# EDELE'S SIX WEEK CHALLENGE READY FOR THE OFF....

With lots of entries and enquires the winners of the Killarney Outlook - Fitness with Edele competition have been chosen with the challenge is set to begin in earnest this coming week.

Joining Aisling Crosbie on the challenge will be Medical Secretary Breeda Neeson and Clerical Officer, Rochelle O'Shea.

Edele's plans to get the girls fitness levels up include at least five one hour exercise classes or activities a week, lots of healthy eating tips and personal one-on-one training sessions with each of the participants. The goal that the girls have set themselves at the end of their six weeks is to climb "Cardiac Hill" in the Killarney National Park and with this in mind, they plan to try it in the early stages of the challenge to compare how much their fitness levels have risen in the six weeks.

All three girls have desk jobs and busy lives so getting fit and healthy is something they are all looking forward to.

If you would like to join Edele, Aisling, Breeda and Rochelle on the six week challenge to get in shape for Christmas then contact Edele

## ROAD REPAIRS IN KILLARNEY NATIONAL PARK

Heather Humphreys TD, Minister for Arts, Heritage and the Gaeltacht welcomed the start of the next phase of priority road maintenance works in Killarney National Park. €125,000 will be invested in these works this year. Discussing the works, the Minister said, 'I am pleased to provide funding for these important works in the National Park. The Park, which attracts over one million visitors every year, showcases the important conservation work of my Department and also contributes significantly to the tourism offering in the South West. The works will be completed this month, and the timing of the works has been planned to best suit the operational priorities for the Park with emphasis on minimising any inconvenience to visitors and other Park users.' The section of roads to be repaired is a 3km ring-road around Muckross Abbey and taking in Muckross House, and 1.5km of road by the demesne at Mission Road. During the works, the public will be able to access the areas on foot by the paths provided; however, the areas will be closed to jarvey traffic.

# RUGBY CLUB LAUNCH NIGHT AT THE DOGS

Tralee Greyhound Stadium is the venue for a major fundraising event to raise funds for Killarney Rugby Club. The night at the dogs will take place on Saturday November 22nd from 7:00pm onwards.

It will be a night of excitement and fun for all the family with 11 races on a packed card including 'Buster' races. A 'Buster' race is one where punters have a chance to buy a random order in which the 6 Dogs will finish the race. There are 720 possible combinations that the dogs could finish the race. Buster tickets are on sale from all club members or contact Paul Murphy on 087 267 6377 to order tickets or to be a sponsor. The Buster ticket is also a family entry to the track plus a race card. Family is two adults and up to 3 children U12. Enter the Buster race for just €20 and you could win €500 and have a great night's entertainment.

The club still has a few opportunities to sponsor a race, a dog, or ads in the programme. The club has already invested over €750,000 in building its first ever home for the sport in Killarney with a history that spans back to 1880s. Another €500,000 has to be raised to complete this facility which will include: clubhouse, 2 senior and youth pitches, a juvenile pitch, all-weather training paddock, and a 'Trim-Trail', which is a fitness and training track around the perimeter of the grounds with all-weather exercise stations. This facility will be available to the public community to use and plans are already afoot to try to fundraiser for this.

LAUNCHING THE "NIGHT AT THE DOGS" AT THE NEW CLUB GROUNDS AT AGHADOE ARE: FRONT LEFT: GER MOYNIHAN (CLUB CAPTAIN); KEITH O'LEARY (VICE-CAPTAIN). BACK LEFT: JUNIOR FINNEGAN (CHAIRMAN); PAUL MURPHY (FUNDRAISING COMMITTEE); MIKE FULLER (PRESIDENT); PAUDIE SHEAHAN (CHAIRMAN, GROUNDS DEVELOPMENT COMMITTEE).

Killarney rugby club is an affiliated member of the Irish Rugby Football Union and currently has some 400 members of which 230 are active playing and coaching members, ageing from 6 to adulthood. The club has fantastic support from all over the community, especially all codes of sports. The success of Munster in recent decades has played a huge part in the promotion of the sport. Television exposure of the game has given sports people an insight

into the complex rules of the scrum and rucks and mauls. It is a great example of sporting discipline to which many codes now wish to aspire and this is part of the attraction to the game when parents consider what sport they would like their son or daughter to learn and enjoy. The present club was reformed in 1983 and the new grounds will stand as testimony to all that the club has finally come of age.

# KILLARNEY HOTELS – READY TO DO BUSINESS IN LAS VEGAS

Killarney Hotels were among thirty one tourism enterprises from Ireland who travelled to Las Vegas to join Tourism Ireland for this year's IMEX America.

Now in its fourth year, IMEX (International Meetings and Events Exhibition) America is an important event targeting decision-makers in the lucrative MICE (meetings, incentive, conferences and events) industry. Almost 3,000 buyers from North America, and elsewhere around the world, attended the three-day show – which provided valuable business and networking opportunities for the participating Irish tourism operators.

Business tourism is the most lucrative form of tourism, with visitors travelling here for business purposes spending about 2.5 times more than the average visitor.

## BE AWARE OF YOUR ELDERLY NEIGHBOURS AT HALLOWEEN

Halloween a particularly stressful time of year for older people and Senior Help Line is urging the public to remember their older neighbours this Halloween and to make sure that they are safe. Halloween can be a very stressful time for older people, particularly those on their own. Bonfires, children trick-or-treating and loud bangs from fireworks can all contribute to making older people feel anxious and nervous in their own homes. Older people who are worried or feeling lonely can call Senior Help Line on **1850 440 444** at any time, not just at Halloween. For the price of a local call, Senior Help Line volunteers will talk through any issues on a confidential basis. Volunteers are also older people, so callers can be sure of an understanding response. Senior Help Line is open every day of the year from 10am to 10pm.

Kerry Mountain Rescue team came to the rescue of a woman who spent the night on Mangerton Mountain in dreadful conditions.

Mai Murphy from Gneeveguilla was walking alone on

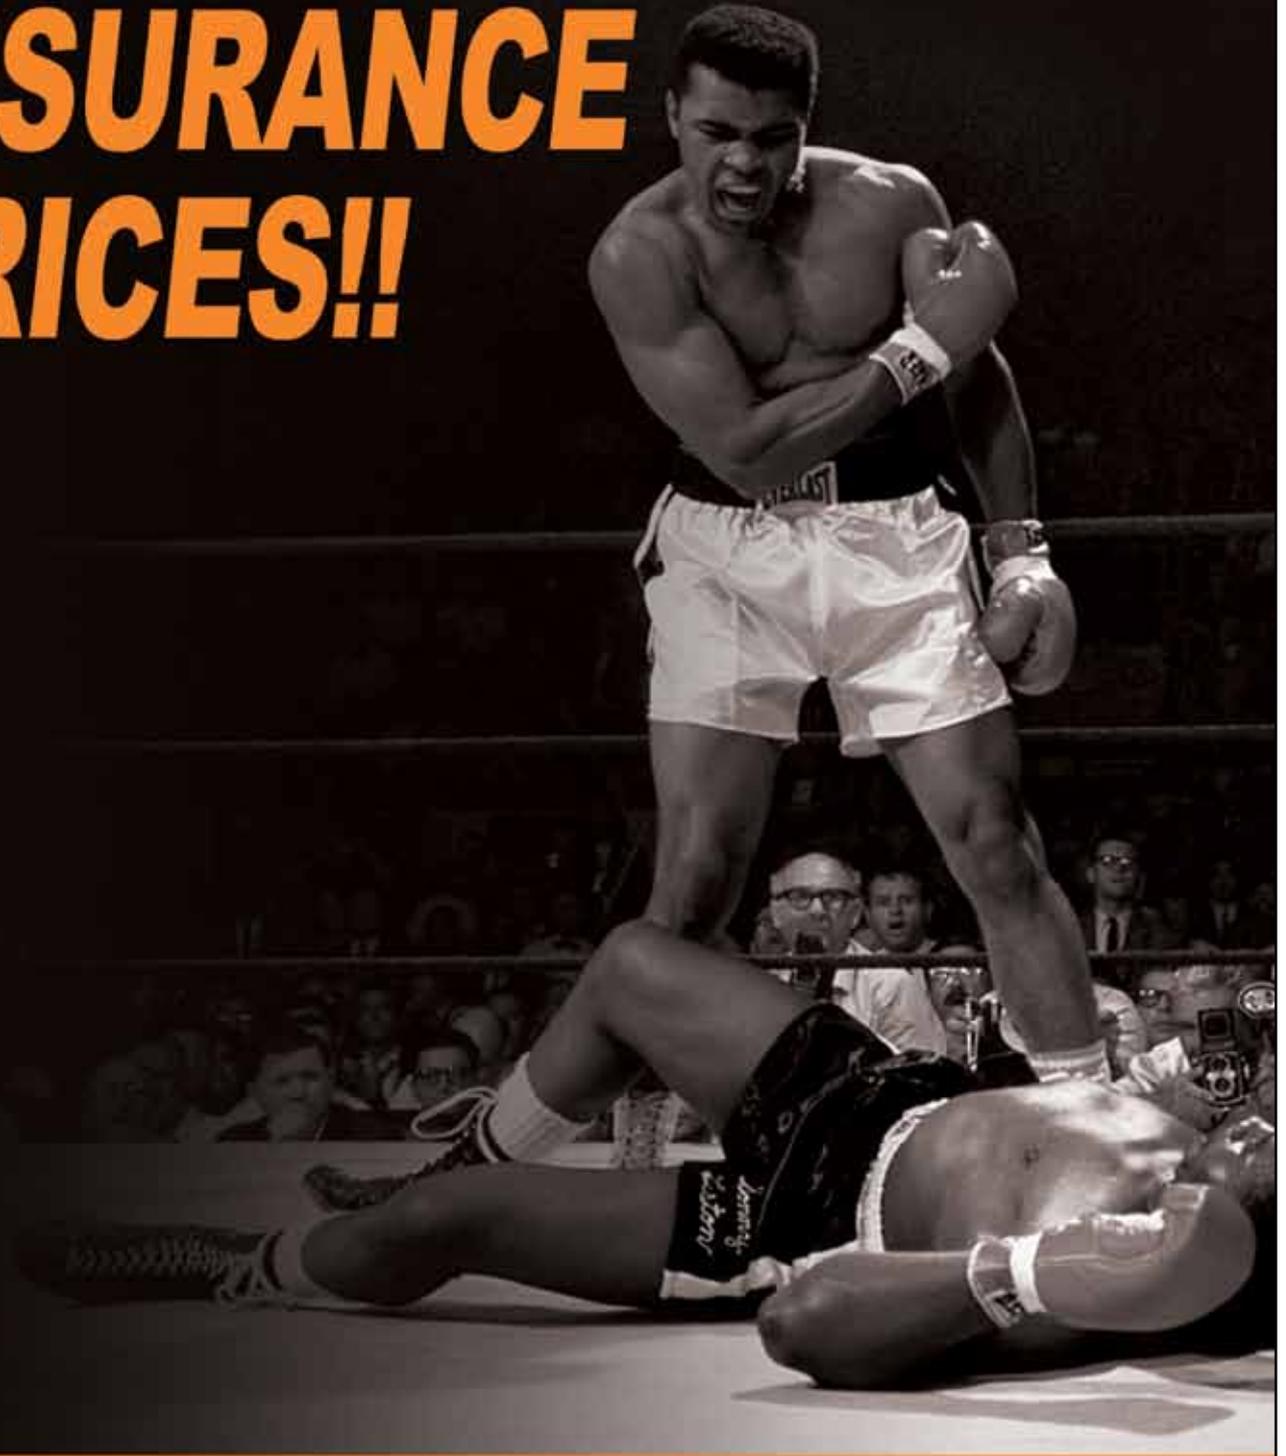

Mangerton on Bank Holiday Monday last and raised the alarm when she was unable to descend the mountain due to weather conditions.

