celtic. We were outstanding in clinically executing the chances - Matthew Poe got a hat-trick while Eamonn Murphy and Alex Grestiak got two apiece - with left back Denis O'Connor having an absolute stormer of a game.

**U15 DIV ONE: CASTLEISLAND 6 KILLARNEY CELTIC C 1**

In fairness, Castleisland's A team were far better than us on the day but the lads showed great heart and guts, including a great strike by Alex for our goal, and the character they showed was a real credit to the whole club.

**U13 DIV ONE: PARK B 2 KILLARNEY CELTIC B 4**

A great duel between two honest and skillful sides. On this occasion we managed to get on top thanks to goals from Terry Sparling, Harry Buckley, Daniel Okute, and Niall Carey, but it was a hard fought battle all through.

## EAST KERRY U-12 GIRLS DIVISION 1A FINAL.

## MILLTOWN/LISTRY CAPTURE DIVISION 1 TITLE

This was never going to be an easily attained title. Cromane travelled to Milltown/Listry and having won the toss elected to play against the gale force wind and try and take something from the book of Jim McGuinness and attempted to limit the Milltown/Listry attack in the 1st half. Milltown/Listry pushed hard knowing that they needed to get a good lead to protect in the 2nd half. Early goals from Katie Boyle and Captain Ella Teahan along with a brace of points from Ciara O'Mahony seemed to indicate that this would be a game of two halves, but the Cromane forwards made the most of limited possession and when the game stood at 2-4 to 3-01 on the 20 minute mark it looked as though Cromane had done enough to see off their neighbours. Milltown/Listry however battled hard and with the Cromane goalie proving hard to beat, they had to settle for five further unanswered points to finish the half strong. It was a reverse of tactics in the 2nd half and the Milltown/Listry mantra being what we have we hold. With resolute defending and credible counter attacking Milltown/Listry starved Cromane of possession inside their own half and matched Cromane for scores. Goals win matches but on a day when backs defended like warriors on both sides, point taking provided the winning formula. 2-12 is a credible score at this or any age group and

MILLTOWN/LISTRY U12 GIRLS DIVISION 1 CHAMPIONS. EAST KERRY WINNERS

Milltown/Listry's ability to snuff the Cromane scoring threat held a 4 point advantage at the eagerly awaited final whistle. Final score from a windy Milltown pitch was Milltown/Listry 2-12, Cromane 3-05.

The Milltown/Listry team lined out as follows: 1 Sarah Flaherty, 2 Michelle O'Dowd, 3 Aileen O'Leary, 4 Natasha Myers, 5 Amanda Flynn, 6 Caoimhe O'Donoghue, 7 Caoimhe Burke, 8 Ella Teahan, 9 Niamh Broderick, 10 Elisha Bradley, 11 Ciara O'Mahony, 12 Maggie O'Dowd, 13

Anna Kerrisk, 14 Katie Boyle, 15 Kitty O'Dowd. As everybody now knows no team is complete without the subs and panel and the efforts of the following girls cannot be overstated as all played vital roles throughout the year: Kayleigh Roche, Laura Scanlon, Kelsey Kerins, Tallula Courtney, Carla Counihan, Aisling O'Callaghan, Caoimhe Ferris, Millie Mason and Natasha Griffin

## 2014: ANOTHER GOOD YEAR FOR DAIRY FARMERS

(BY TOMMY ROCHE, CASTLEISLAND)

Dairy farmers will look back on 2014 with affection; the record milk price of 2013 continued into this year and has slowly eased back towards normal. The winter and early spring was extremely wet, April/May was average and then from June through September nobody worried about the weather. Farm work is easy when the sun shines, it still has to be done but the stress is taken away when you are no longer chasing a few dry hours. It rained just enough to keep the more pessimistic individuals quiet and in the warm sunshine nature poured forth its bounty. Silage and hay stocks are replenished for the winter and every farmer has a little extra for the next bad year. The wisdoms of generations gone by are always relevant and the saying "old hay is old gold" is still to the forefront of every mind following the spring of 2013.

