## IANSPIRATIONAL IAN RECORDS FIRST PODCAST

The IANSPIRATIONAL that is Ian O'Connell has recorded his first YouTube podcast titled "Be Your Self". The recording recounts the events of the day that changed his life completely after falling from his bike in Killarney National Park in August 2017.

Over the past 18 months Ian has been inspiring people of all ages. His attitude towards the events of that day, and his message of positivity to look forward, not back, has resonated with so many people. His interview on the Late Late Show last summer especially left a lasting impression with many people, spreading his message If You Can't Stand Up Stand Out! So much so, the motto featured on Conor McGregor's training top recently!

In this first episode Ian details the events that followed after that fateful moment, explaining the scans, tests, hospitals stays and rehab that he went through for the next nine months before returning home to Killarney.

Have a listen here as Ian tells the story in his own words and the three things that he says he has learned from this experience. His second podcast will continue his story and tell us about life after coming back home!

It has also been announced recently that Ian will be the 2019 Ambassador for the GAA Golf Challenge, an event where he was the beneficiary of a new wheelchair-adapted car in 2018. Ian is pictured at his home with Liam Daniels, Chairman of the annual GAA Golf Challenge. The 20th annual GAA Golf Challenge will return to Monaghan on August 9th/10th 2019 and this year's beneficiary is seven year old Fionn McAnaney from Ratharney Hurling Club in Co. Westmeath who is raising funds to travel to the USA for medical treatment. The podcast can be accessed on the following link:

## 5 DAYS 5 NEW WAYS FOR PRES GIRLS

**A**s part of the Green School Initiative, St. Brigid's Secondary School Killarney are tackling a new travel campaign called **5 days 5 New ways**. The main aim of this campaign is to encourage alternative means of travelling to school in order to reduce congestion outside the school entrance. This campaign also focuses on the health and wellbeing of the student to encourage them to walk and cycle to school. The school also hopes to promote the very topical issue of climate change by reducing carbon emissions.

On Monday the 4th of March at 8.30am the Greens Schools Committee launched the Park and Stride initiative. Students were

dropped to Tesco car park in town and walked to school from there. Carpooling was the mode of transport for Tuesday. Cycling was the third method of transport for Wednesday. Thursday, students assembled in the Lidl carpark and were escorted to school. Friday, encouraged more people to use the bus service. The Green Schools Coordinator of St. Brigid's, Sheree Murphy said "The support from various organisations such as Killarney Gardaí, Killarney Tidy Towns Committee and Mayor of Killarney John Sheahan has been phenomenal. I think everyone would like to see the public, in particular students getting more active in the morning as it is

not only beneficial to our health but also to the environment and Killarney town itself." A particular thank you to the Tidy Towns committee who sponsored a €30 voucher per day for any student who got involved in the 5 Days 5 New Ways Initiative. The student's names were entered into a raffle for a voucher. Mr. Colm Copper representing AIB also sponsored a voucher for students who got involved in two or more mornings. Kerry footballer and All-star winner, Ms. Sarah Houlihan was also on hand during Thursdays event in order to encourage more walking to school. Thank you to Garda Jamie Lenihan who organised Garda presence on each of the days.

## Not a sign in sight....

*With Killarney National Park as her second home.... Award winning photographer Valerie O'Sullivan has highlighted the confusion caused by Google Maps and Eircode for visitors to Killarney*

We are truly blessed to live in the wonderful surrounds of Killarney and surrounding valleys and mountains, we do appreciate every moment of its natural beauty. This renowned 'heaven's reflex' has been celebrated, in prose, verse, painting, and its location has been the inspirations for filmmakers and photographers.

As a tourist destination the signage for trails, walks and paths in Killarney National Park, leaves a lot to be desired, actually leaves a lot to the imagination.

The most obvious is the lack of sign posts for Torc Waterfall and Torc Mountain. With the help of Google maps and Eircode, it has enhanced our sense of direction. However confusion is heightened at the road that leads to the 'Old Kenmare Road' where visitors are sent by Google Maps to Torc Waterfall! - 3km off course! to 'Upper Torc Car Park'

or Clogheren Upper. The road itself is one continuous pothole, not fit for purpose, when the visitor and local arrive, after swerving to avoid enormous crevices. The visitor looks around aimlessly at the map which indicates, red, blue and yellow dots! There is no signage for Torc Mountain, the most accessible and trail friendly mountain in the Park, neither are there proper signposts for Torc Waterfall, Cardiac steps loop or the many lovely loops of Barr na Currane.

It's hard to believe the Kerry Way Ultra, run by Eileen Daly, is the toughest ultra marathon in the Country, a 200km race, that sees athletes traverse all the ancient trails, highways and byways some in darkness, along the Iveragh Peninsula. The biggest obstacle is the final leg of the journey from Torc to Muckross Abbey, the lack of signposts is inadmissible. This is just one example of what hundreds

of wayward and confused visitors endure. Surely it must be a safety requirement to position signposts either made of recycled products, wood, or simple finger posts, so that visitor and local alike can enjoy a memorable experience our of National Park, which we treasure and hold dear to our hearts.

# Over €26,000 raised for the IMNDA in Kerry & North Cork

The Killarney Plaza Hotel was the venue for a presentation of money to Motor Neurone. Christy Lehane, Chairman of Kerry Friends of Motor Neurone, made the presentation of €26,500 to Marie Reavey, Regional Development Officer of the Irish Motor Neurone Disease Association (IMNDA). This amount was raised through various fundraising events and donations made in Kerry to support the work of the IMNDA.

These events included Flag Days in Killarney in 2017 and 2018, Cheque Presentations from Tralee Lions Club for 2017 and 2018, Killarney Soroptimists, Ring of Kerry Charity cycle, Ballinagree Vintage Club and numerous ceili's and coffee mornings to raise awareness and funds for Motor Neurone.

Marie Reavey, IMNDA said, "We cannot thank everyone from Kerry and North Cork enough for their fantastic support. Kerry Friends of Motor Neurone have been tirelessly fundraising for the IMNDA since 2011. We would be lost without their continued support as over 83% of our income comes from fundraising and donations. Without support such as this, we would be unable continue providing vital services for people living with Motor Neurone Disease."

Motor Neurone Disease (MND) is a progressive neurological condition that attacks the motor neurones, or nerves, in the brain and spinal cord. This means

messages gradually stop reaching muscles, which leads to weakness and wasting. MND can affect how you walk, talk, eat, drink and breathe. MND is often referred to as the 1,000 day disease as most people die within 1,000 days of symptom onset. 1 person dies every 2 days from MND.

The national charity is the primary support

organisation for those affected by Motor Neurone Disease. The IMNDA provides specialised services for people affected by this debilitating disease such as equipment on loan, financial assistance towards home help, advice and home visits by MND Nurse. There are currently over 360 people living with MND in Ireland, 11 of which are from Kerry.

## SHERRY BUILDS A NEW LIFE IN KILLARNEY

Having suffered immense loss during the war in Sierra Leon, a Killarney resident has turned her life around and this week travelled to Dublin to receive an award for her accomplishment in Education.

Sherry Jimoh arrived in Killarney two years ago from the war torn country and has since immersed herself into the local community. She has completed courses in Care of the Elderly, Community Development and an introduction to Third Level Education. Currently Sherry is studying a pre-nursing course in Tralee and hopes someday to train as a nurse.