The KMRT kept in touch with her during the night by phone

and rescuers reached her at first light on Tuesday morning in an area known as Horses Glen.

The woman, who is a regular walker was uninjured.

# FASHION EXTRAVAGANZA IN RATHMORE

A spectacular Fashion Show in aid of the Rathmore Branch of the Friends of the Children of Chernobyl took place in the beautifully transformed Community Centre in Rathmore recently with almost 350 attending on the night.

Each summer the local Chernobyl group bring children from Belarus for a month and local woman Martina Drew approached the Committee with the idea of a Fashion Show as a fundraiser to help with the expenses involved. Doors opened at 7 pm and on the night, guests were treated to a wine and cheese reception. The Fashion Extravaganza began at 8pm with latest styles from Lady Lydia Kanturk, Linehans Newmarket, Niche Killarney, Noirins Millstreet, Wisteria Killarney, The Pillbox Killarney, The Washbasket Rathmore, Paco Killarney, and Grá mo Chroí Gneeveguilla. A feast of wonderful designs was showcased by local models who did justice to the local shops collections. All the models looked fabulous on the night and tread the catwalk with elegance and style. Also on the night some local GAA stars graced the catwalk to show off the local club gear. MC on the night was Diarmuid McCarthy who

kept the crowd entertained with his usual wit which proved to be a real crowd pleaser. All in all a great night, stunning models, amazing clothes put together by a team of people who

should be very proud of themselves for pulling off such a brilliant show. The community in Rathmore are already looking forward to next year's event.

## CLLR. GLEESON RAISES CONCERN ABOUT DOG FOULING IN THE COUNTY

At the October 2014 monthly meeting of Kerry County Council, Councillor Michael Gleeson asked:

● That Kerry County Council would examine the feasibility of authorising litter wardens to ask people walking their dogs if they have on their person a pooper- scooper or other appropriate mechanism for removing their dogs' excrement from footpaths and roadways as such material is both unsightly and dangerous particularly to wheelchair users and to the visually impaired.

Kerry County Council replied that it is the responsibility of the person walking a dog to collect any faeces deposited by the dog. If a litter warden has reasonable grounds for believing that a person is committing an

offence under the 1997 Litter Act they can legally ask that person for a name and address. There is, however, no legal requirement for a person to carry with them a pooper- scooper or other appropriate cleaning utensil.

Pooper-scoopers are available at Area Offices, Public Libraries, Blue Flag Beaches and some designated walking routes.

Councillor Gleeson stated that dog fouling presents a serious hazard to people with disability. It detracts from the overall appearance of an area and in extreme cases it can be a health risk, particularly to children's eyesight.

**MONEY MATTERS.....**

By Dermot Cronin,  
**Financial Advisor**

**OVER 75% OF SAVERS UNHAPPY WITH POOR DEPOSIT RETURNS**

A recent survey of more than 1,000 people reveals more than three quarters of depositors think current deposit interest rates are a poor return on their money. Ninety two per cent of savers aged 55-64 think deposit rates are bad value. 78% of people have a deposit savings account. The average Irish person has €25,500 on deposit. Just over a third or 35% know what interest rate is paid on their deposit. Investment returns vs deposits in the last five years: Investors who kept long term funds on deposit for the last few years may be licking their wounds with the average managed fund returning 12% per annum over five years. With some demand deposit rates paying less than 1% and taxed at the higher rate of 41% from January 1 this year, some investors are only receiving 0.5% or less, after tax. Some may not even beat the annual inflation of 0.2%. There has been a significant number of consumers move from deposits to higher yielding long term investments and there is a huge choice of investment options available to people at the moment.

# CANADIAN COUPLE THANK THEIR MYSTERY "GOOD SAMARITAN"

A Canadian couple who visited Killarney in September as part of a five week trip to Europe have praised the generosity of a local man who helped them out while they were here.

Gene and Marie Grey are looking for their mystery "good Samaritan" who came to their aid when they hit a kerb and had a blow out while driving a rental car.

According to Marie, "A lovely man (our angel) drove by and said to himself "I should stop and help but I have to be somewhere) then decided, fortunately for us, that he needed to turn around and come back to help. He pulled up and in a no-nonsense and friendly Irish manner, proceeded to help my husband to change the tyre, then we followed him to a garage where

more friendly fellows put us at ease and fixed the tyre for us. We didn't even get the fellow's name but wondered if the Killarney Outlook could print this and hopefully the fellow will recognize it, she said. "He does not realize it, but he saved our holidays, and we stayed in Killarney for the remainder of the week instead of travelling on and fell in love with the people of Killarney. Looking back on our trip through Europe, Ireland was definitely the highlight for us and we will share this experience with our friends and family".

The good Samaritan can get in touch with the Killarney Outlook and we will pass on Marie and Gene's details as they would like to write and thank him.

## ISPCA ASK PET OWNERS TO PROTECT THEIR PETS THIS HALLOWEEN

It's nearly Halloween and a fun time for all the family but there are a few things to look out for to keep your furry friends safe this Halloween.

We all know some pets become terrified from the noise of fireworks and can sometimes be driven to extreme behaviour. The ISPCA recommend you should always have effective pet identification such as an ID tag on your pets collar plus a micro-chip in the event your pet escapes.

It is important to highlight sweets and especially chocolate are highly toxic for pets as

they contain Xylitol which is poisonous.

**HERE ARE SOME TIPS ON KEEPING YOUR PETS SECURE THIS HALLOWEEN.**

**DOGS AND CATS:** ● Steps can be taken to minimise the stress caused to pets by training them in the run up to the Halloween festivities. The use of dog appeasing pheromones can also be effective. Consult your vet or animal behaviourist for advice.

● If children will be calling to your door trick-or-treating make sure your pets are securely confined so they cannot stray through an open

door or react negatively to scary costumes.

● Pets should have somewhere to hide where they feel secure if frightened by the noise of bangers or fireworks so a quiet room in the house will help with closed curtains and music playing to mask the noise of fireworks.

● Keep pets away from any dangerous or flammable items including candles, bonfires and fireworks.

● Keep pets away from decorations and sweets that could be harmful if ingested. Remember that chocolate is dangerous for your pets.

# IRISH CALL UP FOR TALENTED BASKETBALLERS

EWAN WELDON AND JORDAN LEE WHO HAVE BEEN SELECTED FOR THE IRISH U-15 SCHOOLBOYS BASKETBALL SQUAD. THE BOYS PLAY WITH ST. BRENDAN'S COLLEGE AND ST. PAULS BASKETBALL CLUB KILLARNEY.  
PICTURE: EAMONN KEOGH (MACMONAGLE, KILLARNEY).

Jordan Lee was born with one hand but he was determined it would never deprive him of his ambition to become a major force on the basketball courts. Missing his left arm from the elbow down, he had to work exceptionally hard to perfect the skills of the game but he applied himself to the task fully and adopted a personal mantra of practice makes perfect.

Shooting guard Jordan started playing basketball when he was four years old following in the footsteps of his Dad, Jarlath, a former superleague basketballer who played for Gleneagle Lakers/St Pauls.

Although he has a prosthetic arm, Jordan doesn't use it when playing basketball as he has developed his own style to enable him to dribble and shoot.

Ewan Weldon is also one of the most exciting young basketball prospects to emerge on the Killarney basketball scene in recent years. Standing at 6 foot three inches, he is a particularly tall player for a 14 year old and gives a great advantage to any team he plays with. Basketball has been a huge influence on Ewan from a very young age and he has received expert guidance along the way from his uncle James Weldon, one of the most successful and respected coaches in Irish basketball circles in recent years.

St. Brendan's College basketball coach Andrew Fitzgerald was full of praise for Jordan and Ewan: "They are very committed players and never miss a training session and have even been doing extra training in recent weeks. Both of them work so hard on their game and are always willing to learn and their selection for the Ireland squad is fully deserved."

St. Paul's Basketball Club Chairperson Tricia O'Shea also congratulated the boys on their achievements: "It is a huge honour for them, their school and club and they are a credit to their families. Killarney basketball has a proud history with many Irish Internationals over the

years and it is fantastic to see Jordan and Ewan continuing this great tradition."

Both Jordan and Ewan travel to Gormanston College, Co. Meath, this weekend for further trials and training with the Ireland squad. They are both thrilled and excited with the call-up but fully realise that there is a long road ahead to keep their place on a very talented and competitive squad. The boys have received great encouragement and support from their school, club and families and friends.

Jordan's mother Mary is very proud of his phenomenal progression while his father Jarlath is also delighted and has been a personal basketball coach to Jordan since he started playing. Hilda and Mike Weldon are also very proud parents of their son Ewan and the incredible success he has enjoyed in such a short space of time.

JORDAN LEE AND EWAN WELDON WHO HAVE BEEN SELECTED FOR THE IRISH U-15 SCHOOLBOYS BASKETBALL SQUAD. JORDAN AND EWAN PLAY SCHOOLBOY BASKETBALL WITH ST. BRENDAN'S COLLEGE, KILLARNEY AND CLUB BASKETBALL WITH ST. PAULS KILLARNEY. ALSO INCLUDED FROM LEFT ARE JORDAN'S FATHER JARLATH LEE, SEAN COFFEY (ST. BRENDAN'S COLLEGE PRINCIPAL), ANDREW FITZGERALD (ST. BRENDAN'S COACH) AND EWAN'S FATHER MIKE WELDON.  
PICTURE: EAMONN KEOGH (MACMONAGLE, KILLARNEY)

**TALENTED** Killarney basketball players Jordan Lee and Ewan Weldon have been called up to the Ireland Under 15 development squad preparing for next year's European basketball championships.