October is a peculiar month on a dairy farm. Grass is still at the centre of the cow's diet, she is still milking as she has done since spring but the urgency is gone out of the daily chores. Field work is all but finished, yard work for the winter is generally under control, barring a specific project but it is still an important month to "get right". Most farms now stockpile grass during September, this "bank" is then eaten during October and November as grass growth rates slip below daily demand. This is a task which takes years of experience to get right. Too much grass grown and it will rot at the base and the cows will reject it, too little and cows will have to be housed sooner on a winter diet. This adds to expense

and workload hence a special effort is made to plan the supply in advance. Getting the cows to eat this grass is not plain sailing either, in wet conditions they will turn up their noses at the idea of cleaning up their allocation, not unlike a child with his cabbage or carrots. A battle of wits then ensues, it may take a few days, but as creatures of habit they will eventually accept a regime of daily allowances and peace resumes. Better to stay out of their way as much as possible during those days though, a herd of cows can make a lot of noise when they don't agree with your plans. Why worry about a little waste you might ask. The other side of this equation is the grass plant, if it is not properly grazed now and dead material is left in situ for the winter then it will not grow as effectively next year. So measuring how much grass you assign every 12/24 hours is important, too little equals hungry cows, too much and 2015 suffers. This is where the fun starts, each cow will eat approximately 15kgs dry matter in 24 hours, and each hectare will contain somewhere between 1500 and 2500 kgs of available grass dry matter. Calculator, walking boots, strip wire and good electric fence required. There is more to feeding grass than just opening the gate.

## HOW WILL BUDGET 2015 IMPACT ON FARMERS

Budget 2015 introduced a range of measures focused on rebalancing the market in favour of long-term land leasing:

Income thresholds for relief from leasing income have been increased by 50% e.g. for leases greater than 10 years the exemption increases from €20,000 to €30,000.

New income tax threshold of €40,000 for leases greater than 15 years.

Incorporated farm companies allowed as an eligible lessee and lower age threshold of 40 years removed in order to be a qualifying lessor.

The abolition of stamp duty on agricultural leases between 5 and 35 years to active farmers.

To support the transfer of farms to the next generation the following measures were introduced:

CGT Retirement Relief – Land which has been leased for up to 25 years will now qualify for relief (previously 15 years).

CGT Retirement relief for disposals outside the family – Land let on a conacre basis will now qualify provided land is disposed of by 31 December 2016.

The definition of farmer for CGT Agricultural relief narrowed such

that only "active" farmers qualify or someone who leases the agricultural assets on a long term basis to an active farmer.

Stamp Duty relief between certain close relatives extended to 31 December 2017.

The combined impact of the increase in the long term leasing tax exemption limits and the CAT Agricultural relief could mean that, for example, a person who received a gift/inheritance of farm assets could benefit from 90% Agricultural relief and up to €40,000 of annual exempt rental income.

Further changes introduced were: Change to income averages allows farmers to average their taxable income over a five year period (extended from three years). By increasing the period to 5 years the impact of price fluctuations and the impact of weather may be lessened.

The farmers' flat rate addition for farmers not registered for Vat will be increased from 5 per cent to 5.2 per cent from January 1st.

## HALLOWEEN IS GETTING NEAR

The shops are stocked with all sorts of scary masks and costumes and news items lately have been taken up with stories of giant and scary spiders roaming into homes throughout the country, despite the fact that now is the time for spiders to reach their maximum adult size. They especially grow large when they have had plenty to eat and, being insect predators, they have grown fat on the full and wholesome menu of all those flies and bugs that nice, warm, sunny 2014 provided and that would otherwise have bothered us.

There are over 370 species of spiders in Ireland and all spiders are venomous that is how catch their insect prey - by injecting venom down hollow fangs into their victims. But they don't really bite humans. We are much too big and taste foul.