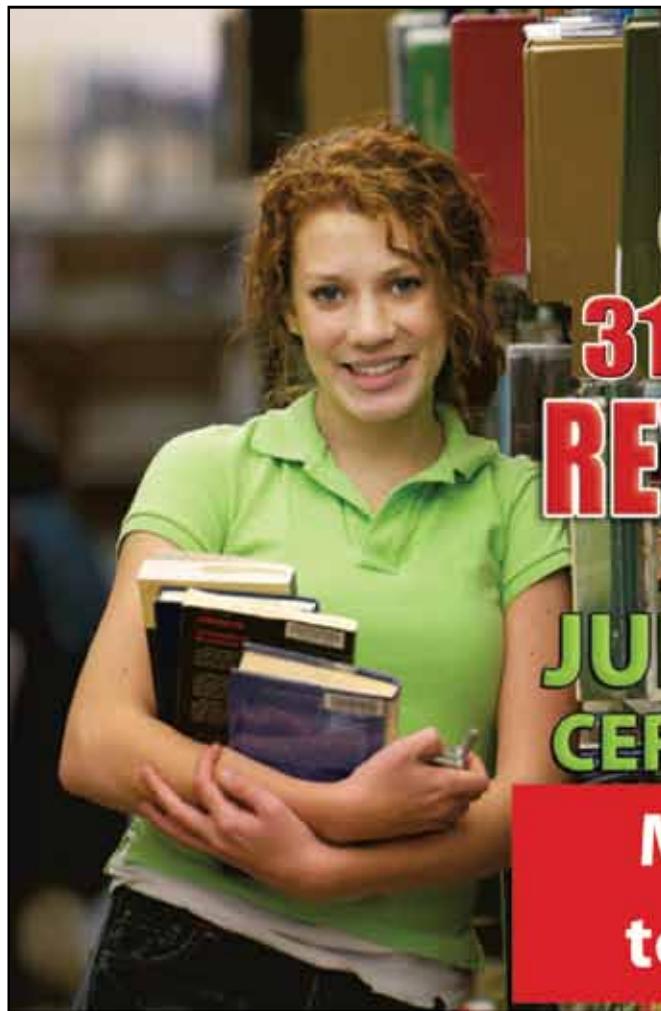

Sherry is an active member of Killarney Tidy Towns Association and a choir member in the Church of the Resurrection as well as volunteering in a local nursing home.

## Safe Crossing ahead for Countess Residents

Cllr Brendan Cronin has made an allocation of €6,000 from the Councillor Specific Municipal District Operations Fund towards a new table top pedestrian crossing and associated works at the Countess Road junction to 3 estates in Killarney. Kerry County Council have recognized his allocation towards the cost of the provision of a pedestrian crossing, as this pedestrian crossing is vitally important for the residents of Countess Grove, Muckross View and Dromhale Close housing Developments. The estimated total cost of undertaking this project is €20,000 and if the balance is made available from the Councillor Specific Municipal District Operations Fund, arrangements will be put on hand to have the job undertaken. Cllr Cronin has said "I am sure that other Killarney MD Cllrs will allocate money towards this work so that it can be undertaken in 2019. Killarney Municipal District roads Department are due to publish the statutory Section 38 public consultation along with drawings and layout plans in the coming weeks and I look forward to seeing this important work completed."

## KERRY HOTELS FEEL

# BREXIT EFFECT

**B**usiness sentiment amongst hotels and guesthouses in Kerry and across the country has deteriorated sharply year on year, representing a stark change in outlook compared with 2018 according to the Irish Hotels Federation (IHF). An industry survey undertaken by the IHF ahead of its annual conference in the Gleneagle Hotel & INEC, Killarney, Co Kerry, reveals that only 40% of hoteliers nationally now have a positive outlook for their business over the next 12 months. This compares with 79% who reported a positive outlook at the start of 2018.

Major concerns for the sector include the continued risk of a disruptive Brexit and reduced competitiveness due to the hike in tourism VAT, increases in the cost of doing business and growing economic uncertainty internationally. In particular, the higher VAT rate is putting investment in additional

hotel capacity at risk, with 75% of hoteliers stating they are now reassessing plans to increase capital investment as a result of the increase.

Performance so far this year has been mixed, with 39% of hoteliers across the country reporting a drop in overall business levels compared to this time last year while 48% report an increase. This has largely been driven by growth from North America and Europe, which is masking continued poor performance of the UK market. Almost two thirds of hoteliers (65%) say advance bookings for 2019 from the Great Britain are down while almost six in ten (57%) are seeing a fall in advance bookings from Northern Ireland.

With the vast majority of hoteliers (91%) concerned about the impact Brexit will have on their business over the next 12 months, Niamh O'Shea, Chair of the Kerry branch of the Irish Hotels

*Donagh Davern, Lecturer at CIT & PhD Candidate (part-time) at the University of Surrey, Niamh O'Shea, General Manager, The Killarney Park Hotel and Tom Randles, Randles Hotel, Killarney pictured at the IHF Annual Conference in the INEC in Killarney on Monday. PHOTO: DON MACMONAGLE*

Federation says growth in recent years cannot be taken for granted. "With the prospect of a disruptive Brexit looming, the sharp fall in business sentiment amongst hoteliers is not surprising. Our fear is that regional tourism businesses risk being hardest hit, especially those operating in areas that are heavily reliant on seasonal and UK markets." Tourism currently supports 15,700 jobs in Kerry and contributes some €533m to the local economy annually.

Ms O'Shea states: "Tourism plays a vitally important role as an engine of growth and regional economic balance. However, this could be put at risk if the Government does not take decisive action to mitigate the impact of Brexit and address the other serious challenges we now face such as the high cost of doing business in Ireland."

"Tourism is an exceptionally competitive activity. We compete daily for business at both a domestic and international level and every tourism Euro spent by overseas and domestic tourists in Ireland is hard won. Maintaining our competitiveness is absolutely vital to sustaining the growth of the industry, which supports jobs in every country and town."

"With 70 per cent of tourism jobs based outside of Dublin, tourism's wide geographic distribution is critical to sustaining regional economies, and addressing the rural imbalance. And, as the biggest investor in Irish tourism, the hotels sector is playing a critical role. Hotels and guesthouses not only provide local employment opportunities, we buy local services, source locally produced food and provide a vital infrastructure in support of local business and communities," she added. Welcoming the Government's commitment last year to introduce a Tourism Satellite Account within the Central Statistics Office (CSO), Ms O'Shea called for it to be implemented as a priority. "This account will provide a full analysis of the economic activity in the tourism industry and show how much it contributes to each county throughout the country to inform future taxation and economic policy," he said.

# NEW FACILITY AT KILLARNEY SPORTS AND LEISURE CENTRE

The new Strength and Conditioning Area at Killarney Sports and Leisure Centre's gym were officially opened by Minister of State for Transport, Tourism and Sport Brendan Griffin TD on Saturday.

Minister Griffin was delighted to be able to provide funding under the Sports Capital Grant towards the upgrading of the strength and conditioning area. The Minister acknowledged the important part played by sport in promoting health and wellbeing. "It is great to see the facility so busy this morning with groups such as the Kerry ladies football team and badminton teams using the facility. There is huge social and community benefit to facilities such as these."

Cathaoirleach of Killarney Municipal District, Cllr John Sheahan commented "when looking at a facility like this we need to remember not alone is it a facility that has a pool and a gym but it is a facility used by swim clubs, basketball clubs, badminton clubs and by having top class facilities it enables these clubs and organisations to develop and grow". Councillor Donal Grady who is Director of the Killarney Sports and Leisure Centre acknowledged the support of the Minister along with Kerry County Council in providing matching grant funding. The upgrade compromises new flooring and equipment which will provide much needed opportunities for individuals who may need rehabilitation, along with providing modern equipment for people to continue with their own personal journey to physical and mental wellbeing. The open plan layout allows for accessibility for all.

To celebrate the opening, the centre held free taster class sessions on the new equipment all weekend.

## Liebherr Container Cranes showcases advanced Research and Development for Engineers Week

Taking place from 2 – 8 March, Engineers Week 2019 encourages primary and post-primary students, their teachers and parents to explore the exciting world of engineering as well as highlighting the diverse career opportunities engineering offers.

Liebherr Container Cranes, one of Ireland's leading engineering firms, with a global presence, are delighted to be a part of Engineers Week 2019. Engineers representing the company will visit schools and will host students from schools in the Cork/Kerry region at the companies facility over the course of the week. This year, visiting students are in for a real treat. In addition to touring the facility, the students will get to see an advanced container-handling crane as it is being prepared to undergo extensive research and development into autonomous driving, remote control, and alternative energy sources to supply power to the machine.