Jordan and Ewan (both 14) play together with St. Paul's Basketball Club and St Brendan's College, Killarney. Following impressive performances with the South West Ireland schools team, the boys received the call-up for Ireland.

It is a great achievement for two players from the one club and school to make the Irish squad. The story doesn't end there and for one of the players it is particularly remarkable.

# National Infertility Awareness Week

28th October - 3rd November

## INFERTILITY.. WHAT YOU CAN DO

The aim of National Infertility Awareness Week is, quite simply to:

- Highlight the extent and impact infertility has on people's lives
- Explain what options exist for people struggling to conceive
- Change the conversation and get more people talking about infertility

We want to raise the level of understanding about infertility from the debilitating

emotional impact and the overwhelming feelings of sadness, helplessness and grief, to the important fact that this is a medical condition and not something to be ashamed of!

We also want to encourage people to think about their own fertility, the best time to start planning a family, the time it can take to conceive and the help available when natural conception just isn't an option.

## CORK FERTILITY CENTRE IS THE FIRST CLINIC IN IRELAND TO PROVIDE THE MOST ADVANCED FERTILITY TREATMENTS SUCCESSFULLY.

Dr Tim Dineen Head of Laboratory Services at Cork Fertility Centre is delighted that the first birth following Pre-Implantation Genetic Diagnosis (PGD) carried out in Ireland has been achieved by Cork Fertility Centre. "We are delighted by today's success; it is the result of a lot of hard work over the past few years validating and perfecting the underlying laboratory processes".

PGD is the most technically challenging treatment in assisted reproduction; it requires expertise in clinical embryology and genetics and laboratory staff must be highly skilled. The following disorders are just some of the conditions we can test for, cystic fibrosis, muscular dystrophy, fragile X, batters disease and disorders resulting from inborn errors of metabolism and chromosomal anomalies.

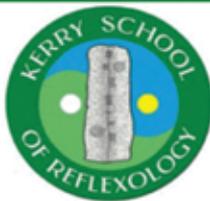

A healthy baby girl, Brigid was delivered safely at Cork University Maternity Hospital (CUMH) earlier this year by Dr John Waterstone, Consultant Obstetrician at CUMH and Medical Director at Cork Fertility Centre. Brigid's Parents Lisa and Patrick, had a one in two chance of having a baby affected by Cystic Fibrosis and opted for IVF with PGD, which allowed screening of their embryos prior to implantation. One in 19 Irish adults is a carrier of the altered gene that causes Cystic Fibrosis and approximately one in four hundred couples are at risk of having an affected baby, there are currently 1200 people in Ireland affected with the condition.

Cork Fertility Centre also provides Preimplantation genetic screening (PGS) also known as aneuploidy screening; this is a process of screening embryos to examine if they have the right number of chromosomes and to look for structural abnormalities. Embryologists can now combine information gained by routine microscopic examination with the results of PGS before they select embryos for transfer or freezing. Embryos with a normal number of chromosomes have a higher chance of implantation and the resulting pregnancies have a lower chance of miscarriage.

Pre-Implantation Genetic Diagnosis (PGD), allows couples at risk of a specific inherited condition to avoid passing it on to their children. Couples undergoing PGD try to conceive using IVF treatment; embryos created in the process are screened for the disorder and the biopsied cells are sent for genetic analysis. Embryos unaffected by the condition are identified and the scientific team arrange for embryo transfer in order to achieve a healthy pregnancy.

PGS may be offered to women where there is a higher risk of having a baby with a chromosome problem or where there is a history of recurrent miscarriage or repeated unsuccessful cycles of IVF.

PGD was first introduced 25 years ago and is used routinely throughout Europe and the USA. Couples in Ireland were only able to avail of such services by travelling typically to the UK and Belgium which added extra stress and cost to the couples involved. Cork Fertility Centre was licensed to provide PGD in late 2012 which marked an important milestone for Irish reproductive medicine.

# National Infertility Awareness Week

28th October - 3rd November

## FERTILITY & REFLEXOLOGY

World Health Organisation figures currently state that one in six couples experiences infertility, so though it's little consolation, know that you're not alone. Any couple trying to get pregnant will understand what a difficult time this can be. It's hard to keep hopes up when you feel you're faced with a wall of frustration and disappointment, and this can bring about stress in any relationship.

Eileen can help alleviate that stress and work on improving conditions for a pregnancy to occur. Her experience as a midwife informs her skills in reflexology as she works on regulating the menstrual cycle, increasing sperm count and motility, and improving hormone levels to enhance a couple's chance of conceiving. Eileen also focuses on relaxing your body and reducing anxiety, which in turn improves your sleep patterns so that you benefit from raised energy levels. She looks at diet too, and any weight issues that may

impede success. Her treatments may also be effective in bringing on ovulation, even if you have polycystic ovaries. Additionally, reflexology can reduce the pain caused by endometriosis. Quite apart from the obvious benefits of Eileen's fertility reflexology, an added advantage is that it works in harmony with IVF treatment, so you don't have to worry about any possible interference. Eileen works with your body and your mind, because at this time in your life as a couple, it is all about you.

## ACUPUNCTURE & FERTILITY

Traditional Chinese Medicine (TCM) has a long history (3,000 yrs +) in treating health problems. Infertility treatment is part of TCM with texts from 200BC describing gynaecology, obstetric & fertility treatment procedures. Today TCM specialists have adapted and incorporated these successful traditional applications into modern fertility treatments. This has resulted in

independent clinical research findings showing acupuncture significantly enhances fertility. (Recent Tel Aviv University study report: 'Acupuncture increases conception rates by 26%') to view the latest research on acupuncture and fertility visit: [www.acupunctureivf.com.au/pages/research\\_and\\_reviews.php](http://www.acupunctureivf.com.au/pages/research_and_reviews.php).

## BEING FERTILITY AWARE- PLANNING FOR THE FUTURE

It is Infertility Awareness Week. You may not be planning to have a baby at this moment in time but knowing the facts can be useful to decide what you might need to do to have a healthy baby in the future.

**KEY FACTS:** • Approximately 1 out of 6 couples will experience difficulties conceiving. There is a perception that in most situations the problem lies with the woman. However in 40% of cases there may be both male and female issues co-existing.

• Female fertility diminishes with age. A woman is born with a lifetime egg reserve; this will reduce over time and that process may be affected by lifestyle factors.

For example, ovarian reserve is affected by smoking, toxins in our environment, alcohol. Healthiness and lifestyle changes are as important as medical interventions.

Blood tests such as Anti Mullerian Hormone (AMH) and ultrasound scans can assess ovarian reserve.

• A condition called Polycystic Ovarian Syndrome (PCOS) can be associated with difficulties conceiving. PCOS is present in approximately 10% of women and may present with irregular periods, acne, facial hair, difficulties with weight management and a pattern of polycystic ovaries on pelvic ultrasound. Nutrition is a key part of the management of PCOS.

• Traditionally it was thought that male fertility does change with

age. We now know this is not the case. Sperm quality and quantity is also affected by toxins, alcohol ingestion, toxins, being overweight and some medications. Vitamin and mineral supplements can improve male fertility as certain lifestyle changes.

**WHAT TO DO:** Couples should seek advice from their doctor if they fail to conceive after twelve months of trying. In couples over 35 it can be valuable to seek advice sooner.

Women should commence Folic Acid at least three months prior to conceiving; women with a higher BMI will need a higher dose.

Changing to a healthier lifestyle can be all that is needed.

Nowadays there are numerous options to consider for couples. However we always recommend that couples sit down with a medical person interested in the area of fertility so that they can be advised on making the right decision.

# BATTERY BREAKDOWNS

**Most common cause of breakdown at any time of year but particularly in winter**

Battery faults are the most common cause of breakdown. Batteries can die at any time of year but it's more likely in winter when cold temperatures hit car batteries with a triple-whammy:

power output drops ability to accept a charge drops, so the battery doesn't recharge as quickly when you're driving load increases – lights, blowers, wipers, heated seats, rear-screen heater etc are all used more  
Add in the fact that many cars stand unused over the Christmas holiday and it's no surprise

that the first day back to work after New Year is always one of the busiest of the year for the AA. Battery problems can be avoided

The garage that services your car should check that clamps and connections to the battery are secure and free from corrosion, but there are a few simple tips you can follow to reduce the chance of your battery letting you down in the depths of winter;

**Age**

If the battery is more than five years old and there's any sign of it struggling to start the car, get it replaced. Some will struggle on for a bit but many won't. It's much better done at your convenience than as a roadside emergency.

**Charge**

If you mostly do short journeys or leave the car standing for days at a time, invest in a modern battery conditioner/intelligent charger. These can be left connected to the battery indefinitely and can prolong its life without overcharging it.

**Load**

Check that everything electrical is turned off when you park up – even an interior light, boot light, or radio left on overnight can kill a battery when it's cold.

Give the battery a chance

Switch off everything electrical and dip the clutch to reduce the load on the battery when you start a cold car.

# PEDESTRIAN SAFETY

**Road-wise pedestrians are safe pedestrians. Find out how to put your best foot forward and stay safe on Irish roads.**

If there is a footpath use it.

If there is no footpath, walk/run/jog on the right hand side of the road, facing oncoming traffic and keeping as close as possible to the side of the road.

Walk no more than two abreast and if the road is narrow or there is heavy traffic, walk in single file.

## BETTER SAFETY, STEP-BY-STEP

In 2008, 49 pedestrians were killed and 1,124 injured on Ireland's roads. That's 18% of all fatalities and 12% of all casualties from road collisions in the country.

## INCREASE YOUR VISIBILITY

More than two-thirds of fatal pedestrian collisions happen at night. Although you can hear a car coming and see its lights, the driver may not see you (and certainly won't hear you).

To protect yourself make sure you:

Always wear a pair of reflective armbands, high-visibility belt or other reflective or fluorescent clothing which will help you to be seen from a distance.  
Carry a torch on country roads.

had one too many, don't attempt to walk – hail a taxi, use public transport or get a lift from a (non-drinking) friend.

Pubs and clubs also have a responsibility to prevent intoxicated customers walking out on public roads where they could be hit by passing vehicles, or cause a crash through their own behaviour. To prevent this happening, bar staff or anyone serving alcohol should decide if the person is fit to walk. If not, they should arrange to get them home safely.

## THE BASICS

Although you can't be responsible for the way people drive, you can take a number of steps to make yourself safer as a pedestrian:

**Stop, look and listen**

Don't try to cross the road between parked cars  
If possible, cross at a pedestrian crossing or traffic lights.

Never cross at a bend.