Only about half-a-dozen can open their mouths wide enough, and have fangs long enough to deliver a venomous nip that feels like a wasp sting and it can become infected and ooze pus but so can a scratch from a thorn. Deaths from spider bites still hover around the zero mark.

Now for another form of fangs - A "vampire grave" containing a skeleton with a stake driven through its chest has been unearthed by Professor Nikolai Ovcharov and his team of archaeologist while excavating the ruins of Perperikon, an ancient Thracian city located in southern Bulgaria, close to the border with Greece.

The skeleton, thought to be of a man aged between 40 and 50, had a heavy piece of ploughshare - an iron rod, used in a plough - hammered through its chest. The left leg below the knee had also been removed and left beside the skeleton.

The find is the third such discovery in Bulgaria, and bears a strong similarity to two previous graves discovered in 2012 and 2013 in the Bulgarian seaside town of Sozopol, 200 miles to the east of Perperikon, which were nicknamed "the twin vampires of Sozopol".

Regardless of whether you are waiting up

to become acquainted with Dracula and his relations or to listen out for things that go bump in the night - if you are an animal owner, try to keep them as calm as possible and above all please ensure that they cannot escape if they become terrified of the bangs and hisses of the illegal fireworks which no doubt will be around.

## THE TOILET IS NOT THE DIRTIEST PLACE IN THE HOUSE

Toilets, have only 50 faecal bacteria per square inch, according to a study by Dr. Chuck Gerba, a microbiology professor at the University of Arizona.

Here are some surprising places and objects that frequently contain large amounts of bacteria that could make you sick.

● **CUTTING BOARDS:** They have about 200 times more faecal bacteria than toilet seats, coming from raw meat, particularly animal insides where faecal bacteria originates. To clean, run plastic cutting boards through the dishwasher - if you do not have a dishwasher cut the meat on a plate instead. Never cut meat on a wooden board and when you use them for chopping or cutting other produce, scrub well and make sure you let wooden boards dry completely before storing.

● **KITCHEN SPONGE:** This must-have cleaning tool has 10 million bacteria per square inch, and its dishcloth cousin has 1 million per square inch. You can clean them by running them through a dishwashing cycle or placing a wet sponge in the microwave for two minutes.

● **MAKE-UP AND FACE CREAMS:** In order of most to least contaminated, according to a study of bacteria in beauty products: Face creams (70% of those tested), mascaras (37%) and eye shadows (23%). Changing beauty products every three months will cut down on contamination.

● **MOBILE PHONES:** It's not hard to believe that your phone, which you breathe on, is a bacterial playground. Once a week, clean with

alcohol-free disinfectant wipes.

## THE WORLD'S MOST ENDANGERED WHALE

A genetically distinct group of whales—possibly an entirely new species—has been discovered off the coast of Florida's Panhandle region.

Scientists discovered the genetically unique set of about 50 whales during recent research in the Gulf of Mexico. The whales, which are members of the Bryde's family, live year-round in the Gulf. They reside in an underwater canyon near Florida's west coast, an area highly susceptible to offshore oil spills.

The whales' home, DeSoto Canyon, is adjacent to the canyon where the 2010 Deepwater Horizon oil spill occurred. The whales don't migrate from the Gulf, and have more in common genetically with Pacific Bryde's whales than with their Atlantic cousin, according to the study.

## CENTENARIANS' SECRETS

Blowing out 100 birthday candles is more possible than ever. According to the U.S. National Institute on Aging, we're on the brink of a watershed moment in history. Quite soon, there will be more people on Earth who are 65 than 5.

And longevity is reaching new records. The oldest documented person in 2012 was 116 -- 73 years old when the first man walked on the moon, and already 93 when the Berlin Wall fell. So what does it take to live to 100? According to study conducted by the Journal of the American Geriatrics Society, it's mostly a matter of genes. But science is also showing that even small efforts toward taking care of our health, such as exercise and diet, can have a striking effect on how long we live. To help boost your own odds, be sure to take advantage of 7 tips that'll help you live to 100.