Engineers Week represents a fantastic opportunity for students to meet and chat with the engineers responsible for developing this technology, which will be deployed in ports and terminals around the world. As they tour the factory, they will see highly skilled staff using state-of-the-art manufacturing techniques to build and assemble cranes,

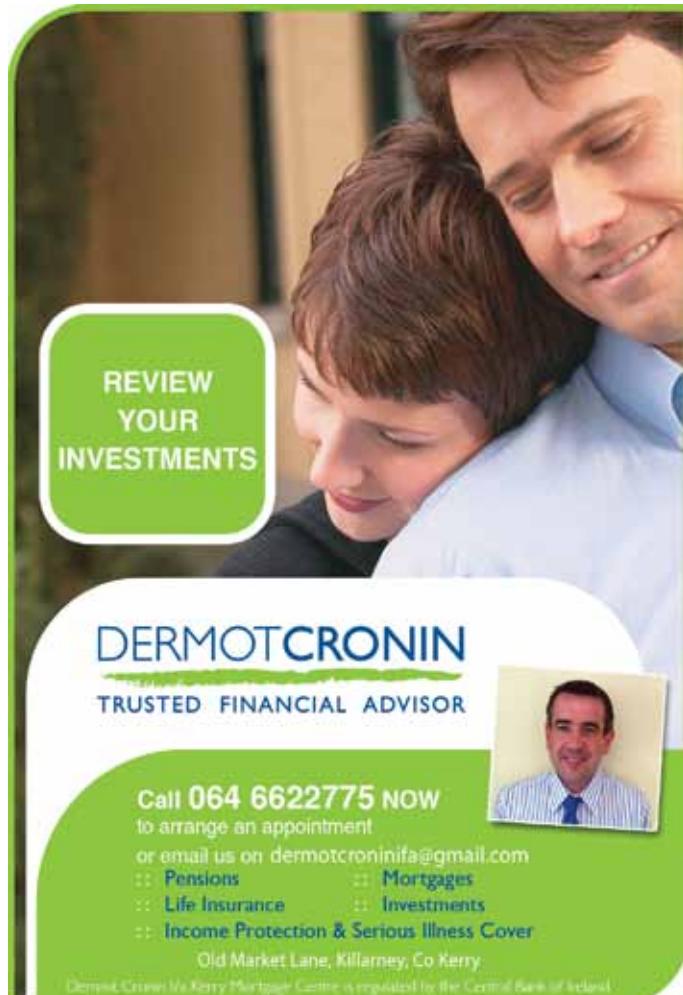

*Students pictured on a recent visit to Liebherr during Engineers Week.*

and witness a wide variety of engineering disciplines and, trades at work to make a world-class product.

The container handling industry requires reliable, robust, long lasting, yet exceptionally precise equipment. The crane being researched and developed on site, will be capable of moving a 40 tonne container many

millions of times, yet placing it automatically each time onto the back of a truck or train with millimetre accuracy, and without human intervention. Remote control driving is being developed in parallel, allowing an operator in a remote room, locally or even in a different country to control the cranes.

## From Russia with gra

By Nicky Barry

Picture: Valerie O'Sullivan

Kerry is a special place;  
it has its own rhythm,  
Their footballers are big and strong, and  
are used to winning.  
People come to Dingle,  
from places near and far,  
To enjoy the scenery, the craic,  
and lots of jar.

In shops and pubs they hear, the mellifluous  
Kerry blas, As folks chat in Irish,  
which is musical and fast.  
Some say Irish is dying, and some day will  
be dead, Unless there is an effort made,  
so they brought in a Red.  
No! - not a Man U player, or even one from  
Liverpool, But a professor from Russia, who  
finds the language cool.

Dr. Victor Bayda, has just got the nod, to try  
and stop the rot, For he fell in love with Irish,  
and his Russian blas is hot.  
He has moved from Moscow, down to  
Ballinskelligs, And is now the guru, to revive  
the Irish language.  
Victor is a winner, and has the gift of  
tongues,  
He can curse in eight languages,  
and converse in every one.  
He can chat in Dutch and Welsh,  
German and Scot's Gallic,  
French, Swedish and Russian,  
along with Irish and Icelandic.  
He had no pull to get the job, f  
or the Udaras folk saw,  
That Victor had come to Kerry,  
from Russia with gra!

## KMS SAYS THANK YOU!

The curtain fell on Killarney Musical Society's 34th production, The Sound of Music, last week. The Von Trapp family had taken up residence in Killarney's INEC for shows on February 26, 27 and 28. The dedicated and talented members of Killarney Musical Society (KMS) have been rehearsing for months in preparation for their adaptation of the Sound of Music with scenes being set, props being sourced and gathered, sets under construction and costumes ordered. The show was a massive success with a packed audience every night. Members of Killarney Musical Society wish to say thank you, firstly to those brave souls who got together back in 1984 to bring back to life once again a musical society in Killarney, because of their courage, belief and passion for musical theatre the society is still

going strong 34 years later producing shows that do the town proud. Their journey this year brought them through the Austrian Alps as they endeavoured to climb every mountain and as they knocked on doors for patronage and sponsorship, they wish to thank their patrons sincerely for the continued support. They especially wish to thank their main sponsor Independent Irish Health Foods as they are truly grateful for the generosity and continued help. And to the many other organisations that kindly donated to them they thank you for the support. They also want to take this opportunity to thank the loyal audiences who filled the INEC and raised the roof nightly, the support of the audience has meant the world to them. There would be no show if it was not for their amazing crew both back and front of house, they wish to thank them for giving of their time and energy to ensure KMS keep their standards up where they so rightly belong, at the top! And of course they wish to thank the amazing cast for their continued commitment and support, and in particular this year's amazing children's cast and to their wonderful parents too. And last but by no means least they wish to thank their incredible chairperson, Irene Hurley, and her committee who worked tirelessly, to make this year's show. We can only look forward to another amazing show next year, well done to everyone involved!

### Letting go and letting be!

Sometimes it feels as if we are fighting a battle with life. When things don't go as planned or we find ourselves struggling to make things happen we try to hold tighter. We fear that if we let go or relax we will lose control and everything will fall apart. However, it's a strange thing but if we can actually surrender into the moment that we find ourselves in, life flows a little easier.

This may sound simple but it's not always easy as it requires us to keep conscious of when we are tightening up again or worrying. One of the key things that we can do to help is to accept what is happening and stop resisting it. When we desire life to be any other way than it actually is, we cause ourselves to suffer. Once we can accept that this is the situation we are in a better place to make any changes that we can in a calmer, more conscious way. The second thing is to use our breathing to move ourselves into a calmer state of being. A simple way to do this is to take a deep breath in through your nose, hold it for a few seconds and then exhale through your mouth (as if you are blowing out a candle). This helps you to activate your parasympathetic nervous system (responsible for resting & digesting in a calm way). Make letting go a daily practice in your life. Practice letting go of a bad mood, a negative thought, a wish that things were different, an old belief system, a habit. Instead focus on resting into the moment, noticing what is good about a situation, being aware of your breathing and cultivating a state of mind that can accept what is and can love the journey of our life.

### WHAT IS A CATARACT?

A cataract happens when the lens within your eye becomes cloudy. It can happen to all of the lens or just part of it. There are different types of cataract, but the most common is age-related cataract, which is more common in people over 65. It can be found to some degree in almost all older people.

#### Risk factors

Age is the biggest risk factor for developing cataracts. Apart from age, smoking increases the risk of cataracts and often causes the cataract to develop earlier and more quickly. Excessive exposure to sunlight and ultraviolet light can increase the speed at which cataracts develop. In some cases, people are born with cataracts.

#### Symptoms

Cataracts can cause your vision to become cloudy and less clear. You may notice that you're more easily dazzled by vehicle headlights, or that objects

appear less colourful. Cataracts don't cause eye pain or make your eyes red.

#### TREATMENT

At first following a sight test we may be able to prescribe new glasses that will help with changes to your vision caused by the cataract. When this no longer helps you to see well enough, the only effective treatment is surgery. Surgery is usually only recommended once the cataract is causing problems with everyday activities, such as driving, watching television and reading.

Cataract surgery improves the vision of nearly all patients and has one of the highest success rates of all surgery. If you experience blurred or cloudy vision you should have a sight test.

## All smiles...as Cotters take four accolades

It was a big night for Cotter Orthodontics at the Irish Dentistry Awards in the Round Room at Dublin's Mansion House Friday night. This was the first time that Cotter Orthodontics has entered the Irish Dentistry Awards – and what a result! Coming away with awards for: Practice of the Year-Leinster & Munster, Best Employer, Most Improved Practice and Best Referral Practice, it's clear this team has a passion for what they do. Finalists in five categories and to have won four is unbelievable. Having opened his practice in Killarney in 2009 Stephen moved to a purpose built clinic in Autumn 2017 where he now has a staff of four. To have won the prestigious "Practice of the Year" category is a great achievement

and a testament to the service they provide.

It was a fantastic night hosted by FMC Professional, an event held each year to celebrate excellence in dentistry and the hard work, dedication and talent of dental professionals across Ireland. Each award highlights a different area of expertise, and allows the team to demonstrate their skills and achievements. The judging panel is made up of dental leaders and industry professionals, who look for high-quality submissions and exceptional clinical evidence.