## SOBERING FACTS

Drunken pedestrians are a source of danger to themselves and other road users. If you have

## THE IMPORTANCE OF COMMUNICATION

When people come along to counselling, and begin talking about their problems, it sometimes becomes apparent that some of their difficulties may be down to the challenge of communicating with the other people in their lives.

This can apply to any of us. Whether discussing issues in our relationship with a partner or other family member, or with friends or colleagues, we are quite likely to say 'He knows how I feel about this', or 'She knows how difficult I find that', or 'I'm not going to ask them for help because I shouldn't need to ask, they should just know what to do', and so on. Sound familiar?

All this ignores a fundamental reality – we cannot assume other people know what we think, or how we feel, or what we need, unless we tell them. We are all equipped with a degree of intuition, and some people can be very 'tuned in' to the thoughts and feelings of others. But we cannot always rely on intuition alone. For example, someone may long for their partner to open up about a shared difficulty in their lives, while the partner may want exactly the same thing, but feel they 'shouldn't go there' because they think this would be unwelcome. Two people, who long to connect with each other, may grow further apart because of a gap in communication.

Of course we all need, and are entitled to, our privacy. We don't have to wear our heart on our sleeve all the time. What we are thinking about here is building bridges and sustaining connections with the significant people around us, rather than seeing those connections weaken through a lack of communication, with all the misunderstandings, frustrations, conflict, hurt and loneliness that can ensue.

As children, we may have been fortunate enough to have an adult around who 'tuned in' to our feelings and tended to our needs, before we were old enough to put those feelings and needs into words. Even if we don't realise it, perhaps a bit of us still quite naturally longs for that sort of automatic understanding from others. But, as adults, we probably need to play our part in making ourselves known and understood. The counselling process can offer a safe space where we can start putting things into words, gradually find our own voice, and become more confident about making ourselves known to another person.

### URINE INFECTION IN CHILDREN

A urine infection is caused by bacteria that get into the urine. Most urine infections are due to bacteria that normally live in your own bowel but manage to get in to the urine. Some bacteria thrive in urine and multiply quickly to cause infection.

The infection is commonly just in the bladder (when it is called cystitis), but may travel higher up to affect one or both kidneys as well.

Nearly 1 in 20 boys, and more than 1 in 10 girls, have at least one urine infection by the time they are 16 years old. Children aged under five years are the most commonly affected. Most urine infections in children are just "one of those things" and there is no underlying problem to account for it. However in some cases there may be an underlying cause for the infection. Retaining some urine in the urinary tract may play a part. When we pass urine, the bladder should empty completely. This helps to flush out any bacteria that may have got into the bladder. However, some abnormalities or problems that affect the urinary tract can make some urine stay in the urinary tract. This may allow any bacteria to multiply as urine is a good food for some bacteria. Some children suffer from constipation and emotional issues in passing bowel motions. Both can lead to hard stool pressing on the bladder and thus causing the retention of urine.

An abnormality of the urinary tract may lead to retention and improper drainage of urine. One common condition is called vesico-ureteric reflux. Infected urine can travel upwards towards the kidneys potentially causing kidney infections and scarring. Other rare problems that may be found include kidney stones, or congenital abnormalities of parts of the urinary tract.

Neurological (nerve) or spinal cord disorders may affect the bladder emptying and thus lead to infections.

It can sometimes be difficult to tell if your child has a urinary infection. Young children, toddlers and babies can have various symptoms including fevers and going off feeds. Older children may say that they have pain when they pass urine, and pass urine frequently.

A urine sample needs to be tested confirm the diagnosis. This can be difficult to attain in children.

**Young children** - the usual way is to catch some urine in the specimen bottle whilst they are passing urine. Just be ready with the open bottle as the child passes urine. (Be careful not to touch the open rim of the bottle with your fingers as this may contaminate the specimen with bacteria from your fingers.)

**Babies** – A urine bag or pad can be used to collect urine. If no pad or plastic bag is available, the following might work. Take the nappy off about one hour after a feed. Tap gently with a finger (about once a second) just above the pubic bone. (This is the bone at the bottom of the stomach above the genitals.) Quite often, within about five minutes, the baby will pass urine. Try to catch some in the bottle.

If you collect a sample at home, take it to the doctor or clinic as soon as possible after collection. If there is a delay, store the urine sample in the fridge.

What is the treatment of a urine infection in children?

A course of an antibiotic will usually clear the infection within a few days. Give lots to drink to prevent dehydration. Also, give paracetamol to ease any pains and high temperature.

**FURTHER TESTING MAY BE ADVISED BY YOUR DOCTOR. FOR EXAMPLE:**

- Children over the age of six months who have a one-off urine infection which promptly clears with treatment do not usually need any further tests.
- Children with a severe infection, or with an infection with unusual features, may need tests.
- Children who have two or more infections of any severity may need tests.

The tests that are advised may vary depending on local policies and the child's age. There are various tests (scans, etc) that can check on the structure and function of the urinary tract (the kidneys, ureters, bladder and urethra).

#### EAST KERRY MINOR CHAMPIONSHIP SEMI FINALS

Fossa 3-16 Glenflesk 3-9 Fossa reached the final of the East Kerry Minor Championship Division 2, sponsored by the Tatler Jack, on Bank Holiday Monday when they had seven points to spare over visitors Glenflesk at Fossa. After a slow start, Fossa built up an eleven point lead at half time. When Paudie Devane increased the Fossa lead to fourteen points immediately after the

resumption, the game looked over as a contest, but to the credit of Glenflesk, they upped their performances and succeeded in reducing the margin to seven points at full time.

Glenflesk had the brighter opening ten minutes when they led 0-3 to 0-1 – their scores coming from Lee O'Donoghue (0-2) and Daniel O'Brien while Paudie Clifford replied for Fossa. However, Fossa controlled the rest of the half scoring 1-6 without reply as they put relentless pressure on the Glenflesk goals. Despite a good save from Tom Doherty, Adrian Cronin toe poked the rebound to the Glenflesk net in the eleventh minute. There followed a string of points for Fossa from brothers Paudie and David Clifford, Michael O'Keefe, Matthew Rennie and Adrian Cronin to see Fossa lead 1-7 to 0-3 with five minutes remaining. Glenflesk added a point from a Lee O'Donoghue free but Fossa continued to press home their advantage. David and Paudie Clifford added points. On the call of half time, a quick free from Paudie Devane found Paudie Clifford inside the Glenflesk defence and the latter raised a green flag. Half time Fossa 2-9 Glenflesk 0-4.

On the resumption Paudie Clifford won the throw in and in combination with his midfield partner Killian Bellew they worked the ball towards goal. A fine save by the Glenflesk keeper Doherty rebounded to Paudie Devane who made no mistake for Fossa's third goal. It left Glenflesk with a mountain to climb as the scoreboard read Fossa 3-9 Glenflesk 0-4. Glenflesk moved Luke O'Sullivan to midfield and his side began to put good attacks together. Over the next twenty minutes, they outscored Fossa by 8 points. A Glenflesk goal from Daniel O'Brien was followed by a Lee O'Donoghue pointed free – 3-9 to 1-5. Glenflesk had points from O'Donoghue(0-2), Daniel O'Brien and Luke O'Sullivan while Paudie Clifford and Mikey O'Keefe responded for Fossa. After twenty minutes, Glenflesk midfielder Eoin O'Meara soloed through the Fossa defence. His pass to Lee O'Donoghue on the edge of the square brought goal number two for Glenflesk - 3-11 to 2-8 with ten minutes remaining. From an unassailable position, the Fossa lead was under threat. However, the impressive Matthew Rennie together with the Clifford brothers, full back Colm Walsh and centre back Diarmuid Burke steadied the Fossa ship. Points from Mikey O'Keefe, Paudie Clifford and Matthew Rennie restored a good margin but when Daniel O'Brien pumped a long ball into the Fossa square, it was Lee O'Donoghue who reacted best to finish to the net - 3-14 to 3-8 with minutes remaining. From the kick out Daniel O'Brien added a Glenflesk point but Fossa finished strongest with points from Matthew Rennie and Paudie Clifford. Final score Fossa 3-16 Glenflesk 3-9. Fossa play Rathmore in the Final. Date and venue TBC. Referee Donal Casey Scartaglin.

## LEGION GAA CLUB NOTES

**GAA PLAYER OF THE YEAR** Hearty congratulations to James o Donoghue on receiving his second All Star award in a row and then followed it up by scooping the GAA FOOTBALLER OF THE YEAR AWARD . A richly deserved award by a player who has lit up the footballing season and ignited Kerrys charge at the All Ireland title this year .. A great honour for himself , his family and the entire club to see him be the first Kerry player since 2009 to win this award . Well done James.

**U12 GIRLS FOOTBALL** Legion V Glenflesk Our Legion U12 girls took to the pitch in Glenflesk last Sunday afternoon with determination in their hearts from the outset. Captained by Tara Murphy, they started as they meant to go on with a 2 point lead within the first couple of minutes. All players played to their full potential on the day. Goalkeeper, Deirdre Lyne ended her year in style with some great saves and her kick outs reached their targets, midfielders Tara Murphy (0-1) and Orla Cronin, who worked tirelessly, covering the pitch from post to post. Our Defence was rock solid with Amy Myers, Kate Mc Carthy, Orlaith O' Connor, Evie Culloty, Caoimhe Fleming and Eve Crowley, all of whom played their part in working hard to keep the Glenflesk girls

out of scoring range .Our Full Forwards, Ellen Farandon, Niamh O' Leary, Lauren Horgan, Ailbhe Gammell, Shona Doody (2-1) and Kerri-Ann Hanrahan (0-7) worked as team to put the vital scores on the board, with some beautiful points being scored and two well fought for goals.

Our Subs made a massive impact when they came on the pitch and into weather conditions that had seriously deteriorated for our team: Clodagh Sheahan, Aishling Stack, Sarah Moriarty, Leah Dickinson and Rebecca Doyle .

Our girls played with great heart and fight to reach a grand finale of 2-9 to 1-7. Our Club should be very proud of them!

We would like to sincerely thank parents for their support throughout the year and for turning up in such large numbers to cheer on the girls on Sunday. Well done to all!

**MORAN CUP FOOTBALL** Well done to our young Legion players, Robert Osborne, Micheal Devlin, Jack Enright, Barry Slattery, Darragh Lyne & Darren Looney who lined out for the winning 'Sem' team in the quarter-final of the Moran Cup (Under 15A) Football competition. The 'Sem' were sluggish in the first-half but got their act together in the second-half and thoroughly deserved their victory. St Brendans Killarney 1-15 PS Chorca Dhuibhne 2-2.

**SATURDAY MORNING ACADEMY** Saturday Academy - sponsored by Keanes - is a great hive of fun and football on a Saturday morning.

We have been very lucky with the weather too! Sean Culloty and the Coaches have agreed to extend the coaching sessions until Nov 8th.