- Wake up each day and just get busy.
- Don't dwell on the tough times.
- Find a good doctor.
- Decide to be content.
- Serve others.
- Dance.
- Forgive.
- Exercise in the fresh air.

This advice might not be anything we've not heard before, but it takes on deeper meaning when it's from those who have lived long enough and well enough to know what they're talking about.

## SHELTER DOGS HELP TURN TROUBLED TEENS TURN THEIR LIFE AROUND

Society for the Prevention of Cruelty to Animals Los Angeles (spcaLA) in cooperation with The Juvenile Division of the Los Angeles Superior Court and the Los Angeles District Attorney's Office, is re-instilling empathy into teens with a revolutionary approach to curing violence - the Teaching Love and Compassion Program for Juvenile Offenders (JTLC).

In a two-day, court-mandated course – a condition of probation for some juvenile offenders – teens are paired with shelter dogs and offered intensive sessions designed to help at-risk youth identify and break the cycle of violence.

For the last two years, spcaLA has pilot-tested the jTLC programme with juvenile offenders from communities like Long Beach and Sylmar. 80% of the offenders have avoided trouble and not reoffended. jTLC is unique to spcaLA and Los Angeles County.

“As an animal lover, retired Police Sergeant and currently Los Angeles County District Attorney Juvenile Offender Intervention Program (J.O.I.N.) hearing officer, I knew from experience and studies that the direct correlation between animal cruelty and domestic violence, child abuse, bullying and school fights is factual,” said Lianne Osendorf. “The cycle of abuse will continue unless there is intervention to break the cycle. The collaboration of the LA DA and spcaLA to bring awareness and intervention to these minors is a major step in doing just that. Thanks to Melanie Wagner, Director of Humane Education, and her staff and some very caring District Attorneys the program has been a phenomenal success. With few exceptions the minors that participate come away from the experience with new found respect for animals and people. The weekend class focuses on teaching minors how damaging abuse can be not only to animals and people but also to the person inflicting the abuse.”

jTLC attendees range from teenage girls who were convicted of bullying to an animal abuse offender who, at 8 years old, was bullied by his brother to injure a rabbit. Now at 14 years old, he was sentenced to jTLC for hitting a dog in the head with a brick.

TLC has helped over 500 at-risk youth exhibiting behavioural problems or anti-social tendencies. The programme is designed to prevent animal cruelty and in turn prevent violence toward people. The TLC program helps students identify and break the cycle of violence through positive feedback, building self-esteem and increasing respect for all living creatures.

## ON THIS DATE – OCTOBER 24TH

1642 - Irish Confederate rebels established government at Kilkenny.

1789 - Work began on the construction of the Royal Canal.

1795 - The Third Partition of Poland divided the nation's remaining land among Prussia, Austria and Russia. Poland ceased to exist as a country.

1880 - Fanny Parnell launched the Ladies' Land League in New York. Known as the Patriot Poet, Fanny Parnell was the leading spokeswoman throughout the United States for the organisation.

1945 - Death of Vidkun Quisling, Norwegian

politician; executed.

1998 - New British proposals for a European defence force which could undermine Irish neutrality were outlined at a key summit of EU heads of government in Austria.

1999 - The first state funeral ever held in Co. Cork took place for former Taoiseach Jack Lynch at Cork Cathedral.

1999 - Westlife became the first boy band to score number ones with their first three singles; and, as their song Flying Without Wings hit the top, they became only the third act ever to see all of their first three releases go straight into the charts at number one.

2000 - Gardaí successfully seized Halloween rockets and bangers worth close to £1 million in a warehouse north of Omeath, Co. Louth

2003 - A smoking ban in all enclosed workplaces except private dwellings was signed into law. Prisons were to be excluded to prevent security and conduct problems. Hoteliers and publicans considered legal action. The law went into effect on January 26, 2004.