Dr Cotter and his team would like to thank everyone for their support over the past 10 years and we wish them continued success for years to come.

## Wheelchair Association hold communications event

The Irish Wheelchair Association in Killarney had a recent communication event in relation to the disabled persons parking card, better known as the blue card that we see on vehicles windows when they park on the blue parking bays around the County.

The event was very well attended with Mayor of Killarney Cllr John Sheahan, and Cllrs Brendan Cronin and Michael Gleeson. The council were represented by their two traffic wardens who were very informative .

The Association locally had many of the local branch and service users of the Association there on the day. Terry O'Brien, Service Coordinator for the Association and county councillor explained the whole process from application to the dos and donts and the problems that are being experienced by people with disabilities on a daily basis because of the abuse of these parking bays. It was also felt that the families of the card holders needed to be more responsible and ensure the cards were only used when the person the card was issued to was in the vehicle.

Overall, this was a very positive meeting and one which the Association said they would return to again

## 1 in 83 Irish people at risk of developing Haemochromatosis

Paudie & Martina Ferrane  
(Outpatients Administration)

From the left: Dr. Elmanan Mohamed, Irish King (staff nurse); Paudie & Linda Hussey (staff nurse)

Mr Paudie Herlihy is a native of Castleisland and is a retired secondary school teacher. In 2004, Paudie was suffering from severe low back pain and was feeling extremely tired.

Paudie's GP referred him to the Bon Secours Hospital Tralee where he was diagnosed with Haemochromatosis.

**"I had never heard of this and was stunned to hear that unless treated immediately, it could lead to serious liver damage"**

Haemochromatosis, also known as iron overload, is an inherited condition which results in the body absorbing too much iron from food and storing this iron in organs, which can result in organ damage or failure.

There's currently no cure for Haemochromatosis, but a highly effective treatment for genetic Haemochromatosis consists of regular removal of blood known as venesection therapy. This can help relieve some of the symptoms and reduce the risk of damage to organs such as the heart, liver and pancreas.

Since his diagnosis, Paudie has been attending the hospital every month for venesecti ons.

**"I am not exaggerating when I say that I was very anxious in the beginning but I now treat my visits as a social outing. From the moment I walk through the door of the Bon Secours and meet the staff at Reception, Admissions, the Day Ward and the Laboratory, I am instantly made to feel at ease".**

People often feel under pressure when they enter a hospital but Paudie has always felt a sense of welcome.

**"The way the staff are so friendly and people focused is a credit to the Hospital. I couldn't say enough about them"** says Paudie.

Paudie has a fantastic outlook on life, he is feeling great and enjoys a swim most mornings. If you are worried, a simple blood test taken when you are fasting, is the best way to confirm if you have too much iron in your blood.

Dr Helena Moore, Clinical Director at the Bon Secours Hospital Tralee

**"1 in 83 Irish people are at risk of developing Haemochromatosis. It is vital for people to be aware of the symptoms and, if diagnosed, to begin treatment as soon as possible. Early detection prevents complications and a positive prognosis is very probable".**

## FITNESS EXPERT EDELE DALY GUIDES YOU TO A FIT AND HEALTHY NEW YOU...

### RULES TO WEIGHT LOSS AND WEIGHT LOSS MAINTENANCE

*CONTINUED.....*

Protein With the above in mind, comes Rule 3b, don't deprive yourself! Be honest, can you completely give up XYZ? If not, don't. Remember though, if you feel you must, or deserve to eat some junk every day, maybe you need to try and change the way you think. However, can you limit your consumption of XYZ to 1-2 times per week forever? If you honestly can, great, that is what you need to do in your nutrition plan. We use the term nutrition plan when we mean something sustainable and sensible, when we say diet in this article we mean something idiotic like the Cambridge diet, maple syrup diet, lighter life, weight watchers, Tony Fergusson and any other out there, robbing people of their health and hard earned money. Sounds dramatic but, in our line of work these are the stories we see and hear every week.

#### DON'T LOSE WEIGHT QUICKLY

Rule 4 – Don't lose weight too quickly \*for you\*; If it didn't go on quickly – so is it sensible to lose it quickly? Although, If it went on quickly, losing it quickly and going back to maintenance could be an appropriate option. If you want to lose fat on your own without guidance, and for it to stay off, it needs to be slow, sometimes horribly demotivatingly slow in fact. Have you ever been guilty of saying 'great week this week, lost 4lbs!' with an unknowingly naive smile? It sounds boring and repetitive but 1-2lbs per week is a great speed to lose weight for most of us. The more naturally active you are the closer to 2lbs you can be. These figures relate to being in an energy deficit of 500-1000kcal s per day. However, remember the body is not an engine, it is not a simple case of kcals in and kcals out otherwise we'd have hungry people everywhere with great abs! Sustainability is the key. Similarly, a slowed metabolism is a very real thing but is only one consequence. So, as an example, a person who sits at a desk most of the day for work and can only commit 2-3 hours per week to exercise may only be able to lose 1lb per week to allow them to eat enough to keep the body functioning properly, to avoid plateaus and to probably prevent weight regain.

## OUTLOOK Beauty

### Befriend A Concealer

If you have problem areas like dark circles, age spots, and redness, all you need is a bit of concealer to get them sorted. Remember, always use your concealer after you've applied your foundation. That way, you won't need much coverage. Find a shade that exactly matches your foundation for best results.

### MINIMUM WAGE IN IRELAND 2019

The Minimum Wage in Ireland was increased on January 1st 2019. It went up by 25 cent per hour, from €9.55 to €9.80.

New laws were introduced on March 4th 2019 – which mean that minimum wage rates are now based purely on age and not on previous work experience or training.

These are the Minimum Wage Rates that apply in Ireland from 4th March 2019.

- Aged under 18 – €6.86 per hour
- Aged 18 – €7.84 per hour
- Aged 19 – €8.82 per hour
- Aged 20 or more – €9.80 per hour

New rules also mean that if a casual/part time employee is called to work and sent home without receiving the hours expected, the employee is entitled to a minimum payment of three times the national minimum wage.

These are the minimum wage rates that applied from Jan 1st 2019 to March 3rd 2019

- Experienced adult worker €9.80 per hour
- Over 19 and more than 1 but less than 2 years since began first job €8.82 per hour. (90%)
- Over 18 and less than 1 year since began first job €7.84 per hour. (80%)
- Aged under 18 €6.86 per hour (70%)

(An experienced adult worker – for the purposes of the National Minimum Wage Act – is an employee who has an employment of any kind in any 2 years over the age of 18.)

Half time score was 0-5 to 0-2 in favour of the home team - a goal by Lorcan Daly early in the first half closed the gap but the Listry opened up a 6 point lead - Fossa slowly reeled that lead in and a goal by Cian O'Shea a few minutes from time squared it up - until that late score by the home team.

Next week - Fossa are a way to Furies in the 1st rd of the County league 2pm - we wish them well for the year ahead.

## MUCKROSS ROWING CLUB

### EVENTS

Last weekend's Cork Head Of the River became the latest rowing event in the calendar to fall victim to bad weather. Already for 2019, it brings the number of cancelled rowing events to five further to the postponement of some events in late 2018. Just two events in Sligo and Enniskillen have gone ahead with regatta season fast approaching in April. For Muckross RC and most of our fellow clubs in Munster, the last competitive outing was our own HOR event held on 1st December. We can only hope that the St. Michael's HOR scheduled for Saturday next 16 March goes ahead! The St. Michael's HOR is once again making the move from the traditional O'Briensbridge course to O'Callaghan's Strand in Limerick city. The course extends from the 'Cement Factory Bend' to Howley's Quay opposite the SMRC clubhouse in the city. Crews will launch between 11.30am to 12.50pm and timing will start at 1.30pm. Given the tidal nature of the course, the event is mainly aimed at older crews racing in Fours and Eights,

with limited categories on offer for J14 and J15 rowers. The event is limited to a single head (one row per person) over the 5.5km distance.

### MEMBERSHIP

Outstanding fees and forms are to be returned to Jeremy Kenny or Maurice Coffey at the earliest opportunity.

KERRY O'SHEA REPORTS FROM FITZGERALD STADIUM

PICTURES: T MCGOUGH, FITZGERALD STADIUM PR

**S**trong finishes have been the hallmark of Peter Keane's Kerry teams this year and the trend continued at the arctic Fitzgerald Stadium, Killarney where the home side earned a hard-earned victory over Monaghan. As a result of this win, Kerry are now almost certain of a league final place later this month as they have full points from their five games and a superior scoring average of +13.