Given that many of the coaches worked with the kids from March through to July, then ran blitzes and Tuesday evening football into August before the Autumn term started in September, I'm sure parents of the u6 to u10 boys & girls in the club really appreciate their dedication and that of the off-the-field volunteers.

**O DONOGHUE CUP DRAW** We have been paired with Kilcummin in the semi final of this years O Donoghue cup with that game to be played on November 9. the other semi sees Spa awaiting the winners of Rathmore v Dr Crokes.

**RESULTS:** Mnr. C'ship Final: Dr. Crokes 2-03, Dingle 1-09. Molyneaux Cup Final: Dr. Crokes 3-09, Kilcummin 0-07.

**MINOR C'SHIP FINAL:** The ball was thrown in with the first use of the wind coming for us. The story of the first half is easily told with all the action crammed into the final three minutes of play. Both sides swapped early points, Jordan Kiely opening our account. The next score did not come for another 18 minutes when Micheál Burns put us ahead from a free. In between, with both sides using the possession game, there were numerous turnovers, we missed a few scoreable frees and Billy Courtney's shot required a great save from the Dingle goalkeeper in the 25th minute. Suddenly the game came to life when Dingle finished to the net after an initial shot was well saved by Johnny O'Leary. On resumption, play switched to the opposite end where Micheál Burns converted a penalty after a foul on Paul Clarke. At the break it was 1-02 apiece. Dingle now had use of the wind in the second half. Chris Doncel scored one of the finest points of the day which was followed shortly after by a second penalty when Jordan Kiely set up David Naughton who was pulled to the ground in the 15th minute. Micheál Burns struck the post with his shot but Jordan Kiely was first to react, booting the rebound to the net put Dr. Crokes ahead 2-03 to 1-04. But this proved to be our last score as Dingle took control of the middle third of the field. Geaney and Flaherty pointed to level the game for Dingle with 7 minutes remaining and after pushed on to give Dingle victory. Full-time score: Dr. Crokes 2-03, Dingle 1-09.

## STALEMATE AS AUSTIN STACKS AND MID KERRY HAVE RETURN BOUT

**AUSTIN STACKS 1-13  
MID KERRY 2-10**

**KERRY O'SHEA REPORTS FROM**

**AUSTIN STACK PARK**

Austin Stacks and Mid Kerry will have to do it all over again following their draw in a pulsating Garvey's Kerry SFC decider at the Austin Stack Park Tralee last Sunday.

The game was afterwards described by supporters of both sides and neutrals alike as one of the best county senior football deciders in recent memory. The large crowd and the good natured banter between both sets of supporters ensured a wonderful atmosphere at the Tralee venue not to mention the Austin Stacks army of supporters who added their own colour and flair to the proceedings. The playing surface, despite all the recent heavy rain, was in mint condition, the credit for this must go to groundsman Vincent Linnane and his team. Both sides had chances to win the game. Gavan O'Grady, who turned in a magnificent performance for Mid Kerry, was narrowly wide, missing a 15 metre free with three minutes remaining, then in the final play, Shane Carroll's attempt from a 47 metre free drifted well wide of the target. In between, Kieran Donaghy's goal attempt which was taken off the line by a Mid Kerry defender at the start of the second half was also vital. A goal at that stage would have spelt curtains for Mid Kerry's challenge, but in truth, a loss for either side would have been particularly cruel. When they reflect on this game, Austin Stacks will feel that this was one that slipped away. They led by four points just after half-time and with the aid of the swirling wind appeared set for victory, but a resilient and determined Mid Kerry refused to lie down and inspired by a fortuitous goal from county man Donnchadh Walsh, lived to fight another day. **THE PLAY, FIRST HALF:** Both sides seemed to cope better when playing against the elements. Mid Kerry got off to a great start when their main scoring threat Gavan O'Grady, the top scorer in this year's championship race, stole inside the Stacks defence to bury a super goal following a peach of a kick pass from Gary Sayers with five minutes gone on the clock. Austin Stacks, slowly but surely, got to grips with the game and started to dominate around midfield with Daniel Bohan turning in a super performance at wing-forward poaching two points. Austin Stacks dominated from the eighth to the 21st minutes of the first

MID KERRY WHO PLAYED AUSTIN STACK FOOTBALL TEAM IN THE GARVEY'S SUPERVALU SENIOR COUNTY FOOTBALL CHAMPIONSHIP FINAL 2014 AT AUSTIN STACK PARK, TRALEE ON SUNDAY

half, scoring 1-5 during this period, the goal from Kieran Donaghy and the points from Pa McCarthy, Shane Carroll(3), and Daniel Bohan, his second point of the game a real beauty which appeared to be going wide but curled over at the last second. Mid Kerry's first-half points came from Gavan O'Grady (2), Darran O'Sullivan, Donnchadh Walsh and James Long. At half-time, Stacks led by 1-8 to 1-5 and with the aid of the breeze for the second half, things certainly looked good for Stephen Stack's side.

**SECOND HALF:** Stacks led by four points, 1-9 to 1-5 when Pa McCarthy pointed after just 13 seconds, but Mid Kerry, with Kerry minor Liam Carey now in the action and causing the Austin Stacks defence plenty of problems, answered superbly with two points from Gavan O'Grady frees both won by Carey, and a fortuitous goal from Donnchadh Walsh to draw level, 1-10 to 2-7, with 40 minutes gone. Gavan O'Grady from a free eased Mid Kerry back ahead with 15 minutes left to play, a score which was cancelled at the other end by Stacks' Mikey Collins. Shane Callaghan and Kieran Donaghy added points to give Stacks a two-point margin entering the closing stages, however, Mid Kerry showed wonderful resilience and late points from Gavan O'Grady earned James Sheehan's side a draw. Ironically, the last time Stacks and Mid Kerry met in a final was back in 1975, that game also finished level, with Austin Stacks winning the replay.

Can history repeat itself, only time will tell. Finally, well done to Coiste na nOg Ciarrai on the production of an excellent Co Final Programme, a real collector's item!

**BIG MATCH FACTS: MAN OF THE MATCH:** Daniel Bohan (Austin Stacks). There were several worthy performances on both sides, Mid Kerry had heroes in Gavan O'Grady, Gary Sayers and Liam Carey, when he was introduced, while Austin Stacks best were Kieran Donaghy, Wayne Guthrie and Shane Callaghan, but we opt for Daniel Bohan who was a towering influence throughout. **SCORE OF THE MATCH:** Gavan O'Grady's first goal in the 5th minute was superb. O'Grady took delivery from a long Gary Sayers punt and stuck the ball over the head of

advancing Stacks keeper Darragh O'Brien. The point of the game was Daniel Bohan's second in the 10th minute from distance, which dipped over at the last minute.

**AFTER MATCH INTERVIEWS  
Stephen Stack (Austin Stacks)**

"We put ourselves in a pretty good position at half-time, we should have been further ahead. A draw was probably a fair result. I was very proud of the lads with the way they fought back after conceding the two goals. They are a strong running team, we had chances to win it, yet it's fantastic to be still involved in another county final next Sunday."

**"James Sheehan (Mid Kerry)**

"It was a repeat of 08 against O'Rahilly's, we coughed up three goal chances in the first half, we need to rectify a few areas but I have to hand it to my lads, they showed great character in coming from three points down against that wind, we trusted ourselves and believed in our ability and we have to build on that again for the next day."

**SCORERS: AUSTIN STACKS:** Shane Carroll (0-5, 0-4 frees), Kieran Donaghy (1-1), Pat McCarthy, Daniel Bohan (0-2 each); Shane Callaghan, David Mannix, Mikey Collins (0-1 each). **MID KERRY:** Gavan O'Grady (1-6, 0-4 frees); Donnchadh Walsh (1-1); Darran O'Sullivan, Gary Sayers, and James Long (0-1) each. **TEAMS: AUSTIN STACKS:** Darragh O'Brien; Fergal McNamara, Barry Shanahan (capt), Ronan Shanahan; Pa McCarthy, Conor Jordan, Greg Horan; Wayne Guthrie, William Kirby; Shane Callaghan, Shane Carroll, Daniel Bohan; David Mannix, Kieran Donaghy, Mikey Collins. **MID KERRY:** Michael Moriarty (Beaufort); Michael John O'Connor (Beaufort), Fergal Griffin (capt) (Glenbeigh/Glencar), Ger Hartnett (Beaufort); Ronan Murphy (Beaufort), Pa Kilkenny (Glenbeigh/Glencar), Aaron Cahillane (Glenbeigh/Glencar); Colin McGillycuddy (Glenbeigh/Glencar); Tomas Ladden (Keel); Gary Sayers (Keel), Darran O'Sullivan (Glenbeigh/Glencar), Donnchadh Walsh (Cromane); Gavan O'Grady (Glenbeigh/Glencar), James Long (Keel), Kieran Courtney (Glenbeigh/Glencar).

## KILLARNEY RUGBY CLUB NEWS

### U14S - SUNDAY 26TH OCTOBER KILLARNEY RUGBY U14'S V CASTLEISLAND U 14'S.

This was a very sporting and entertaining game with both teams showing great skills and commitment. Killarney aided by a strong wind in the first half scored a well taken early try, when Adam Walsh took a well timed pass from Conor Sheahan to score in the corner. Another good piece of interplay by the backs saw Sean Murphy loop and take a nice pass from Diarmuid O'Donoghue to show great pace to score in the same corner. Conor Sheahan converted with a fantastic kick from the touch line. After great work by the forwards Conor Sheahan again cut through to score under the posts converted by Sean Murphy. The forwards, led by Finn O'Sullivan and supported by Ciaran O'Brien, Michael Horgan (making his debut), David Kennelly and Matt Mc Auliffe forced a scrum close to the Castleisland line. A good pick up and run by the no 8 Richard Wallace saw him score near the posts converted by Sean Murphy. This left the score at 26 - 0 to Killarney at half time. In the second half against a strong wind and a determined Castleisland team Killarney found it hard to get out of their own half. Mark Woodard and Jack O'Connell made good tackles to keep Castleisland out and Diarmuid Cahill and Jaden Leane worked hard in the tight exchanges. After more good work by the forwards Dion O'Neill made a typical scrum half break and ran 30 metres only to be stopped short of the line. From the resulting play Conor Sheahan took a great pass from Sean Murphy to score a well taken try out wide, converted by Sean Murphy. Castleisland to their credit never gave up and scored two well taken tries and converted one, making the final score Killarney 33 pts Castleisland 12pts. This was a great team effort by the Killarney boys who are improving with every game.