Vidkun Quisling, (born July 18, 1887, Fyresdal, Norway - executed Oct. 24, 1945, Akershus Fortress, Oslo), was a Norwegian army officer whose collaboration with the Germans in their occupation of Norway during World War II established his name as a synonym for “traitor.” Quisling entered the army in 1911 and served as military attaché in Petrograd (St. Petersburg; 1918–19) and in Helsinki (1919–21). He assisted in relief work in Russia under the famous Arctic explorer and humanitarian Fridtjof Nansen and later for the League of Nations. In the absence of diplomatic relations between Britain and Soviet Russia, he represented British interests at the Norwegian legation in Moscow (1927–29). As minister of defence in an agrarian government (1931–33), he gained notoriety for repressing a strike by hydro electrical workers. He resigned from the government in 1933 to form the fascist Nasjonal Samling (National Union) Party, which stood for suppression of Communism and unionism, but he never gained a seat in the Storting (parliament).

At a meeting with Adolf Hitler in December 1939, Quisling urged a German occupation of Norway; after the German invasion of April 1940, he proclaimed himself head of the government. He was held responsible for sending nearly 1,000 Jews to die in concentration camps. After the liberation of Norway in May 1945, he was arrested, found guilty of treason and other crimes, and executed.

## WEED DATING

Bet you thought I had misspelt the headline, can't say I blame you, but weed dating actually exists, naturally is began in the US when it first made an appearance at a Northeast Organic Farming Association in Vermont in 2010 and since then other farmers have organised their own meet-ups as far away as New Zealand. In addition to providing some volunteer farmhands, the events have been used as fundraisers, neighbourhood mixers and outreach for the host farm. As for the event itself, there's very little required besides a turnout and some weeds to pull.

In weed dating instead of sitting across from

each other at tables, you meet each other in bed — a garden bed, that is. Here's how it works: Lines of men and women face each other across a row of vegetables in need of some TLC. They weed and get to know each other. After a set amount of time, either the men or women move down to the next partner. Depending on the attendance and weeding logistics many host farmers have weeder's work in small groups that are broken up and reformed until everyone has met each other.

## A DOG WHO'S ALLERGIC TO PEOPLE

A friendly stray dog who was found to be suffering from a mysterious skin condition is being given a new chance at a normal life — thanks to the tireless dedication of his rescuers. When Robin Herman, who runs Lucky Dog Retreat Rescue, Inc. in Indianapolis, Indiana, first saw the patchy-haired black lab named Adam, she knew she had to try and help him. She and her staff had success treating dogs with skin conditions in the past, so she suspected that all the young dog needed was someone patient enough to find the cause of the problem.

“For the most part, it's just a matter of feeding them good food and giving them a stress-free environment,” Ms. Herman said. “They usually heal up pretty quickly.”

The rescue centre staff fed the dog a clean diet and gave him frequent medicated baths, but even after six weeks of special treatment, his skin condition failed to improve. Meanwhile, Adam had to live full-time wearing a cone, or else he'd bite and scratch at his irritated skin until it was raw and bloody.

Ms. Herman and her staff were at a loss, though undeterred in their commitment to find a solution. That's when Adam's veterinarian recommended that a blood test be done to see if there might be something in the environment that was causing an allergic reaction.

When the results came back, Ms. Herman could hardly believe it. As it turns out, Adam did have an allergy — to people.

“I laughed. I thought the vet was kidding. The vet said she wasn't and explained that just like people can be allergic to dog dander, dogs can be allergic to human dander. She was surprised too. She'd never seen it before” Ms. Herman added.

To those who'd tried so long to make Adam better, it suddenly made sense. All the time and attention they'd devoted to trying to care for him had actually been making him sick. But now that they know what is wrong, they have a better idea of how to treat him.

Adam will soon start treatment with blood serum created just for him which will hopefully help his body build up a tolerance to the human dander allergy. Both Ms. Herman and her vet are optimistic that he'll get better — better enough to live a normal life with a family that loves him as much as they do.

“We just want to make him comfortable, so he doesn't have to live in a cone. Once we get there, God willing, we'll find him a home, he's sweet and funny and a very special little dog.