Tommy Walsh turned in another Man of the Match performance, scoring four points, including three marks, while Paul Murphy, Tom O'Sullivan and Stephen O'Brien also put in

solid shifts. Tomas O'Se made another notable impact on his introduction, winning two frees, both of which were converted by Sean O'Shea, who finished the game with eight points including one monstrous effort from a sideline kick at the very death.

The heavy snow showers which fell throughout the preceding hurling clash between Kerry and Meath led to some speculation that the game might be postponed but thankfully the elements eased considerably ahead of the throw-in, which was delayed for 10 minutes, due to the late arrival of the Monaghan team,

who were held up in traffic and required the assistance of local gardai to get to the stadium. Monaghan, who are in the throes of a relegation battle, showed glimpses of the type of form that brought them close to the All Ireland final last year. Malachy O'Rourke's side were hoping to maintain their winning sequence on Kerry soil, having won on their two previous visits, but Kerry were keen to set this record straight. The Farney men, who had to close out the game with 14 men following the dismissal of midfielder Dessie Hughes on a second yellow card in the 67th minute, had the better of the exchanges in the first-half and led 0-9 to 0-7 with Conor McManus, who finished with 0-8, providing the bulk of their scoring returns. Sean O'Shea scored three points, while Man of the Match Tommy Walsh chipped in with a brace.

Monaghan continued to hold sway for much of the second half and with 20 minutes remaining were leading 0-12 to 0-10. In the final twenty minutes (there were four for stoppages at the end of the second half), Kerry outscored their opponents by 0-7 to 0-1 and this was enough to seal their fifth straight win of the campaign.

## DR CROKES CLUB NOTES

### U18 DR CROKES LADIES

### VERSUS CURROW

First game back in the 2019 season was held under lights at home in Lewis Road!!

Early points from Julie Delaney and Ava Sheahan and Niamh Stack gave us the lead before a Currow point followed quickly by a goal giving them an undeserved lead but points from Jade Potts and frees from Julie Delaney and from Ava Sheahan put us back in the lead. Currow levelled it again with 2 points coming to half time. Ava Sheahan scores her first goal of the game just before the break to

give Crokes ladies a deserved 3 point lead at the break !! Both sides traded an early point in the second half. Our backs defended very well in the second half with good performances from Aine o Connor ,Megan Graham ,Kate Nash ,Emma Kelly and Sarah Neher. With 10 to go Ava Sheahan came back on after getting a knock earlier in the half to score 2-1 from play this sealed Currows fate. A late harsh yellow card for Niamh Stack meant we finished a girl down with less than 3 mins to play. A late Jade Potts point was the last score of the game. Overall a good performance for our first game of the year plenty of positives to take out of it.

### OFFICIAL OPENING OF THE JIMMY KEANE MEMORIAL STAND

Saturday the 2nd of March 2019 will be remembered as a tremendous day in the history of the Firies GAA Club as the official opening of the Jimmy Keane Memorial Stand was performed by former President of the GAA Sean Kelly. The club will be eternally grateful to Damian Keane and all the Keane family for sponsoring the stand. Firies GAA club would also like to thank everyone that has contributed to making this Stand a reality from the planning and construction works, the painting of the stand to the organising of everything on the opening day including the tea and sandwiches. There was a great crowd present for the opening and hopefully many of them will return again to support the various club teams and make use of the stand for many years to come. Jimmy played for both Kilcummin and Firies during his playing career and it was fitting that following the official opening, Firies and Kicumin played against each other in Round 3 of the East Kerry Super league.

### FIRIES VS KILCUMMIN - EAST KERRY SUPER LEAGUE ROUND 3:

Firies played the newly crowned All Ireland Intermediate Champions Kilcummin in Round 3 of the East Kerry Superleague in Farranfore on Saturday the 2nd last. Firies were not to score again until the 27th minute from another free from Mike Daly. Firies rallied at the start of the second half and cut the lead to 2 points (7-5) with scores from Padraig O'Connor, Mike Daly and William Courtney. Kilcummin replied with a point and a goal from Oscar O'Connor to take Kicumin's lead back to 6 points but Firies rallied again to cut the lead to one point (1-8 to 1-7) with points from Liam Brosnan and William Courtney and a well worked goal from Donnacha O Sullivan. Kilcummin were denied a goal by Firies Goal Keeper Colm O Shea as he

guided the ball onto the Crossbar. Kilcummin and Firies traded points again (1-9 to 1-8) but this was as close as Firies were to get to the Kerry senior club. Scart/Cordal 0-9

Gneeveguilla 0-1

A difficult day for football in Pairc na Cúlac saw Scart/Cordal battle through sleet, snow and a determined Gneeveguilla effort to win this semi final. An immense defensive effort that limited the visitors to a single score set the foundation for the victory.

Hugh O'Connor landed an outstanding point from beyond the 45 at the beginning of the second half to put daylight between the teams. This was followed by points from Kieran O'Donoghue, Eddie Horan and Jason Cronin. Scart/Cordal will now face Furies in the final.

## EAST KERRY SENIOR LEAGUE DIVISION1

Prior to this game played in Farranfore Sean Kelly MEP officially opened the Jimmy Keane Memorial Stand in front of a large attendance. Another free from Furies Mike Daly was cancelled out by a Kilcummin point and at the halftime break it was the visitors who led 06 points to 02.

# KERRY GAA SCENE

REPORT BY LEONA TWISS, PRO

## Five from Five!

Peter Keane and his team continue to dig out the wins in the final ten minutes of a game! Conditions were tough in Killarney last Sunday and Monaghan brought huge intensity to the game. Yet great teamwork saw Kerry over the line with five wins from five!

Next weekend the focus turns to the Allianz League Hurling final on the Intercounty scene and to the Credit Union County Leagues on the domestic scene. The Kerry Senior Footballers are back in action on March 16th when they face Mayo in Austin Stack Park which is a sold-out fixture. Those lucky enough to have tickets will have access to the grounds from 5pm onwards. The tickets are for general admission so those arriving early will have access to the Stand. The crowd will be entertained while they await the throw in. Again, three car parks have been made available – those traveling from Limerick, Killarney or South Kerry are asked to park in the car park beside the Rose Hotel. Patrons travelling from Listowel are asked to park in the grounds of Kerry college of further education on Clash Road. Patrons travelling from the Abbeydorney direction should park in the Kingdom Greyhound Stadium. The Austin Stack Park Committee and Kerry County Board thank all those who made their grounds available for parking. Patrons are asked to park responsibly and not to obstruct private dwellings.

Peter Keane will be announcing the team on the Kerry GAA website on Friday March 15th at 8pm.

tional circumstances, penalties for non-playing of games will be decided by the CCC. In the event of clash of colours, the Home Team must change. First named team has home advantage and is responsible for providing a suitable and properly presented venue. If pitch is unplayable, home clubs are expected to give at least 3 hours notice of any pitch problem. If suitable alternative is not found, then the home team travels to the opposition. Failure to adhere to this may mean loss of points. Last minute weather conditions may result in pitch problems and then the referee must decide if pitch playable.

As per decision of the County Committee taken in January 2019 Meeting, where a Club fails to nominate a referee that Club will lose home venue for last two rounds of the Credit Union County League.

All other games (ie those where no Kerry Senior Intercounty players are involved with Kerry in League Final) go ahead on Sat 30 March at 4.30pm. Above dates & venues will be confirmed at next meeting of the CCC which takes place on Thursday next 7 March.

A remember that Rd 1 games in the Senior, Intermediate & Junior Premier championships will be played in a neutral venue. Rd 1 games in the Junior Championship will be played in home venue of first drawn team. Rd 2 games in the Club Championship will take place on the next weekend available regard-

less if other games in the same championship are running a week later due to involvement of Kerry players in League Final. The CCC decided at its meeting last night that no postponement will be allowed on grounds that some other games are running a week later.

MEK B were 1–0 winners away at LB Rovers B with David McCarthy getting the goal in the first half. This was the MEK B's first game at this level and they held out despite the best efforts of the LB side. Iveragh United had goals from Mark O'Connor and Daithi Sugrue in a 2–0 win over Fenit but they also needed a big performance from goalkeeper Adam Corridan. Listowel Celtic saw off the Park C whose 2 goals came from Michael Quike. But Conor Sweeney, Ruairí O'Connell, John Carmody, Harry Reidy and Sean Spink hit goals for the winners.