## MUCKROSS ROWING CLUB

**AGM 2014:** The AGM of Muckross Rowing Club Ltd. was held on Thursday 23rd October at the Killarney Oaks. In his address, Chairman Maurice Coffey reflected on a most successful year for the club and thanked the coaches, oars people, committee and all the parents that supported the club and fundraising events. The hard work and pride of members in their club was noted for enabling the collective achievement of the past year - achievement not just measured in silverware but through participation of over 80 members, male and female, young and older. In particular the continued progression of junior members stands as testament to the club's success. Maurice commended the junior 18 squad and coach Aine Sweeney in particular, with silver medals at the Irish Championships and four green jerseys to cap the year. The assembled members were reminded of the great success of Kara O'Connor, Holly Hickey, Aine O'Sullivan and coach Aine Sweeney on their selection to the Irish squad for the Home International Regatta. The Muckross Head Of the River was noted as a great success in December 2013, made possible with assistance of parents and a little help from the weather on the day. The Gap Boat Trip, Barbeque and Summer Camp were also noted as terrific events for the club. The 2013-14 season had numerous competitive highlights - with Muckross RC strongly represented in regatta and time trial events up and down the country. Killarney Regatta was once again an outstanding success for Muckross crews across the board. The AGM was reminded of the ongoing financial commitment to sustain the voluntary sporting efforts of the club and Maurice expressed his thanks for the support of the Muckross Lottery and all fundraising events of the past twelve months. As always, renewed effort and support for the club's ongoing fundraising activities will be required through 2014-15. The new season also promises to deliver an exciting development in Muckross, as the extension of the Community Centre nears completion. Maurice asked all members to support the Community Association in their fundraising efforts including the upcoming Street Collection on 1st November. Further to

his Financial Report, Mike Walker was thanked for his presence at a busy time of the year. ## KILLARNEY COUGARS BC

**SENIOR LADIES DIV 1**

**KILORGLIN CYMS 37**

**KILLARNEY COUGARS 38**

Last seasons top two ladies teams met at the Kilorglin Sports Complex on Wednesday last and the Cup holders Cougars defeated the current League Champions in a tense low scoring contest. The last time the sides met was the Cup Final in March with extra required on that occasion to separate the sides and with defenses on top here extra time looked likely in the closing stages. Neither side played to their potential with the games turning point coming in the closing quarter with Kcymys Kerry O'Sullivan having dragged her side

from five points down into the lead with her contribution of five points and some excellent assists in the final quarter before being forced to withdraw through injury. Cougars with two consecutive baskets by Allyson Caggio and a three pointer each by Cassandra Buckley and the excellent Marian O'Callaghan in the closing stages restored Cougars lead as they just held out in the final minute to give the visitors the points. Best for Cougars were Katie O'Brien, Allyson Caggio, Marian O'Callaghan.

Top scorers Cougars Marian O' Callaghan 14 pts, Kcymys Cora Conway 11pts.

**SENIOR MEN'S DIV II**

**TRALEE TIGERS 53**

**KILLARNEY COUGARS 59**

Both teams went into this game in good form having won their opening league games and a competitive and entertaining contest saw Cougars come from behind to take the points at Cuman loasef. Tigers made a strong start to lead 13-9 with Tomas Collins and new European signing Mario impressing with good early baskets. Cougars found their range in the second quarter with the experienced Alan Flynn on target with 3 three pointers to see Cougars ahead at halftime 24 20. The teams could not be separated in the second quarter as they went basket for basket with Cougars holding on to the lead 39 35. Cougars finished the stronger in the final quarter with Eugene Bowler, Dan Doonan and Niall O'Brien impressing on the boards despite the best efforts of Maurice Daly and James McAuley for the home side.

Top scorers Tigers Mario 24 pts, Cougars Flynn 18 pts.

### **FIXTURES:**

#### **Munster Junior Cup: KILLARNEY CELTIC 2 LISTOWEL CELTIC 2**

(Killarney Celtic won 4-3 on penalties) A thriller, and we had to reach deep into our reserves to come through a really tough test. Kevin O'Sullivan and Peter McCarthy had us 2-1 up at the break, but Aidan Quinn scored his second for Listowel Celtic to take it to the dreaded penalty shootout. 17 year old David O'Carroll was standing between the posts in his debut for us and no veteran could have acquitted themselves better.

#### **Denny Premier B: BALLYMAC GALAXY 2 KILLARNEY CELTIC B 0**

Celtic put in a great effort but full credit to an excellent Ballymac side who fully deserved their win.

#### **U16 National Cup: KNOCKLONG HOSPITAL 0 KILLARNEY CELTIC 7**

Knocklong battled bravely but in fairness Celtic were simply on fire on the day. David Clifford, Oran O'Donoghue, and Luke O'Donoghue all scored twice, with Mark Harnett icing the cake

with a beauty near the finish.

#### **U16 Div Two: KILLARNEY CELTIC B 3 LISTOWEL CELTIC B 0**

Lee Downing and Nacho Po had us 2-0 in front before Micheal Devlin and Nicklaus Littman combined to seal a convincing victory. Oran Claffey, Daniel Horgan, Kane Filan, Jake Daly, and Ryan Casey all sparkled for Celtic.

#### **U14 National Cup: KILLARNEY CELTIC 3 CORBALLY 0**

Another fantastic team display. Patrick Darcy, Ryan Kelliher, and Mike Lenihan got the goals, while Eanna Coleman, Peter O'Sullivan, and Darragh Dennehy also stood out with some sparkling skills and tremendous hunger.

#### **U14 Div One: BALLYHAR 2 KILLARNEY CELTIC B 2**

Short a number of regular starters, Celtic pulled out all the stops and goals from Adam McMahon and Evan Lyne, plus an absolutely stunning performance by unquestioned man of the match goalkeeper Oliver Cremin Murray earned us a deserved share of the spoils.

#### **U12 Div One: KILLARNEY ATHLETIC B 1 KILLARNEY CELTIC B 3**

A super performance by two fine teams, with Celtic just getting the edge on this occasion.

A brilliant performance and result by our senior team on a wet and windy day back in Dingle. Every single one of the players and subs were magnificent and our passing, movement and energy were a joy to watch. Gavin O'Shea scored to give us a half time lead. Mike Milner on his return to the side scored an absolute peach, and 2 more goals from Cillian Fitzgerald and Ryan O'Carroll sealed a great day for the blues. Rafa was great in goal, while Ryan O'Carroll, Mike Milner, Lukas and Gavin O'Shea made standout performances in a great overall team display.

#### **JK Sports Under 12 Division 1**

#### **KILLARNEY ATHLETIC 1**

#### **KILLARNEY CELTIC 3**

This was Athletics second outing of the season and it was a big improvement. Athletic opened brightly and played some lovely football in the first half during which they scored through Darragh Looney and also missed a penalty. The second saw Celtic come more into the game and two deflected goals didn't help Athletic's cause. Overall a great team performance.

**12'S NATIONAL CUP:** In the 12's the all Kerry clash between Camp and Listowel Celtic was a 5 goal cracker with the visitors just getting the better of Camp. Adam Farrell put Listowel Celtic ahead before Stephen Smith Galvin equalised.

Listowel Celtic took over and went 3-2 ahead thanks to goals from Aoife Horgan and Cian Clancy. They stayed ahead mainly thanks to their keeper Jack Shine who had a great game. Caoilan O'Connor pulled one back for Camp but they just couldn't find the equaliser. Well done to Camp Juniors who produced an excellent programme to mark their 20th anniversary.

Killorglin had a very good 3-1 away to Charleville. Dylan Murphy scored 2 and Adam Owens the third to see the mid Kerry boys progress to the 4th round.

Sean McGrath top scored with 3 while Leon and Marvin Shambala got one each as did Alfie Christie straight from a corner.

Killorglin went 2-0 down at home to Regional United but turned it around thanks to 2 Jack O'Connor goals either side of half time. Martin Foley then put the home side ahead before Dylan O'Neill wrapped up the win.

Killarney Celtic put 3 past Corbally at Celtic Park without reply. Patrick Darcy, Ryan Kelliher and Mike Lenihan were the scorers.

**16'S NATIONAL CUP:** Tralee Dynamos were in a nail biting encounter with Nenagh that remained score-less all the way through extra time. Into penalties and Dynamos were faultless with Rian O'Sullivan, Dara Divine, Dan O'Connor, Kevin Williams all scoring as did Eoin McElligott who showed no nerves to wrap up the win. Donagh McKiveran saved one from Nenagh to send Dynamos through.

Killarney Celtic travelled away to Knocklong / Hospital and came through thanks to doubles from David Clifford, Oran O'Donoghue and Luke O'Donoghue. Mark Harnett added a 7th to wrap up the win in style.

Unfortunately The Park went down 2-0 to Limerick FC at Christy Leahy Park.

## NEWS FROM THE KERRY LADIES CAMP

It was a busy weekend on the development front with approx 130 girls in the U13 & U15 Development squads wearing the Kerry jersey the weekend. The U13's participated in a Munster blitz in Mallow with 4 teams & all teams played with distinction. The U15's were in Rathkeale in a blitz organized by Limerick & the 3 teams played with distinction. Many thanks to the large team of mentors who travelled with the squads. Training continues on Saturday for the U13 squads details on social media later the week. While the U15 squads travel to Mallow for the Munster blitz, travel details on the website etc.

THE UNDER 15 KERRY DEVELOPMENT SQUAD.

The Rhino Quality Feeds Co. League Div 2 final between Na Gaeil & Rathmore takes place on Sunday at 12 noon, venue TBC. Rathmore have made steady progress the past few years winning back to back promotion in both league & championship. However Na Gaeil are an experienced team & will be hoping to put the Intermediate final defeat to Castleisland behind team & hoping to add the Division 2 title to the honor call. If the injury list for Na Gaeil has cleared up expect a tight game & maybe their experience could swing it for them. However if they are still carrying injuries to key players then Rathmore fitness & strong

forward play would sway it in the East Kerry team's favour.

Best of luck to Castleisland Desmonds who head to Edinburgh to take on Dunedin Connollys in the Tesco HomeGrown Intermediate Club Championship quarter final the weekend. Dunedin had a good run in last years Junior Club Championship where they went all the way to the final but came up against a very strong Na Gaeil side who annexed the title. The long travel maybe a factor for Castleisland but they have a dearth of talent in the panel

& you would be confident that after a battle they will find their stride & book their semi final spot. The prize would be a possible home semi final against the Leinster Champions on the 15th/16th November.

The Mary Jo Curran Cup is reaching its concluding stages with Semi Final's in the A & B section. In the A section Southern Gaels host Inbhear Sceine Gaels in Derrynane 12 noon & in the B section Finuge/ St. Senans host Corca Dhuibhne. Both games take place on Sunday. All details TBC later in the week.