## GARDENING OUTLOOK

with John O'Sullivan

### FOCUS ON DIVIDING HERBACEOUS PERENNIALS

If you divide your herbaceous Perennials regularly it will ensure healthy, vigorous plants that will look good and should perform year after year. It also gives you the opportunity to multiply your plants.

Every two to three years should be enough to divide most perennials to maintain good vigor and healthy plants but if you want to divide them for the purpose of propagation, it can be done more regularly.

The best time to divide herbaceous Perennials is when the plants are dormant, so anytime from November to mid March. A lot of spring flowering plants such as Irises, are best divided in Summer after flowering when they produce new shoots.

When you have divided your plant and you have either planted some in the border or in pots, remember to keep well watered until established.

### Know Your Rights: DEBT RELIEF NOTICE

#### QUESTION

I am unemployed, getting social welfare and living in rented accommodation. I have large credit card debts and a credit union loan of €13,300. I can't make my repayments and the only asset I have is a car worth €1,200, which I need to take my son to school. Is there anything I can do to reduce my debts?

#### ANSWER

You may qualify for a Debt Relief Notice (DRN). This is one of three debt resolution mechanisms introduced under the Personal Insolvency Act 2012 for people who cannot afford to pay their personal debts. In general, you can qualify for a DRN if your net monthly income after deductions for reasonable living expenses is under €60 and your total assets are valued at €400 or less. There are some exceptions. You are allowed, for example, to own a motor vehicle valued at €2,000 or less. You may qualify for a DRN if all your qualifying debts are below €20,000, excluding certain "non-permitted" debts.

You must apply for a DRN through an Approved Intermediary (AI). You must disclose all details of your financial affairs to the AI, who will then advise you whether or not you meet the conditions for a DRN, the consequences, any alternative options, and the fee that you may have to pay to the Insolvency Service of Ireland (ISI). The AI service is free.

The DRN provides you with protection from creditors for three years. If your circumstances do not change and you meet all the conditions of your DRN, at the end of the three-year period the money you owe to the creditors named on the DRN will be written off.

You can choose an AI from the Register of Approved Intermediaries published by the ISI. Several Money Advice and Budgeting Service (MABS) companies have been authorised to act as AIs. If you are thinking of applying for a DRN through MABS, you will first need to answer some questions to check if you meet the eligibility criteria. You will need to gather all relevant information about your debts, assets, income and circumstances.

You can get further information from MABS on 0761 07 2000 (Monday to Friday, 9 am to 8 pm) [mabs.ie](http://mabs.ie) or from the ISI's helpline 0761 06 4200 (Monday to Friday, 9 am to 6 pm) and [isi.gov.ie](http://isi.gov.ie).

### FOCUS ON WHAT YOU WANT, NOT WHAT YOU DON'T LIKE!

"Whatever we focus on expands!" If we focus on the positive, there will be more of it appearing in our life. Unfortunately, it is also true with the negative thoughts, as well. The field of Positive Psychology and modern neuroscientists has been able to prove that our attitude and perception have a strong impact on reality. Our brain will rewire the entire body to make it correspond to your current beliefs. So if you believe that you are overweight, it will be so; if you are certain that you are getting old quickly, you begin to create factors that accelerate the aging process.

On the other hand, if you think that your body is strong and beautiful, your body will respond to that belief as well. Wherever you put the mind, the body will follow. Most of the time we talk about and focus on the things that we don't like about our bodies: flabby stomach, wrinkles, not the right size on jeans, thin hair... the list goes on and on!

**COACHING ACTION:** Today and every day adopt a practice of looking for 10 great things about where you are, who you're with, what you're doing, why you're doing it and what it will give you. Start looking for the positive in all that you do and in everyone you meet and watch your life expand in that glow of positivity!

many favours. This time I ask you this special  
one, (mention favour).

Take it dear heart of Jesus and place it within  
your own broken heart where your Father  
sees it.

Then in his merciful eyes it will become your  
favour not mine.

Amen.

Say this prayer for three days.

Publication of prayer and favour will be  
granted. **M.H.**