Ballyheigue have two teams in the 12's Cup with many of the players still under 11's. The Yellow side lost 4–0 to Killorglin who had Aaron Doyle, Ben Sugrue and Alex Garry. Ballyheigue's keeper Nicky Corridan was in great form against the premier side. Tralee Dynamos are also through at the expense of Inter Kenmare C while the final Last 16 places will be secured by the winners of Fenit B and Killarney Celtic B, Dingle Bay Rovers versus Inter Kenmare A and MEK or Killarney Celtic A.

### 5 TEAMS THROUGH TO THE LAST 8 OF THE TOM HAYSE 14'S CUP:

Killarney Celtic B met MEK on the Celtic All Weather in the Tom Hayes 14's Cup Preliminary Round. Despite a great performance from MEK keeper Mathew O'Connor goals from Tyler Bolster, Fionn Noctor, Jimmy McClain, Brian O'Connor and Max Bryzowski saw Celtic B through. The Park A are the next opponents for Celtic B in the Last 8.

There was no luck for Celtic A as they lost away to their Listowel namesakes as they went down 3–1

to the home side. In tough conditions Listowel Celtic were excellent and were 3–0 up thanks to goals from David Lynch after 10 minutes, an Eddie McCarthy free kick and Evan Boyle before Dara O'Shea pulled one back for Killarney Celtic.

Inter Kenmare won at Killarney Athletic B who scored through Ben Kimfuta and who had keeper Aaron O'Connor in great form. But Inter were clinical and are through thanks to goals from Yago Cornide, Darragh O'Connor, Sean Treyvaud, Conor Adams, Zach O'Shea and Darren Allman.

Killarney Athletic A won in Tralee defeating Park B. The Woodlawn side goals came from Ryan McCarthy, Tom Benson, Cillian O'Connor, Sarra Neher, Ryan Neeson, Alex Hennigan and Laura O'Connell.

Mastergeeha won at Kilbrean Park defeating Tralee Dynamos with goals from Kieran Nagle, Alan O'Leary, Jack Fogarty, Hugh Lenihan, Eoin Kelly and James Williams.

Iveragh United were too strong for Mastergeeha B whose goal came from Connie Counihan. For the South Kerry side Aaron Galvin, Emmet Daly, Oisin Breen, Ben Egan, Ben O'Donoghue, Ruairí Dennehy and Tadgh O'Sullivan all got on the score-sheet.

There are two remaining games in the Tom Hayes 14's Last 16 with Fenit to meet Dingle Bay Rovers and Killorglin A to take on their club mates Killorglin B.

### FOUR OF THE LAST 8 PLACES IN THE TUCKER KELLY 16'S CUP CLAIMED

Ballyhar 16's got the weekend action underway when the defeated Tralee Dynamos on Friday night under lights at Celtic Park in the Tucker Kelly Cup. The goals came from Stephen Palmer, Darren Deniel, Aaron O'Shea 2 and Peter Cosgrave 3.

Also into the Last 8 are Park A thanks to goals from James Charlis, Mark Curtin, Matt Healy, Dan Fisher and Jamie Fitzgerald 2 in their win over Mastergeeha at Kilbrean Park. Oisin Smailes got the only goal for Camp Juniors as they won 1–0 away at Rattoo Rovers.

The closest game of the weekend was the Killarney derby as Athletic saw off Celtic 4–3 on penalties. After extra time the game was tied at 1–1 with Eoghan Mulvanny getting the Athletic goal and Cian Doe scoring for Celtic.

In the penalties Cian McCann, Kieran Pierce, Martin O'Sullivan and Mulvanny all scored Athletic with their keeper Aaron O'Sullivan saving two penalties.

### GIRLS LEAGUE ACTION:

### ALL THE LEAGUE ACTION WAS IN THE GIRLS LEAGUES.

In the 12's it finished Killarney Celtic White 2–1 Iveragh United (Katie O'Connell). In the 14's goals from Fiana Bradley 3, Ava O'Sullivan and Aideen O'Brien saw Killarney Celtic Green win 5–2 away at Inter Kenmare. The game was tied 2–2 at the break with Chloe Cremin and Orla O'Brien scoring for Inter.

League of Ireland 15's Pre-Season:

With the start of their League of Ireland campaign the Kerry 15's were in Dublin where they took on Shamrock Rovers in a pre-season game played at the FAI Headquarters in Abbotstown.

Kerry went ahead when Cianan Cooney scored with a cracker from 30 yards but Rovers drew level with 15 minutes to go thanks to a deflected effort. This result bodes well for the 15's ahead of the League of Ireland.

### INTER LEAGUE GAME FALLS

**TO SNOW:**

The Kerry 12's side were not happy to see the snow as they were 1-0 up through Ruairí O'Connell away to the Desmond League in the Subway Inter League at half time. However for safety the game was abandoned and will now be re-fixed with Kerry at home.

Girls Roll of Honour: Bronagh Dorrian Killarney Celtic, Helena O'Donoghue Inter Kenmare, Oral Bennett Iveragh United.

**MEK UNITED NEWS****U12 CUP**

MEK United B Under12s (under11's) won by 1-0 in Ballybunion against LB Rovers B with a David McCarthy goal in the 1st half. The Boys were playing their 1st competitive game at this level and controlled the game throughout with the goal coming after 18mins, but the lack of 2nd goal made for nervous finish where in the last 5mins LB rovers had their only 2 chances of the games, but MEK defence was strong and held out for well deserved win in Conditions that were not helpful to playing good football, Best on the day were Dylan o Meara, Kevin Coffey and Man of the Match Jack Hallisey. Congrats also to Jerry Hayes and coaches.

**NIGHT AT THE DOGS**

This Friday night MEK United goes to the Dogs at the Kingdom Greyhound Stadium in Tralee. There will be lots of fun and plenty of activities for all the family so why not come along and support the club! Tickets available on the door.

# Green sinks Nine Threes to bring victory to Lakers

*Scotts Lakers Killarney 105*

*Tolka Rovers 86*

*BY: Eamonn Keogh*

**D**A phenomenal three-point shooting performance from outstanding team captain Mark Greene led Scotts Lakers to a convincing victory over Tolka Rovers in Killarney Sports Centre last Saturday night. Greene's nine threes was the main talking point of a victory that secured the Killarney side's second place position in the southern conference and guarantees a play-off spot.

It was a match where the home side's advantage was never really threatened. They started well with early three-pointers from Dailian Mason, Papito Hersisia and Mark Greene and led 13-8 midway through the first quarter. Greene was on fire from downtown and three more threes from him along with solid play from Sean O'Brien helped the Lakers to a 35-20 lead at the end of the first quarter.

Mark Greene continued to punish Tolka with three more big three-pointers while Seamus Brosnan added another and Scotts Lakers led 46-28 midway through the second quarter. Further threes from Sean O'Brien, Cian Clernon and the main man Mark Greene meant that the Lakers enjoyed a commanding 60-40 lead at half time.

Greene already had seven three-pointers by half-time and at this stage he looked well on his way to creating a new Irish record. Tolka were struggling to make any serious impact in the game despite the best efforts of Conor Liston, Tom Kenny and Justin Goldsborough.

Scotts Lakers continued to dominate and further three-pointers from Mason, Hersisia, O'Brien and Greene opened up a 77-47 advantage midway through the third quarter. They maintained that lead and were 87-58 in front at the end of third quarter.

The final period was a mere formality as Mason and O'Brien added further threes while Seamus Brosnan sank another three with 3:13 remaining to give the Lakers a 100-74 lead. Tolka continued to battle with Oisin O'Reilly and Alex Dolenko impressing and they actually outscored the Lakers 28-18 in the final quarter. It wasn't enough and Lakers had a comfortable 19 points to spare in the end. A whopping 20 three-pointers from Scotts Lakers was a very significant factor in the victory and 60 points from outside the arc is always going to be a huge advantage for a team in any game.

The Lakers travel to Dublin this weekend to play Kubs and are at home again on March 16th against Sligo All Stars.

Scotts Lakers: Mark Greene 29, Dailian Mason 21, Papito Hersisia 21, Sean O'Brien 17, Seamus Brosnan 7, Andrew Fitzgerald 6 and Cian Clernon 4.

Tolka Rovers : Conor Liston 18, Tom Kenny 18, Oisin O'Reilly 16, Alex Dolenko 14, Justin Goldsborough 12.