**YOUNG SCIENTIST AWARD WINNERS  
REVOLUTIONISE SEED HARVESTING**  
(BY TOMMY ROCHE, CASTLEISLAND)

Only a couple of weeks ago a trio of Cork schoolgirls wowed the European science world with their "BT young scientist" project. A week later they went a step farther and overcame some incredible competition to win first prize at the Google Science Fair. Their third award in a month came when they were named amongst Time magazine's 25 most influential teenagers. Huge praise and a world profile in so short a time would make one wonder just what incredible discovery have these three made. It is as much a rediscovery as an innovation but it is one whose time has come. All farmers are aware of the nitrogen fixing properties of certain plants, for countless generations they were used as part of a crop rotation or as a symbiotic partner in a permanent pasture. The commercial benefits of rhizobia were never explored or exploited in cereal crops, why that is the case, we could surmise it is because nobody saw real potential in developed countries. Emer Hickey, Ciara Judge and Sophie Healy Thow were looking at a different market. Inspired by a geography lesson on famine, they set out to examine the effects of these soil bacteria, which absorb atmospheric nitrogen, on crops like wheat, barley and oats. The girls spent three years on their experiment, testing 13,000 seeds; they started in the spare room, moved into the kitchen then the sitting room, the conservatory and eventually the garden. A control site followed and the results are impressive. The treated seeds germinated 50% faster than the untreated seeds and the output of barley was 70% greater than the untreated. Applying bacteria to

seeds is nothing new, the much maligned Monsanto produce Bt corn, incorporating naturally occurring bacteria to ward off a maize pest, the European corn borer, with great success. The plant as a result produces a protein that kills the borer larvae. The need for sprays on these crops is reduced by 90%, resulting in much less collateral damage, so that other "innocent" species of insects can continue to thrive.

The Google win could well be described as the meeting of science and serendipity. The world of very wealthy, influential and visionary philanthropists meets that of three passionate young scientists. An idea that could dramatically reduce world hunger and famine almost overnight meets the means of funding such a programme. There would need to be rigorous trials done first, but the potential to increase yields in regions of the world without access to artificial nitrogen and indeed perhaps in regions not so remote cannot be dismissed easily. Organic farmers the world over will be watching this development for their own benefit. What about grassland farming here in Kerry, the view of these three girls is that any plant that contains flavonoids can trigger the bacteria. Ryegrasses fall into that category. Is it possible that we will see a day when spreading nitrogen on pasture is unnecessary; we will follow developments with interest. The opportunities for this technology are endless but for now our trio must content themselves with a trip to the Galapagos Islands, astronaut training and \$75,000 in prize-money and scholarships. I have a feeling we will hear from them again.

# STRONG TURNOUT AT BEEF PRICE PROTESTS HIGHLIGHTS ANGER OVER €350 PRICE GAP WITH UK

IFA President Eddie Downey said the strong turnout of thousands of farmers at meat plants around the country today in support of IFA's 24-hour beef price protests illustrates the level of anger over the massive €350 per head cattle price gap that has now opened up with our main export market in the UK. He said, "At their peak on Tuesday, the protests were attended by over 10,000 farmers who turned out to voice their deep frustration with the factories. They have had a very tough year. Our main markets have recovered strongly and farmers are not prepared to tolerate loss making prices any longer." Eddie Downey said nobody can explain to farmers why our beef prices are €350 behind those paid to farmers in our main UK market. In the last number of weeks, prices in the UK have increased by over €100 without any increase in Irish prices. Irish prices are now below the EU average. This is very unfair and farmers are right to react with protests across the country. The IFA President said for the past 12 months, farmers have been hammered with loss-making prices and specification cuts that have decimated their incomes. "Farmers cannot continue to sell cattle at a loss. Teagasc figures show that on our most efficient farms, producers need a base price of at least €4.00/kg." Eddie Downey said farmers are very determined that beef prices at the factories must rise to fairly reflect the very strong

increase in UK cattle prices, where Irish beef sales are up 20% this year. Current prices in Britain for R grade steers are running at the equivalent of €4.74/kg incl vat, which is €1/kg higher than the €3.73/kg Irish price. He called on the meat factories to reflect the improved market situation in beef prices to Irish farmers without any further delay. IFA National Livestock Chairman Henry Burns said livestock farmers are very angry with the failure of the Minister of Agriculture Simon Coveney to tackle the factories on the beef issues that have seriously damaged the sector and farm incomes

since last January. He said farmers feel let down on the beef specification issues and the Minister's failure to insist that the factories implement the Quality Payment System or price grid in a fair way in line with their agreement with suppliers. Henry Burns said IFA has repeatedly requested Minister Coveney to deal with a number of issues on beef including resolving the problems for the live trade to the North, the need for more competition and transparency in the trade and for increased monitoring and controls on carcass trim, weights and classification for farmers in the factories.

## IT, TRALEE AGRICULTURAL ENGINEERING STUDENTS TAKE ON A PROJECT FOR SWAZILAND

'Give a person a fish, but better still teach them to fish', were the words of the Anglican Bishop of Swaziland when she visited Ireland in June 2013. Since 2010 the United Missionary Society of Ireland have been working with the Diocese of Swaziland to turn unused church land into a vegetable farm project. Besides thousands of cabbages, broccoli, cauliflower, butternut squash, beetroot and maize, the farm now produces some 2,500 kilos of carrots per week. First the carrots were washed by hand, then in a modified cement mixer, but with increasing demand from local supermarkets and a profitable export market in South Africa for quality vegetables, a more efficient method of washing carrots was urgently required. The Board of Mission for the United Dioceses of Ardfert, Limerick and Killaloe have been supporting the Luyengo Farm Project in Swaziland since 2011. Together they approached the staff of the Agricultural Engineering Department at the IT, Tralee, to design and build a carrot washer. Based on the Departments knowledge and experience of making equipment for Africa since 1985 they agreed

to take on the project. Two third year students Brenda O'Sullivan from Farmers Bridge, Tralee and John Doyle from Beaufort, Killarney both studying for the Ordinary Degree in Agricultural Engineering volunteered to design and build a carrot washer as their major project. Commenting on the project Dr Joseph Walsh, Head of School, School of Science, Engineering, Technology & Mathematics (STEM) said: "With hard work and assistance and advice from the technician staff of the Agricultural Engineering Department, they were able to complete their objective, to produce a machine which is not only a novel method of washing carrots but also capable of washing a wide range of vegetables. The vegetable washer was handed over to Ms Linda Chambers, CEO of the United Missionary Society, at a presentation/blessing service held in the Institute earlier this month. In December it will be packed into a container along with other much need items for schools and medical care centres throughout the Diocese of Swaziland and if all goes to plan, be washing carrots by the end of February 2015".

## MASS IN KERRY GENERAL HOSPITAL:

The annual November Mass for patients (including those who died by stillbirth and miscarriage) who died in Kerry General Hospital during the year will be celebrated in the hospital chapel on this Monday November 3rd at 7.30pm. Relatives and friends are invited.

## HALLOWEEN SAFETY TIPS

- If you have to leave your pet alone, turn on the radio or TV to help deaden the sound of fireworks.
- Halloween treats are for humans, not pets! Chocolate in all forms can be very dangerous for dogs and cats.
- Candy containing sweetener xylitol can cause problems for pets. Keep them away from all candy!
- Pumpkins and decorative corn can upset pet's stomachs. Make sure they don't eat them!
- Dressing your pets up? Be sure costumes fit and there are no loose bits for pets to choke on.
- Pets should be kept away from the front door. Too many strangers can be scary/stressful for pets.
- Keep wires and cords from electric lights and other decorations out of reach of your pets.
- Exercise caution if you choose to add a candle to your pumpkin. Pets can easily knock it over!
- Make sure your pet has proper ID. If your pet escapes and becomes lost it can be a lifesaver.

## HAVING A BONFIRE?

Every year, an unknown number of hedgehogs and other animals are burned alive because bonfire piles are not being checked before being lit.

To help protect hedgehogs, stick to these guidelines when building your bonfires: Build your bonfire on the day it is to be lit so there is less chance of hedgehogs taking up residence in your pile. Make your pile of material elsewhere and re-site the entire stack before lighting. Always search the bonfire for hibernating

creatures by lifting the base of the pile with a broom handle and using a torch to look inside. Listen carefully for hissing sounds when investigating your pile — this is the noise hedgehogs make when disturbed.

If you find a hedgehog or any live animal move them somewhere safe and away from the fire. Once common, hedgehog sightings are now becoming a rare occurrence. Down from an estimated 36 million in the 1950s, there are now thought to be fewer than one million hedgehogs left in Great Britain and Northern Ireland.

Their dramatic decline in numbers is largely due to habitat loss, development pressures, road traffic and loss of food sources caused by intensive farming and use of slug pellets. Hedgehogs are a creature we all need to work to protect as every single one is precious.

## BACK TO THE FUTURE

Teff, is a diminutive ancient grain that's been feeding Ethiopia for 5,000 years, it's drought resistant, easy to harvest and cook and helped to drag Ethiopia out of the 1983 famine, which ravaged the war-torn nation for three years. Subsistence farming became a necessity for rural families in the wake of the crisis, which killed an estimated 400,000 people. Teff's high nutrient density—it contains 26 grams of protein per cup—and high yields made it a staple crop during scarce times.

"There was nothing to eat. There was not any food even to see," said one Ethiopian farmer "To prevent it from happening again, we must work hard and take care."

The Ethiopian government has the good sense to prohibit the export of any raw teff product, so it can't be shipped from a poor nation half a world away.

Some American farmers are taking note of the ancient grain's resilience and believe it could be a useful tool in mitigating the effects of drought on livestock. At New Mexico State University's Agriculture Experiment Station, cows and horses are fed a rotating diet of alfalfa and teff, cutting the facility's water usage by 25%. It is also being grown as a consumer crop by The Teff Company in Idaho's Snake River Valley

where the long summers, intense heat spells, and basaltic soil mimic the climate and geology of East Africa.

## WILL THERE BE ANYTHING LEFT FOR THE CHILDREN OF THE FUTURE TO SEE?

\*Vaquitas are tiny, curious-looking porpoises that live only in Mexico's Gulf of California and are now teetering on the brink of extinction. A mere 97 of the animals remain, down from 200 in 2012; scientists say they may be extinct by 2018.

Illegal fishing is driving them into oblivion. Vaquitas are getting caught in fishing gear and killed — especially in nets set for another endangered species called the totoaba, a giant marine fish. It's illegal to fish or export totoaba, but there's a growing black market for the fish's bladder, which is used in China to make a purportedly fertility-boosting soup. A single totoaba bladder can sell for \$14,000 — a business so lucrative that Mexican drug cartels have joined the totoaba bladder trade.

\*Because of habitat destruction, pesticides, climate change and other human-driven causes, nearly 1 in 4 amphibians and reptiles globally is at risk of extinction. They've been around for hundreds of millions of years, but are now dying off at up to 10,000 times the historic rate. This loss is deeply alarming, not only for the sake of the creatures themselves but because they play important roles in the natural places where they evolved.

\*Pinto abalone — ocean snails with iridescent shells — were once common along rocky coasts from Alaska to Baja California, but some populations along the West Coast have plummeted by up to 99%. The primary culprits are climate change, ocean acidification, overfishing and poaching.

\*The northern white rhino is in a perilous situation. Only seven existed in the world, but recently, that number was brought down to six when Suni, one of only two males who was of age to breed, was found dead in his pen. Although there have been no reports as to what caused the death, conservationists note that it wasn't poaching. Living at the Ol Pejeta conservancy park in Kenya, he was 34 years old at the time of his death. Most northern white rhinos live up to 40-50 years, although it's not unheard of for them to die in their mid-thirties. The situation gets even worse: even though there are six northern white rhinos left in the world, only three are able to breed. One male rhino and two females are the only hope this subspecies has left. Females don't reach sexual maturity until 6-7 years of age, while the males generally have to wait until they are 10-12. If they mate, offspring is not always produced. If the female does become pregnant, gestation can take up to a year and a half and only produces a single calf.

## WELL DONE

This weeks well done goes to Valentia Coast Guard and Toe Head Glandore Coast Guard for the rescue of 4 young dogs from a 100ft mine shaft in Cork.

The dogs were out hunting with their owners on Monday October 20th when they fell through a hole into the mine shaft between Leap and Glandore, two beagle pups and a terrier were lifted to safety on Monday, after Cliff Rescue Coastguard Volunteers abseiled down the mineshaft and used a bucket and rope to deliver the dogs to safety. The pups, Peggy, Megan and Cracker were reunited with their owners, but the fourth pup, a 12-month old beagle named Taylor, escaped the clutches of the Toe Head Glandore Coast Guard team by running further down the disused shaft during the initial attempts to save her.

As the new rescue bid for Taylor began on Tuesday, a Valentia Coast Guard spokesman said they had received old plans for the structure, "It was quite a large mine. It's a big drop with the shaft running at least 80ft-100ft north and south of the hole."

Coastguard volunteer Will Gander, a rock climbing instructor with eight years experience, guided Taylor's owner down the mineshaft during Tuesdays rescue mission, so the dog could hear a familiar voice. "The dog was cowering and growling and barking at us, she was really scared. The first day she ran

from us so having her owner there made a big difference. He was very calm and relaxed and did exactly as he was instructed," Mr Gander said.

Richard Hurley, the officer in charge of the team, said: "The pup came running and he put him in a bag and brought him up.

A spokesperson for the Coastguard said: "With things like this there is a danger of owners trying to rescue the dog or pet themselves and that leads to very dangerous situations. We have a cliff climbing team and a boat so we are well trained to deal with cases like these."

## FOR THE SEASON THAT'S IN IT - DRACULA'S AUTHOR

Abraham "Bram" Stoker was born on 8 November 1847 at 15 Marino Crescent, Clontarf, on the northside of Dublin. The third child of seven children of Abraham Stoker (1799-1876), from Dublin, and his wife Charlotte Mathilda Blake Thornley (1818-1901), who was raised in County Sligo. Abraham and Charlotte were members of the Church of Ireland Parish of Clontarf and attended the parish church with their children, who were baptised there.

Bram Stoker was a bedridden child who never stood upright until the age of seven and was often at the point of death as a baby.

During his lifetime, Stoker was not known as a novelist but as the personal assistant of actor Henry Irving and the business manager of the Lyceum Theatre in London, a post he held for 27 years. Among his first books was a bureaucratic nonfiction legal administration guide, "The Duties of Clerks and Petty Sessions in Ireland." Stoker began writing novels in 1890 as director of the Lyceum Theatre, beginning with "The Snake's Pass" in 1890 and "Dracula" in 1897.

The original 541-page manuscript of "Dracula" had been lost until it was unearthed in a barn in Pennsylvania during the 1980s. Though the manuscript itself was typed, the title was handwritten "The Un-Dead." The title of the worlds most famous vampire novel, it turns out, was changed at the last minute as was the name of the novel's central character, "Count Dracula," which was originally "Count Wampyr." Unlike most adaptations, which typically appear years after the novel on which they are based, the theatrical adaptation of "Dracula" was written by Stoker himself and presented before the novel's publication. It debuted at the Lyceum Theatre where Stoker worked under the title, "Dracula, or The Undead," and was performed only once.

Following that first theatrical adaptation, and of course, the novel itself, came a flood of Dracula-inspired films. The Internet Movie Database estimates some 217 films have been released featuring Dracula in a main role and some 300 films, foreign and domestic, inspired by Dracula.

After reading a historical account of the Romanian regions of Wallachia and Moldavia, Stoker became fascinated with the name "Dracula." The name itself is a personal name based on the given name of one's male ancestors. The descendants of Vlad II, Duke of Wallachia, adopted the name "Dracul" after joining the chivalric Order of the Dragon in 1431.

In 1878 Stoker married Florence Balcombe from Newcastle, County Down. She was a celebrated beauty whose former suitor was Oscar Wilde. The Stokers moved to London and on the 31st December 1879, Bram and Florence's only child was born, a son whom they christened Irving Noel Thornley Stoker.

After suffering a number of strokes, Bram Stoker died at No. 26 St George's Square, London on 20 April 1912. Florence Stoker died on the 25th

## HALLOWEEN

Ireland is believed to be the birthplace of the Halloween festival. The Irish tradition dates back to the eighteenth century.

Halloween takes its roots from the old Celtic festival Samhain Eve, when it was believed that the link between the worlds of living and dead was at its strongest.

Many of the Celtic Halloween traditions live on in Ireland today and were brought to America by Irish immigrants in the nineteenth century. Traditionally an Irish Halloween dinner would include boiled potatoes, cabbage and raw onions. Cleaned coins were wrapped in baking paper and hidden in the potatoes for the children to find and keep.

The barnbrack cake is traditionally served for dessert. It is a fruitcake that before health and safety used have a rag, ring, piece of a timber match, a pea and coin hidden within. The rag represents a doubtful financial future, the ring represents impending romance and happiness, the timber represents a coffin, the pea crossing water (emigration) and the coin represents prosperity. It is believed that the individual that finds the hidden treasure will also find that respective fate.

People would dress in ghost and goblin costumes to confuse the spirits that wandered the Earth on this night, so that they would not be taken by them.

The legend of the Jack O'Lantern also goes back to the eighteenth century, it was said that an Irish blacksmith called Jack was denied entry to Heaven after he has was found to have colluded with the Devil. He was condemned to wander the Earth and his only light was a burning coal inside a hollowed out turnip. The villagers believed that placing a Jack O'Lantern in their window would keep the damned soul of the wandering blacksmith away.

When the Irish emigrants arrived in America and carried on the tradition they resorted to using pumpkins instead of turnips.

## GARDENING OUTLOOK

### FOCUS ON PRUNING APPLE TREES

Apple trees should be pruned every winter if you want a good crop of fruit the following season. If you don't prune your apple trees every year, they can become congested with a lot of old branches and don't produce as much fruit as it would when pruned.

It is not a very difficult job to prune an apple tree. All you need to remember is that you want to create an open centre with about half a dozen main branches. You should prune your apple trees when they are dormant, that is between November and early March.

When you start pruning your apple trees always use a sharp pair of secateurs, loppers or pruning saw.

The point branches to start are those that are diseased, dead or damaged, then start by pruning those that are crossing each other.

Try to remember to keep the centre of the tree open even if you have to remove large branches.

### Know Your Rights: PAYING FOR WATER

#### QUESTION

I live with my 2 small children in a standard town house. The water meter was installed this summer. How much will my water bills be? Can I get tax relief?

#### ANSWER

Irish Water provides two services – water supply and wastewater (sewage) services. As you are in a town house, I presume that you use both services, so the charge is €4.88 per 1,000 litres in your case.

There is a free allowance of 30,000 litres per year for every household. This is worth €146.40 per year to you. If you are getting Child Benefit for your children, you can claim two free child allowances of 21,000 litres per year. These are worth €102.48 each per year.

You apply to Irish Water for these allowances, either on the form that has issued to every household, online at [water.ie](http://water.ie) or by phone at 1890 448 448. You will need to provide your own Personal Public Service Number (PPSN) and your children's PPSNs. Irish Water will use these numbers to check that you are entitled to the allowances.

In general, you will be billed for the amount of water you use each quarter, but your first three bills, starting in January 2015, will be capped at standard assessed charges. These assessed charges are based on the standard assessed consumption for each household size.

This capping means that the most you can be charged on these first three bills is the standard assessed charge for your family size – one adult and two children, based on standard quarterly usage of 27,000 litres. Of course, if you use less than this amount of water, you will only be charged for the metered amount.

As you are using both water supply and wastewater services, the assessed charge will be €527.04 for a full year before allowances.

Your free allowances add up to €351.36, giving an annual assessed charge, after allowances, of €175.68. This leaves a quarterly charge of €43.92, so the most that you can be charged for the first three quarters is €43.92 per bill.

If you pay income tax, you can claim relief at 20% on the water charges, up to a maximum of €500 per year. This equates to a maximum tax credit of €100.

### HUG YOUR MONSTERS!

I remember as a child being terrified of my bedroom curtains! They always hung in a way that looked as if someone was hiding behind them. I would have to ask my Mum to make sure that no one was there and she would have to shake them free of the odd shapes they made. As a child our fears can seem very real but all it takes is someone to reassure us that it's really just a curtain or that there isn't a monster hiding underneath the bed to make our fears disappear. As adults, the monsters we create are often hiding in our own minds. They come in all shapes and sizes and disguise themselves as self-doubt, not feeling good enough, anxiety for the future, regrets about the past, stress of what others might be thinking about us and fear of failure (and also success!). The interesting thing about them is that they too are usually created in childhood and all belong to the fear family!

The other thing to know about these monsters is that they are illusions – they're not real! And, just like the shadows that scared us as children, these monsters simply don't stand up in the light of day or conscious and curious questioning.

#### THREE STEPS TO BANISHING YOUR MONSTER!

- Face it! Get clear on what this fear is and how it stands in the way of your happiness
- Challenge and dispute it by asking yourself questions about the fear it brings... Say to yourself, "Really is that true?"
- Tell the truth about what you want and what you desire. Very often our monsters are really only our own inner voices within us just asking to be heard.

And finally just like any fear that has been left alone to gather cobwebs and linger in the dark, all it really needs is a loving and kind embrace as you reassure yourself that everything is okay and always will be.