## THREE POINTER RECORDS

After sinking seven threes in the first half, Mark Greene added just two more in the second half last Saturday night. Nine threes in a game from one player is a huge return but in hindsight, he could have scored much more had he played more minutes and attempted more shots in the second half. Also considering that the game was well out of reach of Tolka in the second half, perhaps some of his teammates could also have facilitated him with the ball on more occasions to try and create a new three-point scoring record. The chances of a similar opportunity arising again to earn a permanent place in the record books is unlikely to happen too often. Greene had 13 attempts from outside the three-point arc missing just four on the night. This is quite low in terms of missed shots and his 9-13 record gave an impressive scoring return of over 69%. In the NBA, Golden State's Klay Thompson holds the current record of the most three-pointers scored in one match with 14 converted from 24 attempts giving a return of 58%. The Irish national league and the NBA are worlds apart and should never even be compared but the stats figures do raise the 'what if' question if Mark Greene had actually attempted another 10 or 11 more three-point shots in this match.

Basketball Ireland records and scoring archives over the years aren't readily accessible or available. While some American players have hit double digit three-pointer returns, it is unclear if any Irish player has ever scored more than nine three-pointers in a national league game.

Ironically almost 14 years ago to the day on the first weekend of March 2005, another Killarney player Colin O'Reilly sank nine three-pointers in a massive personal haul of 53 points for Gleneagle Lakers in a 117-107 loss to Waterford Crystal in a superleague clash at the Inec, Killarney. Hotshot American Keith Friel scored ten three-pointers for Gleneagle Lakers in a pre-season tournament against Tralee in September 2003.

One of the standout performances and great shooting displays in Irish Basketball history was ten three-pointers in a 50 point total from American John Carson for St. Declans Dublin in a televised national cup finals match in January 1988. Dan Trant, a former Boston Celtics draft pick in 1984 and sadly a 9/11 Twin Towers victim in 2001, played for Marian Dublin in the mid 1980s and scored 11 three-pointers in one game. From these stats figures, Scotts Lakers captain Mark Greene is clearly in good company when it comes to three-point shooting records. His shooting streak also extended beyond the game on Saturday night when he participated in a half time blindfolded free throw competition to raise funds for the Irish Cancer Society. Mark's mother Karen is competing in the Strictly Come Dancing event at the Inec Killarney on March 8th and her fundraiser is the 'Fill Me Up Milk Bottle Challenge'. Supporters at the basketball match last Saturday night contributed generously to the fundraiser while Lakers captain Mark Greene and coach Cormac O'Donoghue were blindfolded during the novelty free throw shoot-out.

U14 Rugby Killarney V Killorglin

# KILLARNEY ON TOP IN HARD FOUGHT WIN

By Ian Harrington

Killarney U14 Rugby Team finished their last game in the top tier of the West Munster League with a hard fought win over their nearest rivals Killorglin RFC last Saturday. Rugby, as we all know, is a winter sport; however the weather conditions during this local derby proved extremely challenging for both teams. The result was a pulsating match played out in front of many hardy fans. With a strong southerly wind it was evident that the game would indeed be the proverbial game of two halves. Killorglin used the wind advantage from the start of the match and scored their first try after mounting pressure from their forwards. Killarney learned the hard way that kicking out of their 22 was not an option with a returning wind-assisted ball forcing centre Shane O'Sullivan to ground the ball for a 22 dropout. Killorglin continued to punish Killarney's imperfect ball-handling in the slippery conditions; however Killarney never gave up the defensive team effort. Killorglin's No 8 was a real menace on Killarney's defensive structure and late in the half broke and fended a number of Killarney players to score what seemed like a certain try; however the conditions took their toll and the ball was knocked on just over the try line. With this reprieve for Killarney, Killorglin continued their

relentless pressure and on the stroke of half time they scored their second try of the half. With neither of Killorglin's tries converted due to the strong wind, the score stood at 10 – nil to Killorglin.

With the wind advantage, Killarney commenced the second half hoping to return the pressure. However, Killorglin were well able to withstand the wind in their faces. Killarney had many opportunities to run at Killorglin but, between the demands of the wet and cold and ball-handling, the half was not going according to Killarney's plans. Entering the second part

of the half Killarney began to kick for territory and this began to bear fruit for the home team. Killarney - after capitalising on substitutions, began to pile considerable pressure on the Killorglin defence. In short succession Killarney scored two tries paving the way for a dramatic finish to the match. It could be said that at this stage and with time running out for both teams a draw would be a fair result; however, after a Killarney kick from the half way line the final try of the game sealed a win for Killarney.

## Raising funds with

## "100 Miles in a Month" Challenge

A group of Killarney runners took part in the '100 Miles for the Mater' event which took place in February. The Mater put out the challenge asking participants to help raise funds for patient care in the Mater Hospital by running 100 miles in the month of February. The aim of the challenge was not only to raise much needed funds which will go towards helping critically ill people, but to also get participants to get healthier. Fiona McMahon got involved with the challenge having seen it on Facebook in January, she registered with the Challenge where each participant set up an online page with their details so that family and friends could donate if they so wished, everyone also received a sponsorship card in the post along with the 100 mile challenge t-shirt. Fiona had got back into running after having had back surgery a number of years ago and wanted to do something to challenge herself. Having no personal connection with the hospital, she learned a lot about the wonderful work that they do by taking part in the challenge. The online community that was set up for the challenge offered support and encouragement from other participants and it was through this group that Fiona put up a message inviting anyone in the Killarney area to meet up so that they could complete the last couple of miles of the

challenge together. Each of member involved had their own reasons for taking part, Fiona said "I raised a total of €960 myself, one of the lads John Quirke raised €173 and wanted to do the challenge for a good cause." Another participant Angela Kerrisk said "I did it to challenge myself, as I've never ran before and also being thankful that I could having only just got my fitness back after years of inactivity made me realise how lucky I was that I get to do this when so many others would love to but through injury or sickness can't so I did it for them."

Damien Brown was also one of the participants. "I did the challenge because it was 10 years to the month since I was diagnosed with cancer. I thought it would be a good marker to show how far I have come since then as well as raising money for other patients that are sick in hospital. I have raised just under €500 but I'm hoping that goes up in the next 2 days when I collect some more money from family", Damien told the Killarney Outlook.

All the participants would like to thank everyone that supported them and donated or sponsored them for the Mater Foundation. All funds raised will go towards making a real and lasting difference with money going to life-saving equipment and groundbreaking medical research.

Pictured at the National Park having completed the "28 day challenge" to run 100 miles in February for the Mater Hospital in Dublin were athletes Trish O'Donoghue, Karen Moloney, John Quirke, Damien Browne, Noreen Murphy, Hannah Collins, Fiona McMahon & Angela Kerrisk.

# Gardening

with Killarney Outlook

by John O'Sullivan

## FOCUS ON CLIMBERS

The importance of climbers in a garden should never be underestimated as they are ideal for covering walls and disguising sheds and if you don't have much space they will allow you to garden upwards. The easiest types of climbers to grow are the ones we call self clinging. The good thing about self clinging climbers is that there is very little maintenance. All you need to do is keep them under control. If your self clinging climber is growing on your house make sure that you keep it pruned back from gutters and windows. A good example of these climbers are evergreen or variegated ivy. TWINING CLIMBERS: Most of these climbers could probably scramble up most sheds or walls but will need support to do so with some trellis or wire. Heavy growing climbers such as Solanum (Potato Plant) would need to grow on a very sturdy structure as it can get quite woody and grow very vigorously in a season. Lighter climbers such as Honeysuckle or Clematis can also grow vigorously but can be controlled by cutting to ground level. There is also a lot of shrubs that can be used as climbers on small walls or pillars. There is probably a little bit more work in these as they don't cling to the wall. You will have to keep them well trimmed as if they get too heavy they will come away from the wall. A good example of a shrub that will do this is a plant called Cotoneaster Horizontalis. This plant can be planted on the garden side of a wall and can grow up and over and cover the outside of the wall. You can use a climber anywhere in the garden by planting it alongside some trellis which can give a whole new look to that particular area.

## TODAY IS INTERNATIONAL WOMEN'S DAY

The roots of International Women's Day can be traced back to the struggles of women workers in the late nineteenth and early twentieth century's:

In 1857, thousands of women working in the New York garment industry took to the streets to protest unfair wages, a 12-hour work day, and sexual harassment in the workplace.

Conditions for working women did not improve. In 1907 the women held a "Hunger March" in New York in protest at the dangerous working conditions and very long working periods, calling for a ten-hour working day and improved wages. The police attacked the march, and the following year on March 8th 1908 a commemorative march was held, which became a milestone in women's history. Female garment workers called for fair treatment at work, an end to child labour and votes for women.

In 1910, 100 women representing 17 countries voted to establish an International Women's Day. This took place at an International Conference of Socialist Women in Copenhagen, Denmark.

On March 25, 1911, a fire in a sweatshop owned by the Triangle Shirtwaist Company in New York killed 145 female garment workers. Unsafe conditions contributed to the high death toll. Many of the fire escapes were locked to prevent women from slipping out, even for a moment's break. Eighty thousand workers marched through the streets to attend the mass funeral for the victims.

A year later, 14,000 textile workers went out on strike. With a rallying cry of "Better to starve fighting than starve working," the women stayed out for nearly three months.

The United Nations formally proclaimed March 8 International Women's Day in 1975 to mark women's efforts over the years to attain justice and equality for themselves and their children. International Women's Day is a time for women around the world to commemorate their struggles and celebrate their achievements. 2019's theme is "Think equal, build smart, innovate for change" which will focus on innovative ways in which we can advance gender equality and the empowerment of women, particularly in the areas of social protection systems, access to public services and sustainable infrastructure.

## EGGSHELLS HAVE SO MANY USES

If you love eggs, you probably go through lots of them every week. The eggshells, however, often get discarded with no second thought, like yesterday's newspaper – so here are just 5 ideas to use them up: \*

- \* Use crushed eggshells and soapy water to clean the insides of containers, as well as pots and pans. Simply put the solution into the container and shake it well.

\* Consider keeping some crushed eggshells in your sink's strainer – they'll add another level

of straining, and as they break down, they keep the drain and pipes clean.

- \* Fill shell halves with soil and add your choice of seeds, place in an egg carton and let it grow. Once the seedlings are ready, transplant them with the shell into your garden to give them fertile ground to start from.

- \* Sprinkle crushed eggshells in your garden to deter slugs, snails, and even cutworms from eating your plants. If you have deer in the area, you'll be happy to know that they hate the smell of eggs too.

- \* Eggshells break down rapidly in compost piles, adding some much-needed calcium to the mix.

## ON THIS DATE - MARCH 8TH

## THIS DOG WAS TOO EAGER TO GREET HIS OWNER

A dog owner in China ended up in the hospital after his excited husky jumped all the way from the 2nd floor of his house to greet him, landing on his head and breaking his neck.

The 67-year-old man was returning to his house in Yongzhou City, in China's Hunan province after visiting some relatives, when something heavy fell from above and landed on the back of his head. Mr. Liu was knocked down and rendered unconscious by the impact, and his family immediately called an ambulance. Speaking about the incident Mr. Liu recalled that his first thought after waking up in the hospital was that the wall of his house had collapsed on top of him, but he later learned that he had been hit by his pet husky.

Mr. Liu ended up at the First People's Hospital of Zhangzhou City, where a spine exam revealed that the impact of the dog hitting his head had caused a cervical spine fracture and he will now have to undergo surgery to his spine to fix the damage, but Mr. Liu says that he doesn't blame the dog as the 60-pounder was just so excited to see him come home.

The man's daughter said that the whole family was shocked to see the pet husky they had adopted only a few months before jump from six-seven meters above and land on her father's head.

## FORMER WHITE HOUSE CHEF WILL FEED HOMELESS WITH HIS LOTTERY Winnings

As a former White House chef, Roberto Mendoza has cooked for Barack Obama, Bill Clinton, George Bush, Donald Trump, and an assortment of royal international guests and he has also served as a chef for the Academy Awards. Since leaving the White House, he has been managing a restaurant and cooking for the homeless in Charlotte, North Carolina—but, thanks to his mother's instincts, he will now be feeding many more homeless communities. Mr. Mendoza's mother recently travelled to the U.S. from Guatemala, in order to visit her son. During her stay, she got a feeling that Roberto was going to win the lottery and despite his aversion to gambling, he decided to listen to his mother's intuition. He bought a \$5 scratch ticket from a local convenience store and was stunned to find that he had won the top prize of a quarter million dollars.

After taxes, he took home \$176,876 and he plans on using all of the money to finish building a kitchen that will feed the homeless in the Dominican Republic on land that he bought three years ago as part of his foundation's work to feed the hungry.

"We feed more than 300 children through my foundation," Mr. Mendoza said. "I know what it's like to be hungry. I told myself when I was a teen that, if I'm ever in a position to give back, I'd do everything I can to make sure no one else has to go hungry".

## COMPASSION

Compassion is an essential component of human existence. If we are to accept our humanness then we need to develop compassion. What do we mean exactly by compassion and where does it originate. Compassion can be understood as the emotional response when we perceive suffering, and it can involve an authentic desire to help. It literally means to suffer together. The latest research findings from a number of scientists has shown that our brains are "wired up to respond to others' suffering". Nancy Eisenberg, is a leading academic in the field of Compassion who has published widely and has found that compassion is part of our basic human nature. This means that our temperament or what we are born with, the way we self-regulate our emotions and what we experience from our parents in their parenting practices all contribute to the way we develop our empathy, compassion and helping behaviour. In other words we are born with empathy for others, the recognition that if we see upset in others we will respond with kindness and the concept compassion takes that further by wanting to help alleviate the suffering and pain in the other.

The Dalai Lama captures this beautifully when he says "So long as we are human we need compassion. Compassion brings inner peace and whatever else is going on, that peace of mind allows us to see the whole picture more clearly. So, in our education we need lessons about developing warm-heartedness and finding inner peace."

We all understand compassion for others, but an essential ingredient for increased mental health is compassion for self. In the same way we recognise someone else's suffering and we want to respond by making it better, the next level is to have compassion for ourselves, to recognise our own pain and to understand our own humanness. A question that is very useful to ask ourselves is if someone else told us this story, the story about being angry or hurt or disappointed would we have compassion for them? Then why not for ourselves? A good question indeed.

Some of the ways to develop compassion for oneself are to literally feel warm to oneself rather than hurting oneself with self-criticism. Remembering the common humanity which means we acknowledge our suffering and personal failure is part of the shared human experience. And lastly, developing self-compassion requires that we take a balanced approach to our negative thoughts without trying to suppress or deny them. The key here is balanced, so if we do have a negative thought about ourselves, we develop the habit to balance it with a forgiving thought, a more compassionate one. Remembering that it is in our mind that we can be developing the more compassionate thoughts.

## A Word of Victory

Welcome back dear reader, continuing on the subject of Peace – where do you feel it most when you are worried and anxious – your mind and head right? The Bible tells us that Jesus had the crown of thorns driven into His head because “the chastisement (punishment) needful for us to obtain Peace was upon Him” (Isaiah 53:5). Even before they hammered the thorns into His head, Jesus went through agony and suffering while praying in the Garden of Gethsemane before the soldiers came and arrested Him. He knew He was facing a horrendous death, and even though He had never done anything wrong, He would be abused, harassed, sneered at and mocked, all for no reason. He actually sweated blood because of the distress that He was feeling (Luke 22:44). This is a very rare condition called Hematidrosis where blood vessels rupture in cases of extreme anguish. Jesus knew from the Scriptures that He would endure terrible trauma – a beating that would practically kill Him and disfigure Him beyond recognition (this was for our healing), and then be crucified – which was a very painful death only reserved for the very wicked. But Jesus also knew that it was the will of Father God to make a way for mankind’s sins to be forgiven and washed away by a sinless sacrifice one time for all – and HE was the sacrifice (Romans 5:6; Hebrews 10:8-18). When you ask Jesus into your heart and make Him Lord over your life you are accepting all the benefits He won at the Cross, where He became cursed so that we could be blessed as a result of His sacrifice (Galatians 3:13). Jesus defeated every curse, torment, fear, anxiety and worry for you and me there – He endured a death that no one has ever experienced and came out the other side victorious (Hebrews 2:14-15). You may be going through hardship and torment at the moment but listen friend, Jesus knows what that is like and He wants you to be delivered from it, and give you His Peace because He already paid the price to set you free. All you have to do is come to Him, and call on Him as Lord (Acts 2:21) and receive His Peace. “Come to Me all you who are weary and carry heavy burdens and I will give you rest” (Matthew 11:28). *See more on wordofvictory.net*
